VECYS LYCZ628-VB1

VECYS 4-in-1 Water Dispenser with Ice Maker Model LYCZ628-VB1 Instruction Manual

Introduction

Thank you for choosing the VECYS 4-in-1 Water Dispenser with Built-in Ice Maker, Model LYCZ628-VB1. This appliance is designed to provide convenient access to hot, cold, and room-temperature water, along with fresh ice cubes. Please read this manual thoroughly before operation to ensure proper use, maintenance, and safety.

Important Safety Information

To reduce the risk of injury or property damage, always follow basic safety precautions when using electrical appliances. This unit is ETL Approved, ensuring compliance with safety standards.

- **Child Safety Lock:** The hot water dispenser is equipped with a two-step child safety lock to prevent accidental burns. Always engage this lock when not in use, especially in households with children.
- **Electrical Safety:** Ensure the appliance is connected to a grounded outlet. Do not use extension cords. Keep the power cord away from heated surfaces.
- **Placement:** Place the dispenser on a firm, level surface away from direct sunlight, heat sources, and areas with high humidity. Allow adequate space around the unit for ventilation.
- **Water Quality:** Use only potable water. Do not operate the unit without a water bottle installed.
- **Cleaning:** Unplug the unit before cleaning. Do not immerse the appliance in water.
- **Maintenance:** Do not attempt to repair or disassemble the unit yourself. Contact qualified service personnel for assistance.

Product Overview

The VECYS LYCZ628-VB1 combines a water dispenser and an ice maker into a single, efficient unit. It features a bottom-loading design for easy water bottle replacement and internal 304 stainless steel pipes for enhanced hygiene and durability.

VECYS 4-in-1 Water Dispenser with Ice Maker, showing hot, cold, room water, and ice cube functions.

VECYS water dispenser showing hot water, cold water, room water, and ice cubes being dispensed into a glass, with a removable drip tray.

Close-up of the easy-to-use control panel of the VECYS water dispenser, showing indicators for making ice, energy saving (ECO), child lock, lack of water, hot water, fresh water, and cold water, with ice and water outlets.

Key Features:

- **4-in-1 Functionality:** Delivers hot, cold, and room-temperature water, plus bullet-shaped ice cubes.
- **Bottom-Loading Design:** Accommodates 3-5 gallon water bottles, eliminating heavy lifting and spills.
- **304 Stainless Steel Pipes:** Ensures water purity and product longevity.
- **High-Performance Compressor:** For efficient ice production (up to 22 lbs/24H) and stable water temperatures.
- **Eco-Mode:** Reduces power consumption for energy efficiency.
- **Self-Cleaning Function:** Simplifies maintenance and ensures hygiene.
- **Child Safety Lock:** Prevents accidental hot water dispensing.

Setup

1. **Unpacking:** Carefully remove the dispenser from its packaging. Retain packaging materials for future transport if needed.
2. **Placement:** Position the unit on a flat, stable, and level surface. Ensure there is at least 4 inches of clearance from walls to allow for proper ventilation. Avoid direct sunlight or proximity to heat sources.
3. **Water Bottle Installation:**

- Open the bottom cabinet door.
- Remove the cap from a new 3 or 5-gallon water bottle.
- Insert the probe into the water bottle.
- Slide the water bottle into the cabinet and close the door. The internal pump will draw water as needed.

4. **Initial Flushing:** Before first use, dispense and discard at least 1 liter of water from each tap (hot, cold, room temperature) to flush the system. This helps remove any manufacturing residue.
5. **Power Connection:** Plug the power cord into a grounded electrical outlet.
6. **Allow to Settle:** After plugging in, allow the unit to sit for at least 30 minutes before turning on the heating or cooling functions to allow refrigerants to settle.

Operating Instructions

The control panel on the top of the dispenser allows you to manage all functions.

Control Panel Overview

1. **Power On/Off:** Press the main power button (usually indicated by a universal power symbol) to turn the unit on or off.
2. **Hot Water Dispensing:** To dispense hot water, first push the child safety lock button, then press the hot water dispensing lever. Release the lever to stop the flow.
3. **Cold Water Dispensing:** Press the cold water dispensing lever. Release the lever to stop the flow.
4. **Room Temperature Water Dispensing:** Press the room temperature water dispensing lever. Release the lever to stop the flow.
5. **Ice Making Function:**
   - Ensure the ice making function is enabled via the control panel.
   - The unit will automatically begin producing bullet-shaped ice cubes.
   - Ice production capacity is approximately 22 lbs per 24 hours, with each cycle producing 9 pieces in 6-8 minutes.
   - The ice storage capacity is 1.1 lbs.
6. **Eco-Mode:** Activate Eco-Mode via the control panel to optimize energy consumption. The unit will intelligently manage heating and cooling cycles.

7. **Lack of Water Indicator:** An indicator light will illuminate when the water bottle is empty and needs replacement.

Maintenance

Regular maintenance ensures optimal performance and hygiene of your VECYS water dispenser.

- **Self-Cleaning Function:** Utilize the built-in self-cleaning function periodically. Refer to the control panel for activation instructions. This feature helps maintain internal cleanliness.
- **Drip Tray Cleaning:** The removable drip tray should be emptied and cleaned regularly to prevent overflow and bacterial growth. Wash with mild soap and water, then rinse thoroughly.
- **Exterior Cleaning:** Wipe the exterior surfaces of the dispenser with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Condenser Coil Cleaning:** Periodically clean the condenser coils located at the back of the unit with a brush or vacuum cleaner to ensure efficient cooling. Ensure the unit is unplugged before cleaning the coils.
- **Water Bottle Replacement:** Replace empty water bottles promptly to avoid running the pump dry.

Troubleshooting

If you encounter issues with your VECYS water dispenser, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No hot or cold water	Power switch off; heating/cooling elements not activated; empty water bottle.	Ensure unit is plugged in and power is on. Check if hot/cold switches are engaged. Replace water bottle if empty.
Ice not forming or insufficient ice	Ice making function off; low water level; ambient temperature too high; clogged water line.	Ensure ice making is enabled. Replace water bottle. Ensure proper ventilation. Perform self-cleaning.
Water leak	Improperly seated water bottle; damaged water line; full drip tray.	Re-seat the water bottle. Check for visible damage. Empty and clean the drip tray.
"Lack of water" indicator on	Water bottle is empty or not properly installed.	Replace the water bottle and ensure it is correctly seated with the probe inserted.
Unusual noise	Unit not level; fan obstruction; normal compressor operation.	Ensure the unit is on a level surface. Check for obstructions around the fan. Some compressor noise is normal.

If the problem persists after attempting these solutions, please contact VECYS customer support.

Specifications

Feature	Specification
Model Number	LYCZ628-VB1

Feature	Specification
Brand	VECYS
Color	Black
Water Bottle Capacity	3-5 gallons
Product Dimensions (D x W x H)	18" x 14" x 44"
Access Location	Bottom Loading
Power Source	Corded Electric
Item Weight	47 pounds
Water Refrigeration Capacity	2L (0.53 Gallon)/Hr
Internal Cold Water Tank Capacity	1.5L (0.4 Gallon)
Water Temperature Range	Cold: ~42°F, Hot: ~212°F (Boiling)
Ice Making Capacity	22 lbs/24 hours
Ice Making Time per Cycle	6-8 minutes
Ice Storage Capacity	1.1 lbs
