Garvee 71-inch Raised Garden Bed with Trellis

Instruction Manual

INTRODUCTION

Thank you for choosing the Garvee 71-inch Raised Garden Bed with Trellis. This product is designed to provide a versatile and durable solution for your gardening needs, featuring two planter boxes, a hanging roof, and integrated trellises for climbing plants. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure optimal use and longevity of your garden bed.

SAFETY INFORMATION

- Read all instructions carefully before assembly and use.
- Keep all small parts and packaging materials away from children and pets to prevent choking hazards.
- Ensure all connections are secure and tightened properly during assembly.
- Do not overload the planter boxes or hanging roof beyond their intended capacity.
- Place the garden bed on a level and stable surface to prevent tipping.
- Regularly inspect the wood for any signs of damage or wear.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. While specific part numbers are not listed, the package should contain:

- Fir wood panels for two planter boxes
- Trellis panels
- Top extension support rods for the hanging roof
- Metal connectors and fasteners (screws, bolts, etc.)

- Removable bottom plates for planter boxes

1

← **Top Extension Support Rods**
Stable structure, Sturdy, robust and durable

Trellis Frame ➤

Ideal for plant climbing or hanging basket plants

2

← **Drainage Hole**
Protect plants from excess water

3

Planter Box ➤

Ample space for small/medium-sized crops: spice plants/flowers/fruits & vegetables

4

SETUP AND ASSEMBLY

Assembly typically requires two people. Ensure you have a clear, flat workspace and basic tools such as a screwdriver or drill.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and identify the different wood panels, trellis sections, support rods, and hardware.
2. **Assemble Planter Boxes:** Construct the two planter boxes by connecting the side and end panels using the provided fasteners. Ensure the panels are aligned correctly.
3. **Install Bottom Plates:** Insert the removable bottom plates into the assembled planter boxes. These plates feature drainage holes to prevent water accumulation.
4. **Attach Trellis Sections:** Securely attach the trellis panels to the back of the planter boxes. Use the designated metal connectors and fasteners to ensure stability.
5. **Install Top Extension Support Rods:** Connect the top extension support rods to the upper part of the

trellis frame. These rods form the hanging roof structure.

6. **Final Inspection:** Once assembled, gently shake the structure to ensure all connections are tight and the garden bed is stable.

OPERATING INSTRUCTIONS

The Garvee Raised Garden Bed offers versatile planting options:

- **Planter Boxes:** Fill the two large planter boxes with appropriate soil for your chosen plants. These are suitable for a variety of small to medium-sized crops, flowers, herbs, and vegetables. The integrated drainage holes ensure proper water flow and aeration for roots.
- **Trellis:** Utilize the square trellis design for climbing plants such as tomatoes, cucumbers, beans, or flowering vines. Gently guide the plant stems through the trellis openings as they grow.
- **Hanging Roof:** The top extension support rods provide space for hanging baskets. Ensure hanging baskets are securely attached and do not exceed the structural capacity.

MAINTENANCE

To ensure the longevity and appearance of your Garvee Raised Garden Bed:

- **Cleaning:** Periodically clean the wood surfaces with a soft cloth and mild soap solution. Avoid harsh chemicals that may damage the wood finish.
- **Wood Care:** The natural fir wood is protected with a water-resistant finish. To maintain this protection, consider reapplying a wood sealant or stain annually, especially if the garden bed is exposed to harsh weather conditions.
- **Drainage:** Regularly check the drainage holes in the planter boxes to ensure they are clear of debris and soil, allowing for efficient water drainage.
- **Structural Integrity:** Periodically inspect all fasteners and connections for tightness. Tighten any loose screws or bolts to maintain stability.

SOLID FIR WOOD MATERIAL

Resistant to sun and rain, resistant to temperature shifts,
and not easily deformed or cracked.

TROUBLESHOOTING

- **Wobbly Structure:** If the garden bed feels unstable, recheck all connections and ensure fasteners are tightened. Verify it is placed on a flat, even surface.
- **Poor Drainage:** If water is pooling in the planter boxes, check if the drainage holes are clogged. Clear any soil or debris from the holes. Ensure the bottom plates are correctly installed.
- **Wood Discoloration/Wear:** Exposure to elements can cause wood to change color or show wear over time. Regular maintenance with a wood sealant or stain can help protect and restore its appearance.
- **Difficulty with Climbing Plants:** Ensure climbing plants are gently guided and tied to the trellis as they grow. Some plants may require initial support to establish their climbing habit.

SPECIFICATIONS

Feature	Detail
Brand	Garvee

Model Number	PPG_34UQF5EU
UPC	824126170221
Material	Fir Wood
Color	Oak
Finish Type	Water-Resistant
Overall Dimensions (L x W x H)	71" x 19" x 71" (approximately 180.34 cm x 48.26 cm x 180.34 cm)
Item Weight	47.9 Pounds (approximately 21.73 kg)
Planter Box Drainage	4 drainage holes per box

WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation provided at the point of purchase or contact the retailer directly. Garvee is committed to providing quality products and assistance.
