SETUP AND INSTALLATION

Follow these steps to connect your Leadjoy R20 Wireless USB Adapter to your Xbox console:

1. **Step 1:** Insert the R20 receiver into an available USB port on your Xbox console. Ensure the console is powered on.
2. **Step 2:** Connect your original Xbox controller to the R20's USB port using a USB cable.

- Step 3:** Once the controller's indicator light remains steadily lit, the connection is successful. You can now pair your Leadjoy controller with the R20 receiver.

The diagram below visually explains the connection process.

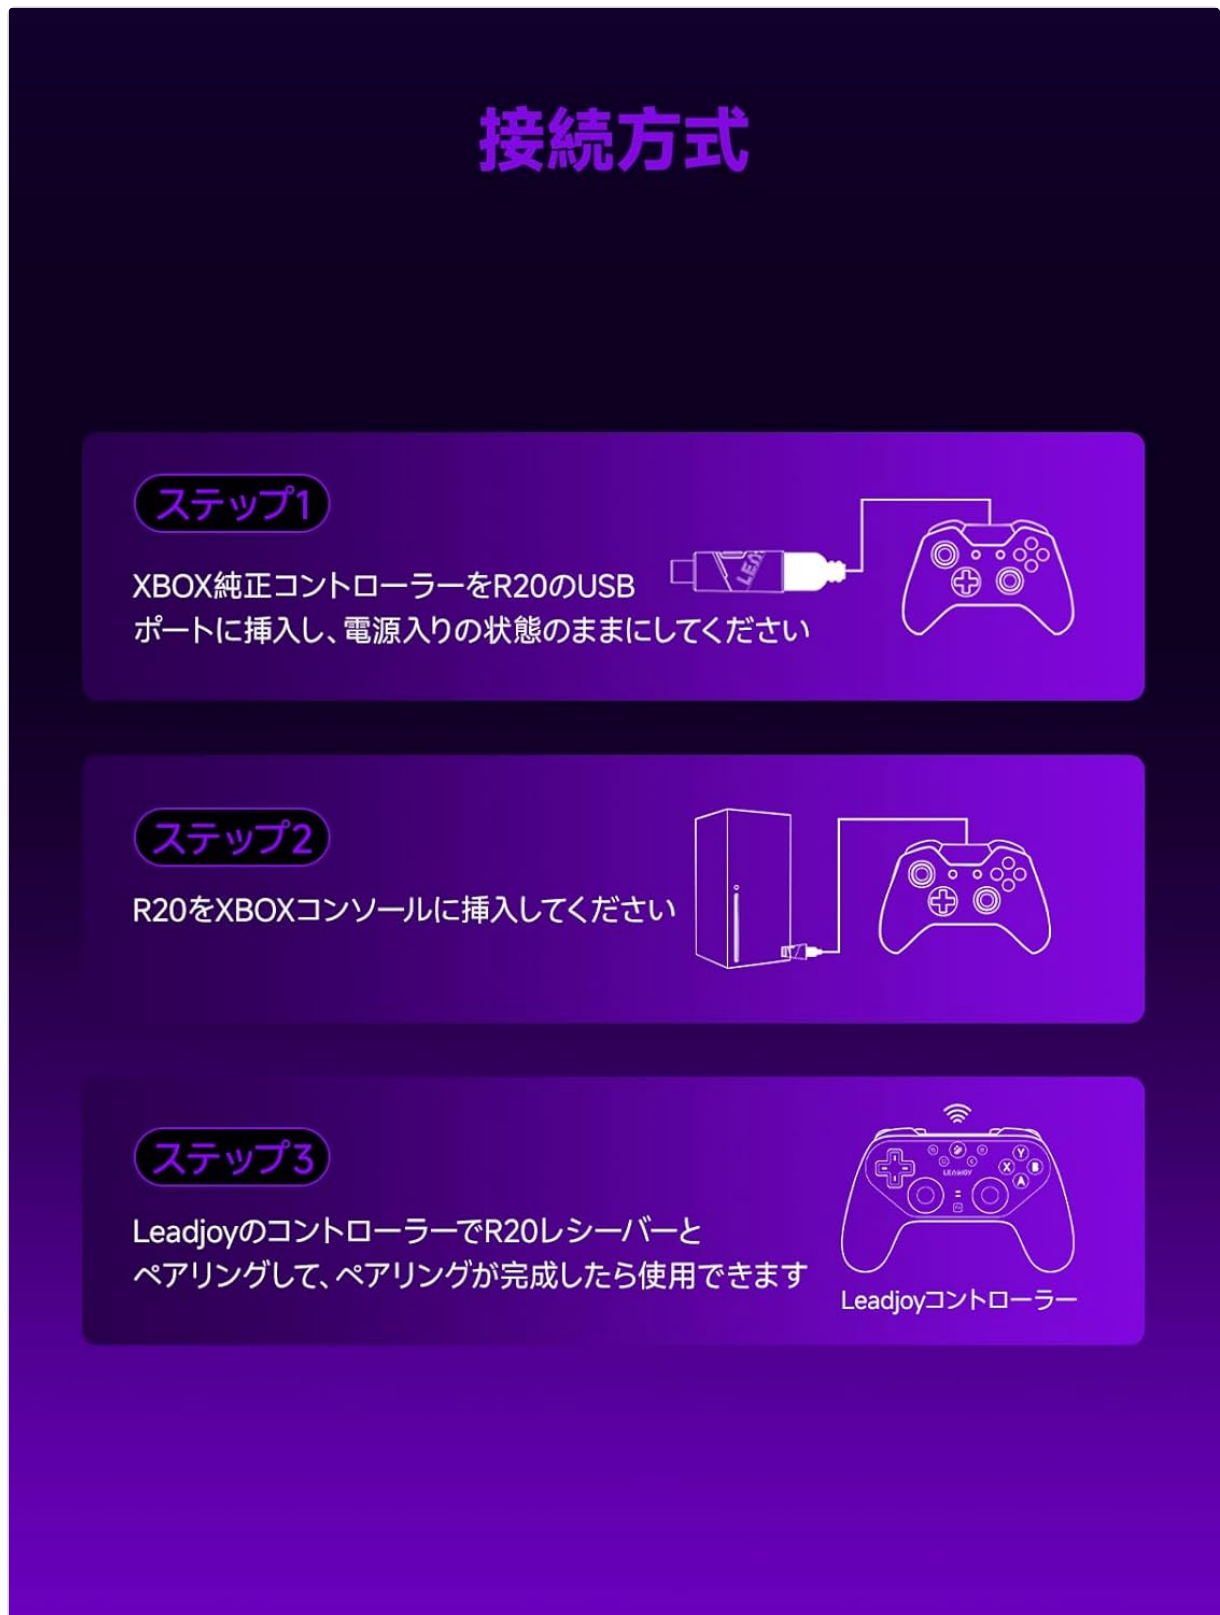

Image: Connection Method. This diagram illustrates the three steps for connecting the R20 adapter. Step 1 shows inserting the R20 into the Xbox console. Step 2 shows connecting an original Xbox controller to the R20 via a cable. Step 3 shows pairing a Leadjoy controller with the R20 receiver after successful connection.

Note: Do not disconnect the original controller from the R20 receiver during use to maintain a stable connection.

OPERATING INSTRUCTIONS

The R20 receiver provides a stronger signal compared to the original R10 receiver, offering improved performance. If you find the functions of the original Xbox controller insufficient or the operation feel unsatisfactory, and wish to enjoy games on your Xbox console using Xeno Plus, this R20 receiver makes it possible.

After successful setup, your compatible Leadjoy controller will connect wirelessly to the Xbox console via the R20 adapter, allowing for seamless gameplay.

MAINTENANCE

To ensure the longevity and optimal performance of your Leadjoy R20 Wireless USB Adapter, please observe the following maintenance guidelines:

- Keep the adapter clean and free from dust. Use a soft, dry cloth for cleaning.
- Avoid exposing the adapter to extreme temperatures, humidity, or direct sunlight.
- Do not attempt to disassemble or repair the adapter yourself. This may void your warranty.
- Store the adapter in a safe place when not in use to prevent physical damage.

TROUBLESHOOTING

If you encounter issues with your Leadjoy R20 Wireless USB Adapter, please try the following steps:

- **No Connection:** Ensure the R20 adapter is fully inserted into the Xbox console's USB port and the original Xbox controller is securely connected to the R20. Check if the controller's indicator light is steadily lit.
- **Intermittent Connection:** Ensure there are no obstructions between your Leadjoy controller and the R20 adapter. Avoid placing the adapter near other wireless devices that may cause interference.
- **Controller Not Responding:** Try disconnecting and reconnecting both the R20 adapter from the console and the original controller from the R20. Restart your Xbox console if necessary.
- **Firmware Update:** Check the official Leadjoy website for any available firmware updates for the R20 adapter, which may resolve performance issues.

If the problem persists after trying these steps, please contact customer support.
