Lvifur B0H2466GHW

Lvifur 10-Tier Glass Display Cabinet Instruction Manual

Model: B0H2466GHW

Important Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- **Anti-Tipping Device:** Always install the included anti-tipping device to prevent the cabinet from falling, especially in households with children or pets.
- **Glass Handling:** Tempered glass is strong but can break under impact. Handle all glass panels with care. Wear protective gloves during assembly.
- **Weight Limits:** The glass shelves have a maximum load of 20 lbs (9 kg) each. The wooden base has a maximum load of 40 lbs (18 kg). Do not exceed these limits.
- **Placement:** Place the cabinet on a flat, stable surface. Avoid placing it in areas with high humidity or direct sunlight.
- **Electrical Safety:** Ensure all electrical connections for the RGB lighting are secure and follow local electrical codes. Do not expose wiring to water.

Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Anti-Tip Device
- Glass Doors
- Hardware Bag (screws, connectors, etc.)
- Lock and Keys
- User Manual
- Glass Shelves (10 total)
- Wood Panels (top, bottom, back)
- RGB Light Strips and Controller

- Motion Sensor Module

Assembly Instructions

Before You Begin

- Clear a spacious, clean, and level area for assembly.
- Gather necessary tools: Phillips head screwdriver (usually included), soft cloth.
- Unpack all components and lay them out, checking against the package contents list.

Step-by-Step Assembly

Follow the numbered instructions provided in the included user manual. The general steps involve:

1. Assemble the base frame using the provided hardware.
2. Attach the side glass panels to the base.

3. Install the internal glass shelves at desired heights.
4. Assemble and attach the top section, including the light strips.
5. Install the glass doors and the locking mechanism.
6. Connect the RGB lighting and motion sensor modules.
7. Secure the cabinet to the wall using the anti-tipping device.

Operating Instructions

RGB Lighting Control

The cabinet features customizable RGB lighting with multiple modes.

- **Modes:** Choose from 5 dynamic lighting modes and 7 static color modes.
- **Brightness Adjustment:** Adjust the brightness for any static color to suit your preference.
- **Control:** Use the integrated controller or a compatible mobile app for full control over lighting settings.

Motion Sensor Function

The integrated human sensor automatically manages the lighting.

- **Automatic Activation:** Lights turn on automatically when motion is detected within 1-2 meters.
- **Automatic Deactivation:** Lights turn off automatically after 30 seconds of no detected motion.
- **Compatibility:** This feature works across all dynamic and static lighting modes.

Lockable Pop-Up Glass Doors

The cabinet features a secure locking mechanism for the glass doors.

- **Operation:** The doors feature a handle-less pop-up design for easy access. Gently push to open.
- **Security:** Use the provided key to lock the doors, securing your collectibles.

Multi-Purpose Display Cabinet

Perfect for living room, gaming room, bedroom, study, office & more

Care and Maintenance

Regular cleaning and proper care will maintain the appearance and longevity of your display cabinet.

- **Glass Surfaces:** Clean glass panels with a soft, lint-free cloth and a non-abrasive glass cleaner. Avoid spraying cleaner directly onto the glass; apply it to the cloth first.
- **Wood Surfaces:** Wipe wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that can damage the finish.
- **Dusting:** Regularly dust all surfaces with a dry, soft cloth to prevent buildup.
- **Avoid Moisture:** Do not allow liquids to sit on wood surfaces. Promptly wipe up any spills.
- **Inspection:** Periodically check all hardware and connections to ensure they remain tight and secure.

Troubleshooting Guide

Refer to this guide for common issues and their solutions.

Problem	Possible Cause	Solution
RGB lights are not turning on.	Power cable disconnected; faulty power adapter; light strip malfunction.	Ensure power cable is securely plugged into the outlet and the cabinet. Check if the power adapter is working. If issues persist, contact customer support.
Motion sensor is not responding or lights stay on/off.	Sensor obstructed; incorrect sensitivity setting; sensor malfunction.	Ensure the sensor is not blocked. Check the sensor settings on the controller or app. If the problem continues, contact customer support.
Glass door does not lock smoothly.	Misalignment of door or lock mechanism; debris in lock.	Check for any obstructions around the lock or door hinges. Ensure the door is properly aligned. Do not force the lock. Contact customer support if necessary.
Cabinet feels unstable.	Anti-tipping device not installed; uneven floor; loose connections.	Ensure the anti-tipping device is correctly installed and secured to the wall. Place the cabinet on a level surface. Tighten all assembly screws.

Product Specifications

Feature	Detail
Brand	Lvifur
Model Number	B0H2466GHW
Color	Black
Material	Engineered Wood, Glass
Product Dimensions (D x W x H)	13.8"D x 30.7"W x 70.86"H (35cm D x 78cm W x 180cm H)
Item Weight	46.9 kg
Number of Shelves	10
Glass Shelf Max Load	20 lbs (9 kg)
Wood Shelf Max Load	40 lbs (18 kg)
Lighting Type	RGB LED with Motion Sensor
Lock Type	Key Lock
Installation Type	Freestanding
