TRIUMPHKEY 0888-120cm

TRIUMPHKEY Bathroom Mirror Cabinet 0888-120cm User Manual

Model: 0888-120cm | Brand: TRIUMPHKEY

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before installation and use. Keep this manual for future reference.

- Ensure power is disconnected before any installation or maintenance.
- Installation should be performed by a qualified electrician if wiring directly to mains.
- Do not expose the product to excessive moisture or direct water spray beyond normal bathroom use.
- Avoid using abrasive cleaners or sharp objects on the mirror surface.
- This product is designed for indoor use only.
- Keep children away from the product during installation.

2. PRODUCT OVERVIEW

The TRIUMPHKEY Bathroom Mirror Cabinet (Model 0888-120cm) is a modern, wall-mounted storage solution with integrated features designed to enhance your bathroom experience. It combines a high-definition mirror with LED lighting, an anti-fog function, and convenient charging ports.

Key Features:

- **3-Color LED Lighting:** Offers cool white, warm white, and warm yellow light modes, adjustable via touch control.
- **Anti-Fog Function:** Automatically clears condensation from the mirror surface within 3 minutes, with auto-off after 60 minutes of inactivity.
- **Ample Storage:** Features three doors and five adjustable shelves for organized storage of toiletries and cosmetics.
- **Integrated Charging Ports:** Includes 2 AC outlets, 1 USB port, and 1 Type-C port for convenient charging of devices.
- **Durable Construction:** Made from engineered wood with a waterproof surface, suitable for humid bathroom environments.
- **Soft-Close Hinges:** Ensures quiet and gentle closing of cabinet doors.

Image: Overall dimensions of the TRIUMPHKEY Bathroom Mirror Cabinet, showing 1200mm width, 750mm height, and 150mm depth. The three mirror doors are also dimensioned.

3. PACKAGE CONTENTS

Please check that all components are present and undamaged before beginning assembly.

- Mirror Cabinet Unit (1)
- Adjustable Glass Shelves (5)
- Mounting Hardware Kit (screws, wall anchors, etc.)
- Instruction Manual (1)
- Small Screwdriver (1) *(Note: A screwdriver is typically included for assembly.)*

4. SETUP AND INSTALLATION

This cabinet is designed for wall-mounted installation. Professional installation is recommended for electrical connections.

4.1 Tools Required (Not Included):

- Drill
- Measuring Tape
- Level
- Pencil
- Wire Strippers (for electrical connection)

4.2 Installation Steps:

1. **Prepare the Wall:** Choose a suitable location on a solid wall, away from direct water spray. Ensure there are no hidden electrical wires or pipes.
2. **Mark Drilling Points:** Use a measuring tape and level to mark the drilling points for the mounting brackets on the wall. Refer to the provided template or measurements in the manual.
3. **Drill Holes:** Drill holes at the marked points. Insert wall anchors if necessary (for drywall or hollow walls).
4. **Mount Brackets:** Secure the mounting brackets to the wall using the provided screws.
5. **Electrical Connection:**
 - **WARNING:** Ensure the main power supply is turned OFF at the circuit breaker before proceeding.
 - Connect the cabinet's electrical wiring to your bathroom's power supply. This typically involves connecting live, neutral,

and ground wires. If unsure, consult a qualified electrician.

- Alternatively, if direct wiring is not desired or possible, the cabinet's power cord can be plugged into a wall outlet.

6. **Hang the Cabinet:** Carefully lift the cabinet and align it with the wall brackets. Secure the cabinet to the brackets according to the specific instructions in the included manual.
7. **Install Shelves:** Place the adjustable glass shelves into the desired positions inside the cabinet.
8. **Adjust Doors:** Adjust the cabinet doors using the hinges to ensure proper alignment and soft-closing functionality.
9. **Restore Power:** Once installation is complete and all connections are secure, restore power at the circuit breaker.

5. OPERATING INSTRUCTIONS

5.1 LED Lighting and Color Adjustment:

The mirror features a touch sensor for controlling the LED lights.

- **Power On/Off:** A short touch on the sensor button will turn the LED lights on or off.
- **Adjust Color Temperature:** With the lights on, a short touch will cycle through the three color modes: cool white, warm white, and warm yellow.
- **Adjust Brightness:** With the lights on, a long press on the sensor button will adjust the brightness level. Release when the desired brightness is reached.

Image: Demonstration of the three LED light color options (cool white, warm white, warm yellow) and the touch control functionality for power, color, and brightness adjustment.

5.2 Anti-Fog Function:

The anti-fog function is activated automatically when the mirror lights are turned on. It will clear condensation from the mirror surface within approximately 3 minutes. The function will automatically turn off after 60 minutes of continuous operation to save energy.

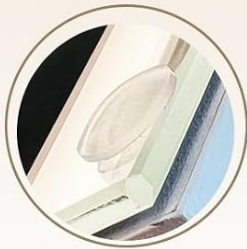

Image: Visual comparison showing the mirror before and after the anti-fog function is active, demonstrating its effectiveness in clearing condensation.

5.3 Using Charging Ports:

The cabinet includes 2 standard AC outlets, 1 USB port, and 1 Type-C port located inside the cabinet (typically behind the right door). These ports are active when the cabinet is connected to power. Use them to charge electric toothbrushes, shavers, mobile phones, and other small electronic devices.

- Ensure devices are compatible with the voltage and current provided by the outlets.

- Do not overload the outlets.
- Keep the cabinet doors closed when not actively using the charging ports to protect devices from moisture.

5.4 Storage and Mirror Utility:

The cabinet offers versatile storage and mirror functionality.

- **Adjustable Shelves:** The five glass shelves can be repositioned to accommodate items of various heights. Simply lift and move them to the desired slots.
- **Multi-Angle Reflection:** The three mirror doors allow for multi-angle viewing, useful for tasks like hair styling, enabling you to see the back of your head without turning.

6. MAINTENANCE

Regular maintenance will ensure the longevity and optimal performance of your mirror cabinet.

- **Cleaning the Mirror:** Use a soft, damp cloth and a mild glass cleaner. Do not spray cleaner directly onto the mirror; apply it to the cloth first. Avoid abrasive cleaners.
- **Cleaning the Cabinet:** Wipe the cabinet surfaces with a soft, damp cloth. For stubborn stains, use a mild, non-abrasive household cleaner. Dry immediately to prevent water damage.
- **Electrical Components:** Ensure all electrical connections remain dry. Do not attempt to clean the electrical outlets or ports with liquids.
- **Hinges:** Periodically check hinges for tightness and adjust if doors become misaligned.
- **Shelves:** Clean glass shelves with glass cleaner. Ensure they are securely seated in their supports.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
LED lights do not turn on.	No power supply; loose connection; faulty touch sensor.	Check power connection and circuit breaker. Ensure the touch sensor is clean and dry. If problem persists, contact support.
Anti-fog function not working.	Function not activated; electrical issue.	Ensure LED lights are on (anti-fog activates with lights). Check power supply.
Charging ports are not working.	No power to the cabinet; overloaded circuit.	Verify the cabinet is receiving power. Ensure the total wattage of connected devices does not exceed the cabinet's capacity.
Cabinet doors are misaligned.	Hinges need adjustment.	Adjust the screws on the hinges to realign the doors. Refer to the detailed installation manual for hinge adjustment instructions.

8. SPECIFICATIONS

Feature	Detail
Brand	TRIUMPHKEY
