Garvee HJS-GV-GrillTent-2Side-Grey-J2F

Garvee 8x5 Grill Gazebo Outdoor BBQ Canopy Instruction Manual

Model: HJS-GV-GrillTent-2Side-Grey-J2F

1. Safety Information

Please read and understand all safety warnings before assembling or using this product. Failure to follow these instructions may result in injury or damage.

- Always keep the gazebo at least 3 feet away from any heat sources or open flames.
- Do not use the gazebo in windy conditions. Strong winds can cause structural damage or collapse.
- When assembling or disassembling the gazebo, always keep the frame and ribs away from your body to prevent injury.
- Always secure the gazebo to the ground using the included metal stakes for enhanced stability. Additional anchoring may be required in certain conditions.
- Do not use the included light in wet conditions. Ensure all electrical components are dry before use.
- Always follow the assembly instructions carefully to avoid injury and ensure proper setup.

2. Product Overview

The Garvee 8x5 Grill Gazebo is designed to provide a shaded and functional area for outdoor grilling and entertaining. Key features include:

- **Adjustable Dual Side Awnings:** Provides customizable shade and protection from light rain at 3 different angles.
- **Ventilated Double-Tier Canopy:** Enhances air circulation and allows smoke to escape easily. The canopy fabric is sun-protective, drizzle-resistant, and CPAI-84 fire-resistant.
- **Heavy-Duty Steel Frame:** Constructed with a thickened, powder-coated steel frame for rust and peel resistance, ensuring durability.
- **Integrated Shelves and Hooks:** Two ventilated metal side shelves offer space for food and tools, while 7 hooks keep utensils organized.
- **Ceiling Light Hook:** A built-in hook allows for hanging a light, fan, or decoration (light included).
- **Spacious Design:** Measuring approximately 8 ft x 5 ft x 8.3 ft (L x W x H), it accommodates most grills and BBQ setups.

3. Setup and Assembly

Assembly of the Garvee Grill Gazebo requires careful attention to detail. It is recommended that two people perform the assembly to ensure stability and ease of construction. While the process can be time-consuming, following the diagrams closely will aid in successful setup.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the parts list in your included manual to identify each piece. Pay close attention to the diagrams, as some parts may appear similar but have subtle differences.
2. **Assemble the Main Frame:** Begin by connecting the main support poles and crossbars to form the base structure. Ensure all connections are secure before proceeding.
3. **Install the Roof Structure:** Attach the roof ribs and connectors to the main frame. This step often requires two people to lift and secure the components simultaneously.
4. **Attach the Canopy:** Drape the double-tier canopy fabric over the roof structure. Secure it according to the

instructions, ensuring it is taut and properly aligned for ventilation and water runoff.

5. **Install Side Awnings and Shelves:** Attach the adjustable side awnings to the designated frame points. Install the metal side shelves and secure them.
6. **Secure to the Ground:** Use the provided metal stakes to firmly anchor each leg of the gazebo to the ground. For added stability, especially in areas prone to wind, consider additional anchoring methods (not included).
7. **Add Accessories:** Install the ceiling light hook and any other accessories like the LED magnetic lights.

4. Operating Instructions

Using your Garvee Grill Gazebo is straightforward, offering convenience and protection for your outdoor cooking activities.

- **Adjusting Side Awnings:** The dual side awnings can be adjusted to three different angles. Locate the adjustment mechanisms on the awning supports and carefully move them to your desired position to block sun or light rain. Ensure both sides are adjusted evenly for optimal stability.
- **Utilizing Side Shelves:** The two metal side shelves provide a convenient surface for placing grilling tools, plates, condiments, or beverages. Avoid placing excessively heavy items on the shelves to prevent damage.

- **Using Tool Hooks:** Seven integrated hooks are available for hanging grilling utensils, towels, or other accessories, keeping them within easy reach while you cook.
- **Ceiling Light Hook:** The central ceiling hook is designed to hold a light fixture, fan, or decorative item. Ensure any item hung does not exceed the gazebo's weight capacity and is securely attached. The included LED magnetic lights can be placed on any magnetic surface of the frame for additional illumination.
- **Ventilation:** The double-tier canopy is designed to allow smoke and heat to escape, promoting better air circulation. Do not obstruct the upper vent opening.

5. Maintenance

Proper maintenance will extend the life and appearance of your Garvee Grill Gazebo.

- **Cleaning the Canopy:** Clean the polyester canopy fabric periodically with mild soap and water. Do not use harsh chemicals or abrasive cleaners, as these can damage the fabric's protective coating. Rinse thoroughly and allow to air dry completely before storage.
- **Frame Care:** Inspect the powder-coated steel frame regularly for any signs of rust or damage. Clean the frame with a damp cloth and mild detergent. Touch up any scratches with rust-inhibiting paint to prevent corrosion.
- **Hardware Check:** Periodically check all bolts, screws, and connections to ensure they are tight and secure. Retighten as necessary.
- **Winter Storage:** During winter months or periods of prolonged non-use, it is recommended to disassemble the canopy and store it in a dry, protected area to prevent damage from snow, ice, or extreme cold.
- **Wind and Storm Precautions:** In anticipation of strong winds or severe weather, it is advisable to lower the side awnings and, if possible, temporarily remove the canopy fabric to prevent damage.

6. Troubleshooting

This section addresses common issues you might encounter with your grill gazebo.

Problem	Possible Cause	Solution
Difficulty during assembly	Instructions unclear, mislabeled parts, or complex diagrams.	Refer primarily to the assembly diagrams. Ensure all parts are correctly identified before attaching. A second person is highly recommended for assembly. If parts are missing or incorrect, contact customer support.
Gazebo feels unstable or shaky	Improper anchoring, loose connections, or uneven ground.	Ensure all frame connections are tightened. Verify that the gazebo is placed on level ground. Use all provided metal stakes to secure the legs. Consider additional weights or anchors for increased stability, especially in windy areas.
Water pooling on canopy	Canopy not taut enough or improper installation.	Re-adjust the canopy fabric to ensure it is stretched tightly across the frame, allowing water to run off. Check that the roof structure is correctly assembled.
Side awnings do not adjust smoothly	Mechanism obstructed or dirty.	Clean the adjustment mechanisms and ensure no debris is blocking movement. Apply a silicone-based lubricant if necessary.

7. Specifications

Feature	Detail
Brand	Garvee
Model Number	HJS-GV-GrillTent-2Side-Grey-J2F
Product Dimensions (L x W x H)	203.94" x 48.03" x 97.24" (approximately 8 ft x 5 ft x 8.3 ft)
Floor Area	40 Square Feet
Item Weight	61.73 Pounds
Frame Material	Alloy Steel (Powder-Coated Metal)
Canopy Material	Polyester Fabric (CPAI-84 Fire-Resistant)
Water Resistance Level	Water Resistant
Ultraviolet Light Protection	UPF 100
Color	Gray
Assembly Required	Yes
UPC	822255763505

8. Warranty and Support

For warranty information, missing parts, or technical support, please contact Garvee customer service. Retain your purchase receipt for warranty claims.

Customer Service: Refer to the contact information provided with your product packaging or visit the official Garvee website.
