3.3 Transferring Music and Files

To transfer files from your computer to the MP3 player:

1. Connect the MP3 player to your computer using the provided USB-C cable.
2. The device should appear as a removable disk drive on your computer. If it does not, try using the original cable or a different USB port.
3. Drag and drop your desired music, video, e-book, or photo files into the appropriate folders on the device's internal storage or microSD card.
4. Once transfer is complete, safely eject the device from your computer before disconnecting the cable.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

- **Power On:** Press and hold the dedicated power button on the side of the device until the screen illuminates.
- **Power Off:** Press and hold the power button until a power-off option appears on the screen, then confirm. A short press will turn the screen on/off.

4.2 Basic Navigation (Click Wheel)

The Innioasis Y2 utilizes a classic click wheel for navigation:

- **Rotate:** Spin the outer ring of the click wheel to scroll through menus or adjust volume.
- **Center Button:** Press the center button to select an item or play/pause music.
- **Menu Button:** Typically located above the click wheel, used to go back to the previous menu or home screen.
- **Skip/Fast Forward/Rewind Buttons:** Located around the click wheel for track control.

4.3 Music Playback

The device supports a wide range of audio formats including MP3, AAC, FLAC, APE, WAV, WMA, OGG, M4A, DFF, AMR, MID, M4R, and MP2. Navigate to the 'Music' section to browse your library by artist, album, genre, or all songs. Select a track to begin playback.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid using liquid cleaners or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Software Updates:** Periodically check the manufacturer's website for firmware updates to ensure optimal performance and access to new features.

6. TROUBLESHOOTING

Common Issues and Solutions:

- **Device not recognized by computer:**
Ensure you are using the original USB-C cable. Try connecting to a different USB port on your computer. Restart both the device and the computer.
- **MicroSD card not detected or keeps popping out:**
Ensure the microSD card is inserted correctly and fully seated until it clicks. If issues persist, try a different microSD card to rule out card malfunction.

- **Screen goes black or device freezes:**

Press and hold the power button for about 10-15 seconds to force a restart. If the issue is frequent, ensure the device's firmware is up to date.

- **Bluetooth connection issues (disconnects, low volume):**

Ensure the MP3 player and Bluetooth audio device are within range and fully charged. Try unpairing and re-pairing the devices. Adjust volume settings on both the player and the connected device.

- **Audio output too loud/low via wired headphones:**

Adjust the volume using the dedicated volume buttons or the click wheel. Check equalizer settings if enabled.
