3. Setup and Assembly

Self-assembly is required for this product. Please follow the detailed instructions provided in the included Installation Manual. Ensure you have adequate space and the necessary tools before starting.

General Assembly Steps:

1. Unpack all components from both packages and verify against the parts list in the Installation Manual.
2. Assemble the main cabinet structure according to the step-by-step diagrams.
3. Install the soft-close door hinges and attach the cabinet doors.
4. Place the ceramic boat sink onto the vanity top, ensuring proper alignment with the pre-drilled holes.
5. Install the faucet, pop-up drain, and connect the hot/cold water lines. Ensure all connections are secure and watertight.
6. Insert the removable laundry hamper into its designated tilt-out compartment.

4. Operating Instructions

4.1 Removable Laundry Hamper

The vanity features a tilt-out cabinet designed to house a removable fabric laundry hamper. To use, simply tilt the cabinet door open and place laundry into the hamper. For emptying or cleaning, the hamper can be effortlessly lifted out using its integrated handles.

Removable Laundry Basket

You can effortlessly lift out the inner fabric basket from the bathroom cabinet and carry it right to the washing machine

4.2 Soft-Close Doors and Drawers

The cabinet doors are equipped with soft-close hinges to prevent slamming and reduce wear. Gently push the doors to close, and the soft-close mechanism will engage, ensuring a quiet and smooth closure. The drawer also operates smoothly for easy access to stored items.

Upgraded storage design provides more storage space

Image 4.2: The cabinet interior reveals multiple storage shelves and a dedicated compartment for the laundry hamper, optimizing space utilization.

4.3 Ceramic Boat Sink and Faucet

Operate the faucet by lifting the handle for water flow and adjusting left or right for temperature control. Ensure the pop-up drain is functioning correctly to prevent water accumulation.

5. Maintenance

5.1 Cabinet Care (MDF Wood)

- Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, which can damage the finish.
- Promptly wipe up any spills to prevent water damage to the engineered wood.
- Avoid prolonged exposure to direct sunlight or extreme temperature changes.

5.2 Ceramic Sink and Faucet Care

- Clean the ceramic sink with a mild, non-abrasive cleaner and a soft cloth or sponge. Rinse thoroughly with water.
- For the faucet, use a soft cloth and mild soap and water. Do not use abrasive cleaners, polishes, or waxes, as these can damage the finish.
- Regularly check for and remove any mineral deposits around the faucet and drain.

5.3 Laundry Hamper Care

- The fabric laundry hamper can be removed for cleaning. Spot clean with a damp cloth and mild detergent as needed.
- Allow the hamper to air dry completely before returning it to the cabinet.

6. Troubleshooting

If you encounter issues with your vanity, refer to the following common solutions:

- **Assembly Difficulties:** Review the included Installation Manual carefully. Ensure all parts are correctly oriented and fasteners are tightened appropriately. Do not overtighten.
- **Wobbly Cabinet:** Check that the vanity is placed on a level surface. Adjust the leg pads if necessary to stabilize the unit. Ensure all assembly screws are securely fastened.
- **Door Alignment:** If cabinet doors are not aligned, adjust the soft-close hinges. Most hinges allow for minor adjustments to horizontal, vertical, and depth alignment. Refer to the hinge manufacturer's instructions if specific adjustments are needed.
- **Leaking Faucet/Drain:** Ensure all plumbing connections are tightly secured. Check that plumber's tape or sealant was used correctly on threaded connections. If leaks persist, consult a professional plumber.
- **Slow Drainage:** Check the pop-up drain for obstructions. Ensure the drain stopper is fully open when in use.
