- For stubborn spots, use a mild soap solution and immediately dry with a clean cloth.
- Regularly dust the vanity to prevent buildup.

Mirror Care

- Clean the mirror surface with a glass cleaner and a lint-free cloth. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the edges.
- Avoid scratching the mirror surface.

Electrical Components

- Ensure the power cord is unplugged before cleaning near electrical outlets or USB ports.
- Do not expose electrical components to water or excessive moisture.
