Key Features

- **Advanced Purification:** Utilizes Nanopore Long-Life Filter Technology for protection against contaminants including Lead, Mercury, Arsenic, Cadmium, Microplastics, and Pesticides.
- **Intelligent Halo Lights:** Provides visual cues for operational status (Alert, Purification, Standby).
- **Extended Filter Life:** Features 2-year filter life supported by Auto Flush and Anti-Scale Technologies.
- **Real-Time Water Quality Display:** Shows live TDS levels of both input and purified water.
- **Fast Water Flow:** Offers 20% faster dispensing for quick access to purified water.
- **Stainless Steel Tank:** Equipped with a surgical-grade 304 stainless steel storage tank for water freshness and durability.
- **5th Gen UV LED:** Ensures instant purification, is mercury-free, and has a 10-year lifespan.
- **4-in-1 Active Copper Infusion:** Enriches water with Copper, Zinc, Calcium, and Magnesium.

- **Alkaline Boost Technology:** Adjusts pH levels to make water alkaline, adhering to BIS standards.
- **12-Stage Purification:** A multi-stage system for comprehensive water treatment.

SETUP INSTRUCTIONS

The Aquaguard Aspire Halo is designed for countertop installation. Professional installation is recommended to ensure proper setup and functionality. An installation kit is included with the product.

1. **Unpacking:** Carefully remove the purifier and all components from the packaging. Retain packaging for future transport or service.
2. **Placement:** Choose a stable, flat surface near a water source and an electrical outlet. Ensure adequate space around the unit for ventilation and maintenance.
3. **Water Connection:** Connect the purifier to your water supply using the provided installation kit. Ensure all connections are secure to prevent leaks.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet.
5. **Initial Flush:** Before first use, flush the system as per the detailed instructions in the full product manual to remove any manufacturing residues. This typically involves dispensing and discarding several liters of water.

Intelligent Halo Lights

Your purifier speaks through Intelligent Halo Lights

RED ALERT

FOR ALERT MODE

Smart alerts that tell you exactly when an error occurs or service is needed.

BLUE LIGHT

FOR PURIFICATION MODE

A clear signal that your water is 100% purified.

AMBIENT LIGHT

IN STANDBY MODE

Elegant glow that elevates your kitchen and guides you at night.

Image: Front view of the Aquaguard Aspire Halo Water Purifier, illustrating its compact design for countertop placement.

OPERATING INSTRUCTIONS

Operating your Aquaguard Aspire Halo is intuitive, guided by its intelligent features.

Intelligent Halo Lights

The Halo Lights provide visual feedback on the purifier's status:

- **Red Light (Alert Mode):** Indicates an error or a requirement for service. Refer to the troubleshooting section or contact customer support.
- **Blue Light (Purification Mode):** Signifies that water purification is active and the dispensed water is 100% purified.
- **Ambient Glow (Standby Mode):** A soft light indicating the purifier is in standby, enhancing visibility.

Water Quality Indicator

Shows real time water quality on Inbuilt Smart Display

Image: The Aquaguard Aspire Halo displaying its intelligent Halo Lights in Red (Alert), Blue (Purification), and Ambient (Standby) modes.

Water Quality Display

The in-built smart display shows real-time TDS (Total Dissolved Solids) levels of both the input water and the purified water. This allows you to monitor the effectiveness of the purification process.

**2 YEAR
FILTER LIFE**
Powered by

AUTO FLUSH TECHNOLOGY

Cleans filters automatically,
without effort.

Image: Close-up of the water quality indicator display on the Aquaguard Aspire Halo, showing TDS levels.

Dispensing Water

To dispense water, gently touch the designated area on the purifier. The system is designed for a high-speed flow, filling a glass quickly.

Advanced 5th Gen UV LED

Eliminates 99.99%
bacteria & viruses

Mercury-free
purification

10-Year Life

Image: The Aquaguard Aspire Halo dispensing water into a glass, highlighting its fast flow feature.

MAINTENANCE

Regular maintenance ensures the continued efficiency and longevity of your water purifier.

Filter Life and Replacement

The Aquaguard Aspire Halo features a 2-year filter life. The intelligent system will indicate when filter replacement is due. It is crucial to replace filters as recommended to maintain water quality.

Advanced Purification with Nanopore Long-Life Filters

Complete Protection against:

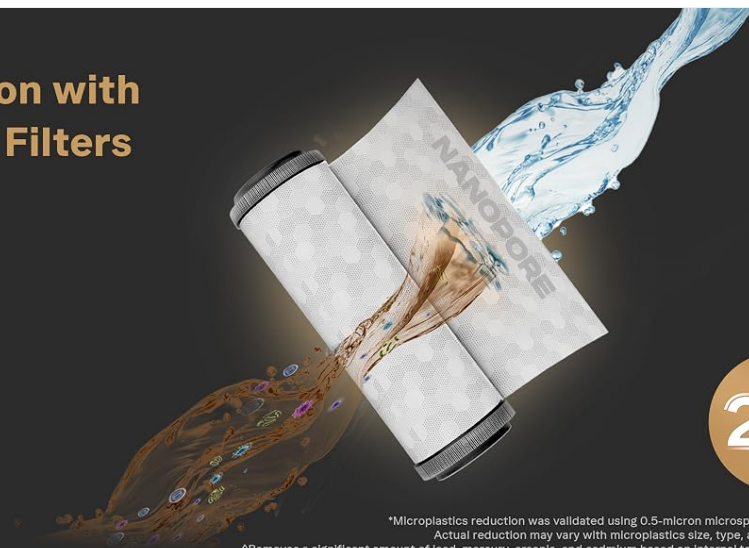

Lead, Mercury,
Arsenic & Cadmium[^]

Microplastics[#]

Pesticides

2 YEAR
FILTER
LIFE*

*Microplastics reduction was validated using 0.5-micron microspherical test particles.
Actual reduction may vary with microplastics size, type, and water conditions.

[^]Removes a significant amount of lead, mercury, arsenic, and cadmium based on internal testing under standard

Image: Illustration of the 2-year filter life, highlighting Auto Flush and Anti-Scale technologies that contribute to filter longevity.

Auto Flush Technology

This technology automatically cleans the filters, helping to maintain their performance and extend their operational life. No manual intervention is required for this process.

Anti-Scale Technology

The anti-scale feature prevents filter clogging by capturing salt impurities from the input water, especially beneficial in areas with hard water.

Cleaning the Exterior

Wipe the exterior of the purifier with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners, as these can damage

the surface.

TROUBLESHOOTING

If you encounter issues with your Aquaguard Aspire Halo, refer to the following common problems and solutions. For complex issues, contact customer support.

Problem	Possible Cause	Solution
No water dispensed	No power, water supply off, or low water pressure.	Check power connection, ensure water supply is open, verify adequate water pressure.
Slow water flow	Clogged filters or low input water pressure.	Filters may need replacement (indicated by Halo Lights). Check input water pressure.
Red Halo Light active	System error or service required.	Contact customer service for diagnosis and assistance.
Water leakage	Loose connections or damaged components.	Turn off water supply and power immediately. Check visible connections. Contact service if leak persists.

SPECIFICATIONS

Feature	Detail
Brand	Aquaguard
Model Name	AQUAGUARD ASPIRE HALO ROUVCUALKSS 2X WQI
Model Number	GWPDHRUSW0002X
Product Dimensions (L x W x H)	31.8L x 51W x 32.3H Centimeters
Material	Acrylonitrile Butadiene Styrene (ABS)
Capacity	5 litres
Installation Type	Countertop
Purification Method	Reverse Osmosis (RO), Ultraviolet (UV)
Power Source Type	Corded Electric
Maximum Flow Rate	24 Liters Per Hour
Operating Pressure Range	Up to 3 Kilograms Per Square Centimeter
Supported Water TDS Level Maximum	1000 PPM
Filter Life Cycle	2 Years
Item Weight	10 Kilograms
What's in the box?	Installation Kit

WARRANTY INFORMATION

The Aquaguard Aspire Halo RO+UV Water Purifier comes with a standard manufacturer’s warranty. Key warranty details include:

- **Stainless Steel Tank:** Backed by a lifetime warranty, ensuring durability and corrosion resistance.
- **Filter Life:** Designed for a 2-year filter life, reducing the frequency of replacements.

For complete warranty terms and conditions, please refer to the warranty card included with your product or visit the official Aquaguard website. Extended warranty plans may also be available for purchase.
