1. INTRODUCTION

The FreAire VisionAir HAP606 Air Purifier is designed to improve indoor air quality by filtering airborne particles and odors. It features a 3-stage filtration system, real-time PM2.5 and AQI display, and operates quietly with a dedicated sleep mode. This manual provides instructions for safe and effective use of your air purifier.

2. SAFETY INFORMATION

Please read all safety instructions before using this appliance to prevent injury or damage. Keep this manual for future reference.

- Always place the air purifier on a firm, level surface.
- Keep the unit at least 1 foot (30 cm) away from walls and other appliances to ensure proper airflow.
- Do not block air inlets or outlets.
- Do not use the appliance near water or in wet environments.
- Unplug the air purifier before cleaning or performing any maintenance.
- Do not operate the unit with a damaged cord or plug.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Use only genuine FreAire replacement filters.

3. PACKAGE CONTENTS

Verify that all items are included in your package:

- FreAire VisionAir HAP606 Air Purifier
- Power Adapter
- 3-Stage HEPA Filter (pre-installed)
- User Manual

4. PRODUCT OVERVIEW

Familiarize yourself with the components and controls of your FreAire VisionAir HAP606 Air Purifier.

Image: Front view of the FreAire VisionAir HAP606 Air Purifier, showing the PM2.5 display, control panel, and air intake grille. Key features like PM2.5 Monitoring, Timer Setting, Child Lock, 20dB Low Noise, Filter Replacement Reminder, Auto Mode, and Light Display Indicator are indicated.

Control Panel Functions:

- **Power Button:** Turns the unit on or off.
- **Fan Speed Button:** Cycles through fan speeds (Low, Medium, High, Turbo).
- **Auto Mode Button:** Activates automatic fan speed adjustment based on air quality.
- **Sleep Mode Button:** Activates quiet operation with dimmed display.
- **Timer Button:** Sets the operating time (e.g., 2, 4, 8 hours).
- **Child Lock Button:** Locks the control panel to prevent accidental changes.
- **Light Button:** Controls the display light.
- **Filter Reset Button:** Resets the filter life indicator after filter replacement.

5. SETUP

5.1 Unpacking and Filter Installation

Before first use, ensure the filter is properly installed and any packaging is removed.

1. Carefully remove the air purifier from its packaging.
2. Turn the unit upside down and twist the base cover counter-clockwise to unlock it.
3. Remove the base cover and take out the 3-stage HEPA filter.
4. Remove any plastic packaging from the filter.
5. Insert the unwrapped filter back into the unit.
6. Replace the base cover and twist clockwise to lock it securely.

5.2 Placement

For optimal performance, place the air purifier in a central location within the desired room. Ensure there is at least 1 foot (30 cm) of clear space around all sides for unrestricted airflow.

Whole-Home Air Purification You Can Rely On

Smart Features for Every Breath You Take

6. OPERATION

Plug the power adapter into a wall outlet and connect it to the air purifier. The unit will enter standby mode.

6.1 Power On/Off

- Press the **Power** button to turn the air purifier on or off.

6.2 Fan Speed Adjustment

Press the **Fan Speed** button repeatedly to cycle through four fan speeds: Low, Medium, High, and Turbo.

Four Fan Speeds for the Comfort You Choose

Customized Airflow Anytime

Personalized Comfort

Image: A visual representation of the four fan speed settings: Sleep Mode, Gentle Breeze, Standard Flow, and Turbo Boost, available on the FreAire VisionAir HAP606 Air Purifier.

6.3 Auto Mode

Press the **Auto Mode** button to activate. In Auto Mode, the air purifier automatically adjusts its fan speed based on the real-time air quality (PM2.5/AQI) detected by its sensor.

Effortlessly Clean Air That Adapts to Your Day

Automatically Responds to Air Changes

Day & Night Relief

6.5 Child Lock

Press and hold the **Child Lock** button for 3 seconds to activate or deactivate. When activated, the control panel buttons will be unresponsive to prevent accidental changes by children or pets.

Little Fingers Wander. Your Settings Stay Safe

Childproof Your Controls

Kid-Safe Design

Image: A child interacting near the FreAire VisionAir HAP606 Air Purifier, with an overlay highlighting the Child Lock feature to ensure settings remain safe.

6.6 Timer Function

Press the **Timer** button repeatedly to set the desired operating time (e.g., 2, 4, 8 hours). The unit will automatically turn off after the set time.

6.7 AQI & PM2.5 Display

The digital display shows the real-time PM2.5 concentration in $\mu\text{g}/\text{m}^3$. The color-coded light indicator provides a quick visual reference for air quality:

- **Green:** Good air quality
- **Yellow:** Moderate air quality
- **Red:** Poor air quality

7. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your air purifier.

7.1 Filter Replacement

The filter life indicator light will illuminate when it's time to replace the filter (approximately every 6-8 months, depending on usage and air quality).

1. Unplug the air purifier from the power outlet.
2. Turn the unit upside down and twist the base cover counter-clockwise to unlock it.
3. Remove the old filter and dispose of it properly.
4. Insert a new, genuine FreAir 3-stage HEPA filter (Model: HAP606F) into the unit. Ensure it is seated correctly.
5. Replace the base cover and twist clockwise to lock it securely.

6. Plug in the air purifier. Press and hold the **Filter Reset** button for 3 seconds until the indicator light turns off, resetting the filter life counter.

Image: A three-step visual guide demonstrating how to replace the filter: 1) Remove the used filter by twisting the cover counter-clockwise, 2) Insert the new filter, and 3) Reset the filter reminder by holding the reset button.

7.2 Cleaning the Unit

- Wipe the exterior of the air purifier with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.
- Gently vacuum the air intake grilles to remove dust buildup.

8. TROUBLESHOOTING

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Unit does not turn on	Not plugged in; Power outage; Damaged power cord; Filter not installed correctly	Check power connection; Verify power supply; Contact support if cord is damaged; Ensure filter is unwrapped and base cover is locked.
Poor air purification performance	Clogged filter; Incorrect fan speed; Blocked air inlets/outlets; Room size too large	Replace filter; Increase fan speed; Clear obstructions; Ensure unit is suitable for room size.
Unusual noise	Filter not seated correctly; Foreign object inside; Unit on uneven surface	Reinstall filter; Unplug and check for obstructions; Place on a stable, flat surface.
Filter replacement indicator remains on after changing filter	Filter life counter not reset	Press and hold the Filter Reset button for 3 seconds.
