SABLUTE K21Pro

SABLUTE K21Pro Large Print Backlit Wired USB Keyboard User Manual

Model: K21Pro

1. INTRODUCTION

The SABLUTE K21Pro is a large print, backlit, wired USB keyboard designed for enhanced readability and ergonomic comfort. It features oversized characters, 7-color adjustable backlighting, an integrated wrist rest, and a convenient phone/tablet holder. This manual provides instructions for setup, operation, maintenance, and troubleshooting to ensure optimal use of your keyboard.

2. PACKAGE CONTENTS

- SABLUTE K21Pro Large Print Backlit Wired USB Keyboard
- Integrated Wrist Rest
- Integrated Palm Rest

3. SETUP

To set up your SABLUTE K21Pro keyboard, follow these simple steps:

1. Unpack the keyboard from its packaging.
2. Locate an available USB-A port on your computer (desktop, laptop, or Mac).
3. Plug the USB connector of the keyboard into the USB-A port.
4. Your operating system (Windows, macOS, etc.) should automatically detect and install the necessary drivers. No additional software installation is typically required.
5. The keyboard is ready for use once detected.

Note: For optimal performance, ensure the USB cable is securely connected.

4. KEY FEATURES AND OPERATION

4.1 Large Print Keys

The SABLUTE K21Pro features oversized characters on each key, making them significantly easier to read compared to standard keyboards. This design helps reduce eye strain and improves typing accuracy, especially for users with visual impairments, seniors, or those working in low-light conditions.

4.2 7-Color Backlight

The keyboard includes a vibrant 7-color backlight system with adjustable brightness and multiple modes. Use the Function (Fn) key in combination with other keys to control the backlighting:

- **Toggle Backlight Color:** Press **Fn + 1** to cycle through the 7 available backlight colors.
- **Keep One Backlight Color:** Press **Fn + 2** repeatedly until your desired single color is displayed. The backlight will remain this color.
- **Backlighting While Typing:** Press **Fn + 3** to activate a mode where keys light up as you type.
- **Backlight Color Changes Back and Forth:** Press **Fn + 4** to enable a dynamic mode where backlight colors transition.
- **Adjust Brightness:** Press **Fn + ↑ (Up Arrow)** to increase backlight brightness and **Fn + ↓ (Down Arrow)** to decrease brightness. There are 8 levels of brightness.

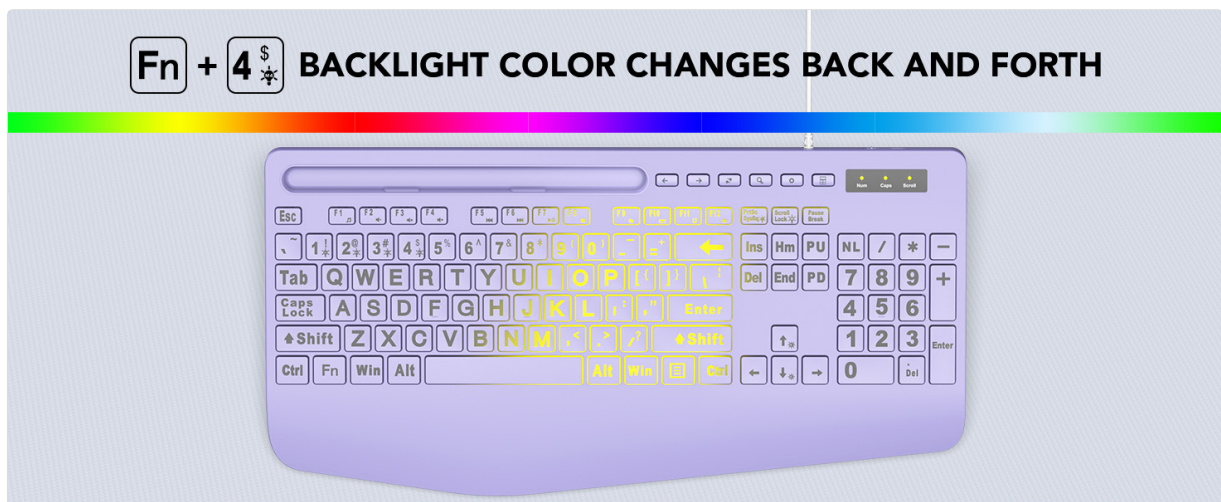

Figure 4.7: Enabling dynamic backlight color changes with Fn + 4.

4.3 Ergonomic Design with Wrist Rest

The keyboard is designed with an integrated palm and wrist rest to provide support and reduce strain during extended typing sessions. This ergonomic feature helps maintain a neutral wrist position, contributing to comfort and potentially preventing discomfort.

4.4 Integrated Phone/Tablet Holder

A dedicated slot at the top of the keyboard serves as a convenient holder for your smartphone or tablet.

This allows you to keep your device upright and visible while working, facilitating multitasking such as watching videos, video conferencing, or reading documents.

4.5 Multimedia Keys

The keyboard includes standard function keys (F1-F12) which, when combined with the Fn key, can activate various multimedia and system controls. Refer to your operating system's documentation for specific functions associated with these keys.

5. MAINTENANCE

Proper care and maintenance will extend the lifespan of your keyboard:

- **Cleaning:** Use a soft, dry, lint-free cloth to wipe the surface of the keyboard. For deeper cleaning, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the key switches or internal components.
- **Dust Removal:** Use compressed air to remove dust and debris from between the keys.
- **Avoid Liquids:** Do not spill liquids on the keyboard. If a spill occurs, immediately disconnect the keyboard from your computer and allow it to dry completely before reconnecting.
- **Storage:** Store the keyboard in a clean, dry environment away from extreme temperatures.

6. TROUBLESHOOTING

If you encounter issues with your SABLUTE K21Pro keyboard, try the following troubleshooting steps:

- **Keyboard Not Responding:**
 - Ensure the USB cable is securely plugged into both the keyboard and the computer's USB port.
 - Try plugging the keyboard into a different USB port on your computer.
 - Restart your computer.
 - Test the keyboard on another computer to determine if the issue is with the keyboard or your system.
- **Backlight Not Working or Not Changing:**
 - Ensure the backlight is turned on. Use **Fn + ↑ (Up Arrow)** to increase brightness.
 - Cycle through backlight modes using **Fn + 1**, **Fn + 2**, **Fn + 3**, and **Fn + 4** to see if a different mode activates the lights.
 - Verify that the keyboard is receiving power (e.g., if other keys are functioning).

- **Specific Keys Not Working or Registering Incorrectly:**

- Check for any physical obstructions or debris under the affected key. Use compressed air to clear.
- If multiple keys are affected, try the general troubleshooting steps for
