SETUP AND ASSEMBLY INSTRUCTIONS

1. **Unpack and Identify Parts:** Carefully unpack all components and hardware. Refer to the parts list in the separate assembly guide to identify each piece.
2. **Assemble Base Frame:** Begin by connecting the main vertical supports and horizontal bars as per the diagrams. Ensure all connections are secure.
3. **Install Shelves and Panels:** Attach the fixed shelves and back panels. Note the specific orientation for the side panel with the toilet paper holder slot.
4. **Attach Cabinet Sections:** Assemble the upper and lower cabinet sections, including the barn doors. Ensure hinges are properly aligned and doors open and close smoothly.
5. **Position Over Toilet:** Carefully lift and position the assembled cabinet over your toilet. Ensure it is centered and stable. The cabinet is designed to fit most standard toilets.
6. **Secure Anti-Tip Device:** This is a critical safety step. Attach the anti-tip device to the top rear of the cabinet and securely fasten it to a wall stud or appropriate wall anchor. This prevents the cabinet from tipping forward.
