### Battery Care

The device is powered by a 3000 mAh removable battery. To maximize battery life:

- Avoid extreme temperatures.
- Use the provided Type-C charging cable.
- For optimal long-term health, avoid fully discharging the battery frequently.
- The removable design allows for easy replacement if needed, extending the phone's lifespan.

The 3000 mAh battery provides reliable daily power.

Key features include a compact screen, optimized Android 16, octa-core processor, and a removable battery.

## Storage Management

The phone comes with 32GB of internal storage, which can be expanded up to 256GB using a Micro SD card. Regularly manage your files and applications to maintain optimal performance.

## Troubleshooting

- **Device not turning on:** Ensure the battery's insulating tab has been removed and the battery is correctly installed. Charge the device for at least 30 minutes before attempting to power it on again.
- **Charging issues:** Verify that the Type-C cable is securely connected to both the phone and a power source. Remember, a charger plug is not included; use a compatible USB wall adapter.
- **SIM card not detected:** Ensure the Nano SIM card(s) are correctly inserted into their slots with the gold contacts facing down. Restart the phone.
- **Poor camera quality:** Note that only the main 5MP rear camera is functional; the other two lenses are decorative. Ensure the lens is clean and well-lit for best results.
- **Slow performance:** Clear unnecessary apps running in the background, free up storage space, or consider performing a factory reset (back up your data first).
