Bellemave FST00236-CT-AK1

Bellemave Twin Montessori Floor Bed Instruction Manual

Model: FST00236-CT-AK1

Introduction

This manual provides detailed instructions for the assembly, safe use, and maintenance of your Bellemave Twin Montessori Floor Bed. Please read all instructions carefully before assembly and retain this manual for future reference.

Safety Information

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Keep all small parts and packaging materials away from children during assembly.
- Ensure all bolts and connectors are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not allow children to jump on the bed.
- Do not use this bed if any parts are missing, damaged, or broken. Contact Bellemave for replacement parts.
- Only use a mattress of the appropriate size for a Twin bed.
- Place the bed on a flat, level surface.

Parts List

Before beginning assembly, ensure all components are present. If any parts are missing or damaged, do not proceed with assembly. Contact customer support.

- Headboard and Footboard Panels
- Side Rails
- Roof Frame Components
- Bed Slats
- Hardware Pack (bolts, screws, Allen wrench)

Setup and Assembly Instructions

Assembly typically requires two adults. Please follow the steps below carefully.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a soft, clean surface to prevent scratching. Refer to the parts list to identify each piece.
2. **Assemble the Headboard and Footboard:** Attach the vertical posts to the horizontal panels of the headboard and footboard using the provided bolts and Allen wrench. Ensure connections are snug but do not overtighten.
3. **Attach Side Rails:** Connect the side rails to the assembled headboard and footboard panels. Use the appropriate bolts and tighten them securely. This forms the main bed frame structure.
4. **Install Roof Frame:** Assemble the roof frame components according to the diagram. Attach the assembled roof frame to the top of the bed posts. Ensure all connections are firm.
5. **Place Bed Slats:** Position the bed slats evenly across the side rails. Secure each slat to the side rails using the provided screws. This provides support for the mattress.
6. **Final Check:** Once assembly is complete, double-check all bolts and screws to ensure they are fully tightened. The bed should be stable and free of wobbling.

Operating Instructions

Once assembled, the Bellemave Twin Montessori Floor Bed is ready for use.

- Place a standard Twin-sized mattress directly onto the bed slats. No box spring is required.
- Ensure the mattress fits snugly within the frame to prevent gaps.
- The low-profile design allows for easy access for children.

Maintenance

Regular maintenance will help prolong the life of your bed.

- **Cleaning:** Wipe down the bed frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if any feel loose.

- **Inspection:** Inspect the bed regularly for any signs of wear, damage, or loose components. Address any issues promptly.

Troubleshooting

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose bolts or screws. Uneven floor surface.	Check and tighten all assembly hardware. Move the bed to a level surface or use shims if necessary.
Squeaking noises	Loose connections. Friction between wood parts.	Tighten all bolts. Apply a small amount of paraffin wax or silicone spray to contact points between wood components if squeaking persists.
Missing parts during assembly	Packaging error.	Do not proceed with assembly. Contact Bellemave customer support for replacement parts.

Specifications

Feature	Detail
Model Number	FST00236-CT-AK1
Brand	Bellemave
Size	Twin house
Material	Wood (Pinewood frame)
Product Dimensions (L x W x H)	80.7" x 41.2" x 53.9"
Item Weight	26 Pounds
Maximum Weight Recommendation	250 Pounds
Compatible Mattress Size	Twin
Assembly Required	Yes
Included Components	Slats
Special Feature	No Box Spring Needed
