SETUP AND INSTALLATION

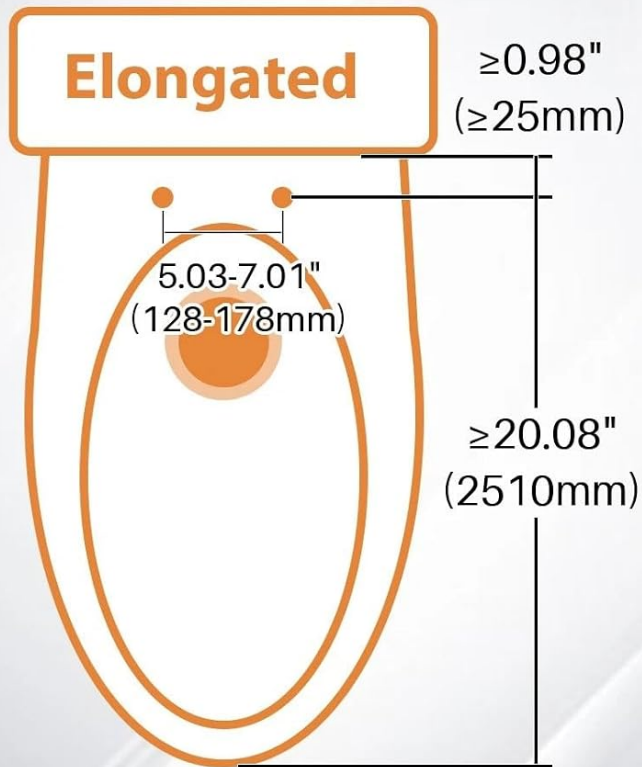

This bidet toilet seat is designed for easy installation. Please ensure your toilet is a two-piece, elongated model and confirm its dimensions carefully before proceeding to ensure a perfect fit. A 110-120 Volt outlet is required for power.

Toilet Compatibility and Dimensions

Before installation, measure your toilet to ensure compatibility. The bidet seat is designed for elongated toilets with specific dimensions.

INSTALLATION GUIDE

Please check the size before purchase it

Outlet may fit or may not fit

110-120 Volt Outlet is Required
Power Cord Length 1.5m(4.8 ft)

Image: Installation guide with toilet dimensions and power requirements.

Installation Steps (General Overview)

1. **Prepare the Toilet:** Turn off the water supply to the toilet and flush to empty the tank. Remove your existing toilet seat.
2. **Install Mounting Bracket:** Secure the installation bracket to the toilet bowl using the provided steel brackets and screw kit.
3. **Connect Water Supply:** Install the three-way connector to the toilet's water supply valve. Connect the braided hose from the bidet seat to the three-way connector.
4. **Attach Bidet Seat:** Slide the bidet toilet seat onto the installed mounting bracket until it clicks into place.
5. **Connect Power:** Plug the bidet seat's power cord into a grounded 110-120 Volt electrical outlet.
6. **Restore Water Supply:** Slowly turn on the water supply to the toilet and check for leaks.

For detailed, step-by-step instructions, refer to the dedicated installation guide included in your package.

OPERATING INSTRUCTIONS

The iMeshbean AJ23667 bidet toilet seat offers a range of features for enhanced hygiene and comfort, controlled via the included remote.

Remote Control Functions

The remote control allows you to adjust various settings for a personalized experience.

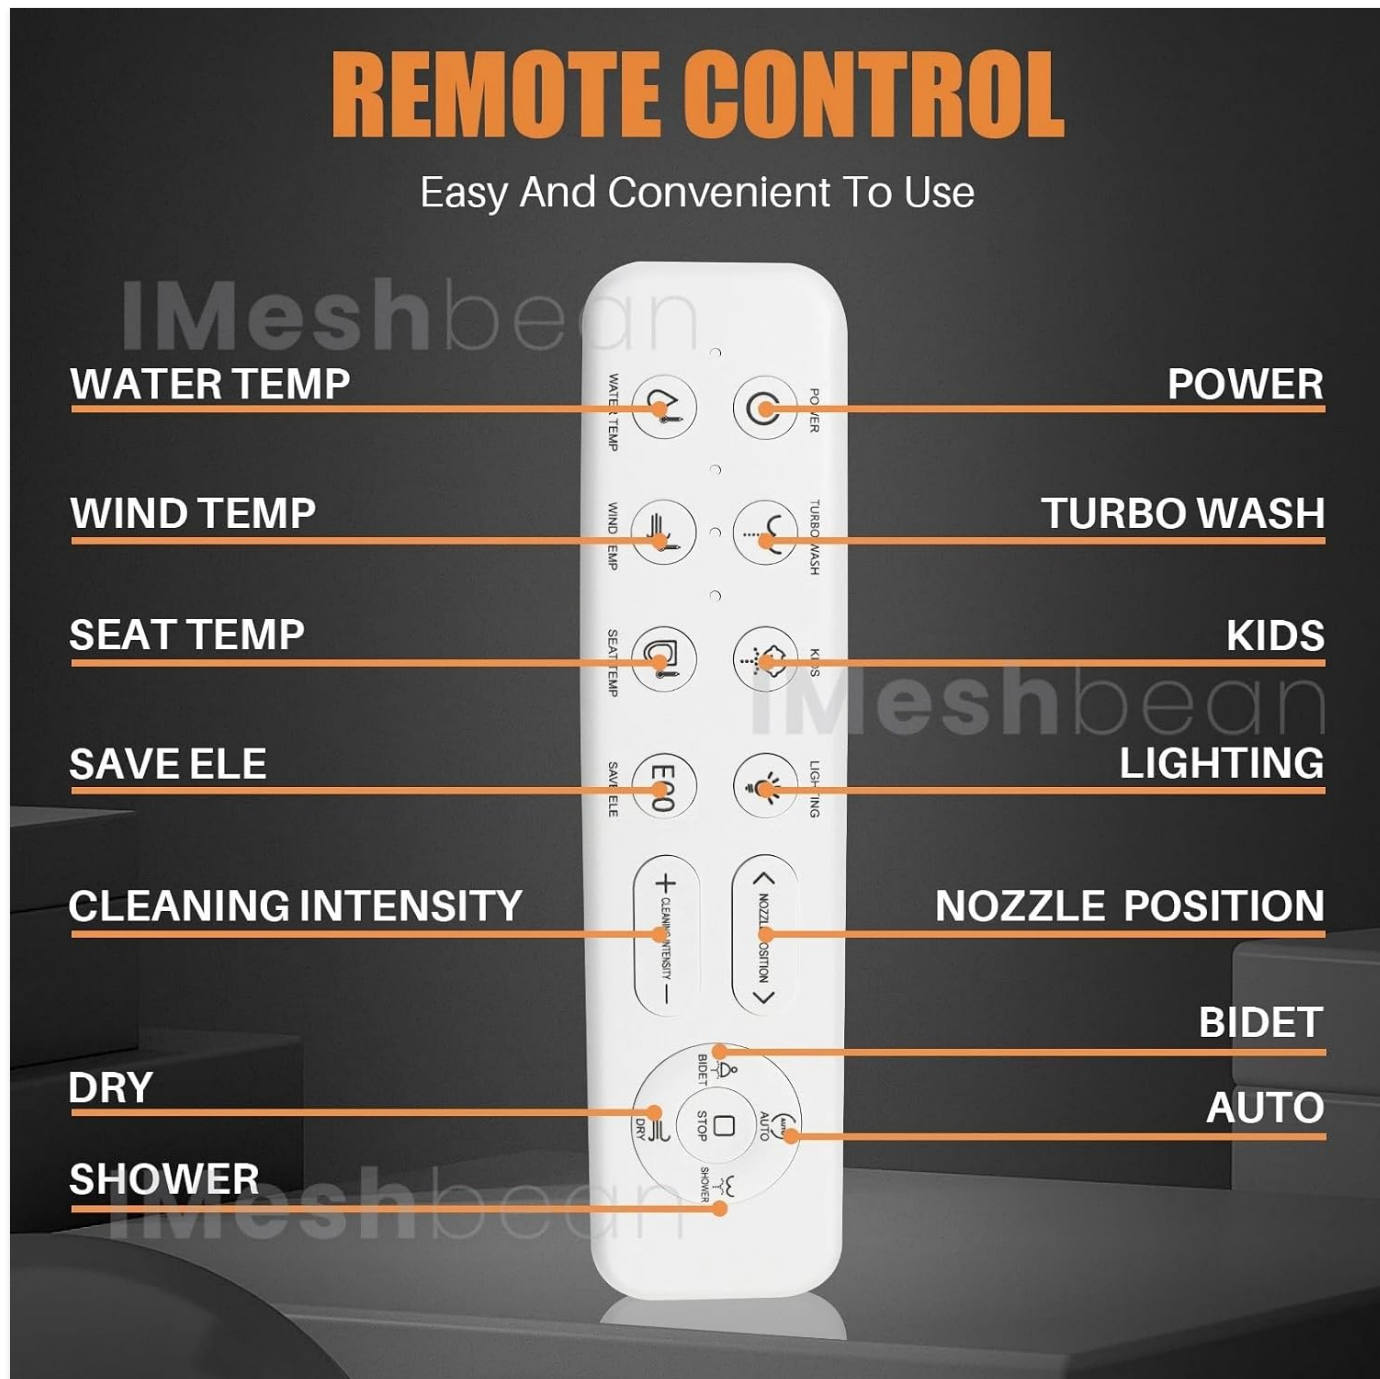

Image: Remote control layout and button functions.

- **Power:** Turns the unit on/off.
- **Water Temp:** Adjusts water temperature (four levels).
- **Wind Temp:** Adjusts air drying temperature (four levels).
- **Seat Temp:** Adjusts seat heating temperature (four levels).
- **Cleaning Intensity:** Increases or decreases water pressure.
- **Dry:** Activates the warm air dryer.

- **Shower (Posterior Wash):** Initiates posterior cleansing.
- **Bidet (Feminine Wash):** Initiates feminine cleansing.
- **Turbo Wash:** Provides a stronger wash.
- **Kids:** Activates a gentle wash cycle suitable for children.
- **Lighting:** Toggles the night light on/off.
- **Nozzle Position:** Adjusts the nozzle's forward/backward position.
- **Auto:** Initiates an automatic wash and dry cycle.
- **ECO Mode (Save ELE):** Activates energy-saving mode, which intelligently lowers the seat temperature.

Cleaning Modes

The bidet offers multiple cleaning modes for comprehensive hygiene.

Image: Multi-cleaning modes including Hip Cleaning, Feminine/Front Wash, Mobile Massage, and Self-cleaning Nozzle.

- **Posterior Wash (Shower):** Standard cleansing for the posterior area.

- **Feminine Wash (Bidet):** Gentle cleansing for the feminine area.
- **Mobile Massage:** Provides a comfortable, circulating water spray.
- **Turbo Wash:** A stronger, more focused wash.
- **Kids Mode:** A softer, temperature-controlled wash suitable for children.

Comfort Features

General Cleaning

- Disconnect power before cleaning.
- Wipe the exterior surfaces with a soft, damp cloth and a mild, non-abrasive cleaner.
- Do not use harsh chemicals, abrasive cleaners, or brushes, as these can damage the surface.
- Ensure no water enters the electrical components.

TROUBLESHOOTING

If you encounter issues with your iMeshbean AJ23667 bidet toilet seat, please review the following common solutions. If the problem persists, contact customer support.

- **No Power:** Ensure the power cord is securely plugged into a working outlet. Check your circuit breaker.
- **No Water Spray:** Verify that the water supply valve is fully open and the braided hose is properly connected. Check

for kinks in the water hose.

- **Weak Water Pressure:** Adjust the cleaning intensity using the remote control. Ensure water supply pressure is adequate.
- **Seat Not Heating:** Check the seat temperature setting on the remote. Ensure ECO mode is not active if you desire higher seat temperatures.
- **Air Dryer Not Working:** Check the wind temperature setting on the remote.
