Keep electrical components, such as the power strip, away from liquids to prevent electrical hazards.

4. SETUP AND ASSEMBLY

Assembly of the SEDETA L Shaped Desk requires careful attention to the provided instructions. All parts are numbered to facilitate the process. It is recommended to have at least two people for assembly due to the size and weight of the components. A power drill may expedite the process, but manual tools are sufficient.

- 1. Unpack and Identify:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Identify each part using the numbered labels and the assembly diagram.
- 2. Follow Step-by-Step Instructions:** Refer to the separate, detailed assembly manual included in your package. Follow each step sequentially, ensuring all connections are secure before proceeding.
- 3. Secure Fasteners:** Tighten all screws and fasteners firmly, but do not overtighten to avoid damaging the wood.
- 4. Install Drawers and Shelves:** Assemble the drawers and install the adjustable shelves as indicated in the manual. Ensure the lockable file drawer mechanism functions correctly.
- 5. Positioning:** Once assembled, carefully move the desk to its desired location. Ensure the desk is level on the floor to prevent wobbling.
