3. MAINTENANCE

Proper care and maintenance will extend the life and appearance of your Homall sectional sofa bed.

3.1 Fabric Care (Chenille)

- **Regular Cleaning:** Vacuum the chenille fabric regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Avoid rubbing, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for chenille, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position your sofa away from direct sun exposure or use curtains/blinds.

3.2 Frame Care (Wood and Iron)

- Wipe the exposed wood and iron components with a soft, damp cloth. Avoid harsh chemicals.
- Ensure the sofa is placed on a level surface to prevent stress on the frame.

4. TROUBLESHOOTING

If you encounter any issues with your sofa bed, refer to the following common troubleshooting tips:

- **Cushions Not Fully Expanded:** If the cushions appear flat after unpacking, allow up to 72 hours for them to fully expand. Gentle fluffing can assist the process.
- **LED Lights/USB Port Not Working:** Ensure the power connection for the armrest features is securely plugged in. Check if the power source (wall outlet) is functional.
- **Sofa Bed Mechanism Sticking:** Ensure there are no obstructions (e.g., rugs, debris) preventing the pull-out mechanism from moving freely. Operate the mechanism slowly and smoothly.
- **Loose Components:** Periodically check and tighten any screws or bolts that may have loosened over time with regular use.
