DAREU FLEX75

DAREU FLEX75 Gasket Wireless Mechanical Keyboard User Manual

Model: FLEX75

Introduction

This manual provides instructions for the DAREU FLEX75 Gasket Wireless Mechanical Keyboard. It covers setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device. The FLEX75 is a tri-mode, hot-swappable, 75% custom gaming keyboard featuring PBT keycaps and RGB backlighting, compatible with Mac and Windows operating systems.

What's in the Box

Please check the package contents upon unboxing:

- DAREU FLEX75 Keyboard
- Keycap Puller
- USB Cable (Type-C)
- User Manual

Setup

Connectivity Modes

The DAREU FLEX75 supports three connection modes: Bluetooth, 2.4G Wireless, and USB-C Wired. You can connect to up to 5 devices simultaneously and switch between them.

Image: Diagram illustrating the three connectivity modes: Bluetooth (BT), 2.4G wireless, and USB-C wired, along with compatibility for various devices.

1. **USB-C Wired Connection:**
   Connect the provided USB-C cable to the keyboard and your computer. The keyboard will automatically switch to wired mode.
2. **2.4G Wireless Connection:**
   Locate the USB receiver, typically stored in a dedicated slot on the keyboard's underside. Plug the receiver into an available USB port on your device. Switch the keyboard's mode selector to 2.4G. The keyboard should connect automatically.
3. **Bluetooth Connection:**
   Switch the keyboard's mode selector to BT. On your device, search for Bluetooth devices and select "DAREU FLEX75" to pair. The keyboard can store up to three Bluetooth profiles (BT1, BT2, BT3). Use Fn + 1/2/3 to switch between profiles.

Battery Charging

Connect the keyboard to a USB power source using the provided USB-C cable. The indicator light will show charging status. A full charge provides up to 24 hours with RGB backlight on, or 120 hours with backlight off.

Operating Instructions

Basic Key Functions

The FLEX75 features a compact 75% layout, retaining essential keys while optimizing space. It uses a standard QWERTY layout.

Metal Control Knob

The CNC metal rotary knob located on the keyboard's corner provides multi-functional control:

- Rotate clockwise: Increase system volume.
- Rotate counter-clockwise: Decrease system volume.
- Press: Mute/Unmute audio.

RGB Backlight Control

The keyboard features 16.8 million color RGB backlighting with various effects. Control options include:

- **Fn + [{ :** Cycle through backlight effects.
- **Fn +] } :** Change backlight color.
- **Fn + Spacebar:** Adjust brightness.

- **Fn + Up/Down Arrow:** Adjust lighting frequency/speed.

Note: Ensure your software and keyboard firmware are updated for the best experience. Download the latest version from the official DAREU website.

N-Key Rollover

The keyboard supports N-Key Rollover, allowing multiple key presses to be registered simultaneously without conflicts or missing inputs, which is beneficial for fast typing and gaming.

Maintenance

Cleaning

To clean your keyboard, first disconnect it from all power sources. Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution. For keycaps, a keycap puller can be used to remove them for deeper cleaning. Avoid spraying liquids directly onto the keyboard.

Hot-Swappable Switches

The FLEX75 features a full-key hot-swappable PCB, compatible with both 3-pin and 5-pin mechanical switches. This allows for easy replacement or customization of switches without soldering.

Image: Demonstration of removing a keycap and switch from the DAREU FLEX75 keyboard, highlighting its hot-swappable design.

PBT Keycaps

The keyboard is equipped with double-shot injection-molded PBT keycaps, which are resistant to sweat, shine, and fading. Regular cleaning will help maintain their matte texture.

Image: Close-up view of the PBT keycaps on the DAREU FLEX75 keyboard, emphasizing their texture and durability.

Battery Care

To prolong battery life, avoid fully discharging the keyboard frequently. Store the keyboard in a cool, dry place when not in use for extended periods.

Troubleshooting

- **Keyboard not connecting:** Ensure the correct mode (Bluetooth, 2.4G, or Wired) is selected. For wireless modes, check battery level. For Bluetooth, ensure the keyboard is in pairing mode and visible to your device. For 2.4G, ensure the USB receiver is properly inserted.
- **Keys not responding:** Check if the keyboard is powered on and connected. If individual keys are not working, consider replacing the switch if you have spare hot-swappable switches.
- **RGB backlight not working or incorrect:** Use the Fn key combinations to adjust brightness and effects. Ensure the software is correctly configured if custom settings are applied.

- **Software issues:** Reinstall the official DAREU driver software. Ensure your operating system is compatible and up to date.
- **Intermittent wireless connection:** Move the keyboard closer to the receiver/device. Avoid interference from other wireless devices.

Specifications

Feature	Detail
Brand	DAREU
Model Number	FLEX75
Connectivity Technology	2.4GHz wireless, Bluetooth, USB-C
Keyboard Layout	75% Compact, QWERTY
Number of Keys	79
Switch Type	Linear (Pegasus Switch)
