DAUSOLA CP122006

DAUSOLA 12x20 FT Metal Carport Instruction Manual

Model: CP122006 | Brand: DAUSOLA

1. PRODUCT OVERVIEW

The DAUSOLA 12x20 FT Metal Carport is a heavy-duty, all-weather shelter designed to protect vehicles such as cars, trucks, SUVs, boats, and tractors. Constructed from galvanized steel, it offers superior durability and resistance to various weather conditions.

This carport features an upgraded frame structure for enhanced stability and ease of installation. Its spacious design provides ample coverage, making it a versatile outdoor storage solution.

2. SAFETY INFORMATION

Important Safety Precautions:

- Always ensure the carport is properly anchored to the ground using the provided heavy-duty ground anchors and detachable support stands for maximum stability, especially in windy conditions.
- Be cautious when touching the metal frame after prolonged sun exposure to avoid burns.
- Do not use the carport in thunderstorms or during high winds exceeding the product's wind resistance rating (115 MPH).
- Ensure adequate clearance around the carport during assembly and use to prevent injury or damage.
- Assembly requires at least two people due to the size and weight of components.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all parts are present and undamaged. Refer to the detailed parts list in your included manual. Key components include:

- Galvanized Steel Frame Components (labeled for easy identification)
- Metal Roof Panels
- Detachable Support Stands
- Heavy-Duty Ground Anchors

- Fasteners (screws, bolts, nuts)
- Installation Gloves (2 pairs)
- Assembly Manual

4. SETUP AND ASSEMBLY

Assembly of the DAUSOLA Metal Carport is designed to be straightforward, with all parts labeled. It is recommended to have at least two people for assembly, and some users have found that four people can significantly expedite the process, especially when lifting the roof structure.

Required Tools:

- Drill/Impact Driver
- Ladder(s)
- Measuring Tape

Assembly Steps Overview:

1. **Assemble Roof Frame:** Connect the frame components according to the numbered labels in the manual. Ensure all connections are secure.
2. **Attach Roof Panels:** Carefully place and secure the metal roof panels to the assembled frame using the provided fasteners.
3. **Install Support Stands and Anchors:** Attach the detachable support stands and heavy-duty ground anchors. These can be installed on various surfaces like soil, cement, or sand to ensure stability.

5. USAGE AND OPERATION

The DAUSOLA Metal Carport provides a versatile shelter for various outdoor needs. Once properly assembled and anchored, it is ready for use.

- **Vehicle Protection:** Park your car, truck, SUV, boat, or tractor underneath to shield it from sun, rain, snow, and wind.
- **Outdoor Activities:** The open-sided design allows for adequate ventilation, making it suitable for use as a shaded area for outdoor gatherings or workspaces.
- **Storage:** Utilize the covered space for storing outdoor equipment, tools, or other items that require protection from the elements.

6. MAINTENANCE

Regular maintenance will ensure the longevity and continued performance of your DAUSOLA Metal Carport.

- **Cleaning:** Periodically clean the roof panels and frame with mild soap and water to remove dirt, debris, and prevent buildup. Avoid abrasive cleaners or tools that could scratch the galvanized finish.
- **Fastener Check:** Annually inspect all screws, bolts, and connections to ensure they remain tight. Re-tighten as necessary to maintain structural integrity.
- **Anchor Inspection:** Regularly check the ground anchors for any signs of loosening or damage, especially after severe weather. Re-secure or replace as needed.
- **Snow Removal:** While designed for a snow load capacity of 55 PSF, heavy or prolonged snowfall should be cleared from the roof to prevent excessive stress on the structure.

7. SPECIFICATIONS

Feature	Detail
Brand	DAUSOLA
Model Number	CP122006
Material	Galvanized Metal (Steel)
Color	Gray
Item Dimensions (L x W x H)	230.3"D x 145.7"W x 101.2"H (12x20 FT)
