3.2 Powering On/Off

- **Power On:** Press and hold the side button until the screen lights up.
- **Power Off:** Press and hold the side button, then select the 'Power Off' option on the screen.

3.3 App Installation and Pairing

To unlock the full functionality of your smartwatch, download and install the companion app on your smartphone.

1. Download the "FitCloudPro" app from your smartphone's app store (Android or iOS).
2. Ensure Bluetooth and GPS are enabled on your smartphone.
3. Open the FitCloudPro app, navigate to the device section, and search for "V10".
4. Select "V10" to connect. Once paired, you can manage device settings and view data through the app.

5. KEY FEATURES

5.1 Bluetooth Calling & Smart Notifications

The smartwatch supports Bluetooth 5.4 calls, allowing you to make, receive, and reject calls directly from your wrist. It features a noise-canceling microphone and speaker for clear communication.

- **Making Calls:** Access the dial pad or contacts from the watch.

- **Receiving Calls:** Answer or reject incoming calls directly on the watch.
- **Notifications:** When connected to the app, the watch vibrates to alert you of new messages and notifications from various applications (e.g., SMS, social media).

5.4 Health Monitoring

The smartwatch provides 24/7 health monitoring features:

- **Heart Rate:** Continuously monitors your heart rate.
- **Blood Oxygen:** Measures your blood oxygen saturation levels.
- **Sleep Tracking:** Monitors your sleep patterns, including light sleep, deep sleep, and awake times.

Image: Health monitoring features: Heart Rate, Blood Oxygen, and Sleep Tracking.

5.5 Voice Assistant

Utilize the integrated voice assistant for hands-free control. Tap the voice assistant icon on your watch to activate and issue commands, such as setting alarms, playing music, or making calls.

5.6 Other Functions

The V10 Smartwatch includes a variety of additional useful features:

- Timer & Stopwatch
- Alarm Clock

- Music Control
- Weather Forecast
- Brightness Adjustment
- Camera Control
- Sedentary Reminder

6. WATER RESISTANCE (IP68)

The Jugeman V10 Smartwatch is IP68 rated, meaning it is resistant to dust and can withstand immersion in water up to 3 meters for a limited time. This makes it suitable for daily activities such as hand washing, sweating during exercise, and exposure to rain or splashes.

Important Considerations:

- Do not use the watch in hot baths, saunas, or environments with corrosive liquids like seawater.
- Avoid prolonged immersion or high-pressure water exposure.
- Water resistance is not a permanent condition and may decrease over time with normal wear.

7. DURABILITY AND DESIGN

The V10 Smartwatch is designed for adventure, featuring robust construction to withstand various conditions.

- **Anti-Impact:** Built to resist shocks.
- **Temperature Resistance:** Operates in temperatures from -30°C to 70°C.
- **Anti-Corrosion:** Resistant to corrosive fluids.
- **Dustproof:** Protects against dust ingress.

8. MAINTENANCE

To ensure the longevity and optimal performance of your Jugeman V10 Smartwatch, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the watch screen and strap with a soft, dry cloth. If necessary, use a slightly damp cloth and then dry thoroughly. Avoid harsh chemicals or abrasive materials.
- **Charging:** Use only the provided magnetic charging cable. Ensure the charging contacts are clean and dry before charging.
- **Storage:** Store the watch in a cool, dry place when not in use. Avoid extreme temperatures.
- **Avoid Impacts:** While the watch is designed to be anti-impact, excessive force or drops can still cause damage.

9. TROUBLESHOOTING

If you encounter issues with your smartwatch, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Watch does not turn on	Low battery; device frozen	Charge the watch for at least 30 minutes. If still unresponsive, perform a hard reset by pressing and holding the side button for 10-15 seconds.
Cannot pair with phone	Bluetooth off; app issue; watch not discoverable	Ensure Bluetooth and GPS are enabled on your phone. Restart both the watch and phone. Reinstall the FitCloudPro app. Ensure the watch is not already paired with another device.
Inaccurate health/activity data	Improper fit; sensor obstruction; software glitch	Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors on the back of the watch. Update the app and watch firmware.
Notifications not received	App permissions; Bluetooth disconnected; Do Not Disturb mode	Check notification permissions for the FitCloudPro app on your phone. Ensure Bluetooth is connected. Disable Do Not Disturb mode on both watch and phone.
Short battery life	Frequent use of power-intensive features; high screen brightness	Reduce screen brightness. Limit continuous GPS tracking or frequent heart rate monitoring. Turn off unnecessary notifications.
