ONBRILL H1 Plus

ONBRILL H1 Plus Expandable Wall Mounted Closet System

INSTRUCTION MANUAL

1. Introduction and Overview

Thank you for choosing the ONBRILL H1 Plus Expandable Wall Mounted Closet System. This system is designed to provide flexible and robust storage solutions for your clothing and accessories. It features two telescopic rods and two expandable wire shelves, allowing for adjustment from 23.6 inches to 39.4 inches in width to fit various closet spaces. The industrial pipe design ensures durability and stability, making it suitable for walk-in and reach-in closets, bedrooms, boutiques, or laundry rooms.

This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure safe and efficient use of your new closet system.

2. Safety Information

Please read all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Wall Mounting:** This is a wall-mounted system. Ensure it is securely anchored to a suitable wall type using the provided wall-anchoring kits. Different kits are supplied for drywall, concrete, hollow walls, and tile. Proper installation is crucial for stability and to prevent tipping.
- **Weight Capacity:** Do not exceed the maximum weight capacity of the shelves and rods. Overloading can compromise the structural integrity and lead to collapse. The system has a weight capacity of up to 800 lbs when properly installed.
- **Assembly:** Assemble the unit on a soft, clean surface to prevent scratches. It is recommended to have two people for assembly to ensure safety and ease of installation.
- **Children and Pets:** Keep children and pets away from the assembly area. Do not allow children to climb on or play with the assembled unit.
- **Regular Checks:** Periodically check all connections and wall anchors to ensure they remain tight and secure.

3. Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- 2 Expandable Shelves
- 2 Telescoping Rods
- Vertical Support Pipes (various lengths)
- Wall Mounting Brackets and Hardware (for different wall types)
- Connectors and Fasteners
- Assembly Instructions (this manual)

4. Setup and Assembly

The ONBRILL H1 Plus closet system features a smart thread-to-thread connection design for quick and secure assembly without specialized tools. Follow these steps carefully:

1. **Prepare the Area:** Choose your desired installation location. Ensure the wall is structurally sound and clear of electrical wires or plumbing. You will need an assembly space with a minimum height of 7'6" (88.6 inches).
2. **Assemble Vertical Pipes:** Connect the vertical pipe sections by screwing them together using the thread-to-thread design. Ensure all connections are tight.
3. **Attach Wall Mounting Brackets:** Secure the wall mounting brackets to the top and middle sections of the vertical pipes.
4. **Mark Wall Positions:** Hold the assembled vertical structure against the wall at the desired height. Use a level to ensure it is straight. Mark the positions for drilling the wall anchors.
5. **Install Wall Anchors:** Drill pilot holes at the marked positions. Insert the appropriate wall anchors for your wall type (drywall, concrete, hollow wall, or tile).
6. **Mount the System:** Securely attach the vertical pipes with brackets to the installed wall anchors.
7. **Install Shelves:** Attach the plastic clips to the vertical pipes at your desired shelf heights. Ensure the arrows on the clips point upwards and they are securely slotted into the grooves. Place the expandable wire shelves onto these clips. Ensure the mesh direction is proper for stability.

5. Operating and Usage

The ONBRILL H1 Plus system is designed for versatility and adaptability.

- **Adjusting Width:** The shelves and rods are telescopic, allowing you to adjust the width of the system from 23.6 inches to 39.4 inches to fit your specific closet dimensions. Simply pull or push the expandable sections to achieve the desired width.
- **Adjusting Shelf Height:** The wire shelves can be repositioned along the vertical pipes to accommodate items of different heights. Loosen the clips, adjust the shelf to the new height, and re-secure the clips.
- **Storage Optimization:** Utilize the top shelf for bags, hats, or storage boxes. The two hanging rods are ideal for organizing shirts, dresses, pants, and coats. The bottom shelf can serve as a shoe rack or for additional storage.

Recommended Spatial Range

You can adjust the shelf and rod lengths to fit your closet space.

Minimum Size:

2'

Maximum Size:

3'4"

Image 5.1: Demonstrates the minimum (2') and maximum (3'4") recommended spatial range for the adjustable closet system.

Telescopic Shelves & Rods

Extension Range: 23.6" - 39.4"

Before extension: Fits **25-30** items

After extension: Fits **40-50** items

6. Maintenance

To ensure the longevity and appearance of your ONBRILL H1 Plus closet system, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the carbon steel pipes and wire shelves with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Dusting:** Regularly dust the shelves and rods to prevent buildup.
- **Inspection:** Periodically inspect all connections, especially the wall anchors and pipe joints, to ensure they remain secure. Tighten any loose fasteners as needed.

7. Troubleshooting

If you encounter any issues with your ONBRILL H1 Plus closet system, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
System feels unstable or wobbly.	Loose wall anchors or pipe connections. Uneven installation.	Ensure all wall anchors are securely fastened and all pipe connections are tightly screwed. Verify the system is level during installation.
Shelves slide down or are not level.	Shelf clips not properly secured or oriented. Overloading the shelf.	Ensure shelf clips are fully snapped into the pipe grooves and the 'TOP' arrow points upwards. Redistribute weight if overloaded.
Difficulty expanding/contracting rods or shelves.	Friction or misalignment.	Gently apply even pressure. Ensure no obstructions. A small amount of silicone lubricant can be applied if necessary, but avoid oil-based lubricants.
Missing parts during unboxing.	Packaging error.	Contact ONBRILL customer support immediately with your purchase details.

8. Specifications

Feature	Detail
Brand	ONBRILL
Model Number	HT-127-127
Color	Black
Material	Carbon Steel
Item Dimensions (L x W x H)	39.4 x 11.8 x 88.6 inches
Adjustable Width Range	23.6 inches - 39.4 inches
Item Weight	18.7 Pounds
Mounting Type	Wall Mount
Included Components	2 Expandable Shelves, 2 Telescoping Rods, Assembly Instructions

Weight Capacity: 800 LBS

Assembly Space: at least a height of 7'6"
