Maintenance

To ensure the longevity and optimal performance of your Garvee Tanning Chair, follow these maintenance guidelines:

- **Cleaning:** The Textilene fabric is easy to clean. Simply wipe away sand or dirt with a damp cloth. For tougher stains, use mild soap and water, then rinse thoroughly and allow to air dry completely.
- **Storage:** When not in use, especially during off-season or inclement weather, fold the chair for compact storage. Store in a dry, protected area to prevent rust on the frame and prolong fabric life.
- **Inspection:** Periodically inspect all moving parts, bolts, and fabric for any signs of wear or damage. Tighten any loose fasteners.

Troubleshooting

If you encounter any issues with your Garvee Tanning Chair, consider the following:

- **Chair feels unstable:** Ensure all legs are fully extended and locked into their designated positions. Check that the chair is placed on a flat, even surface.
- **Difficulty adjusting backrest:** Ensure no obstructions are preventing the backrest from moving freely. Apply gentle, even pressure when adjusting.
- **Folding/Unfolding issues:** If the chair is stiff, check for any debris in the joints. Do not force the mechanism; ensure all parts are aligned.
