SETUP AND ASSEMBLY

This vanity requires assembly. Ensure all parts are present before beginning. It is recommended to have two people for assembly. Tools required (not included): Phillips head screwdriver, adjustable wrench, level.

Package Contents:

- 1 x Main Cabinet
- 1 x Ceramic Sink
- 1 x Hardware Package (screws, hinges, handles, etc.)
- 1 x Instruction Manual (this document)

1 PACKAGE

(Self Assembly Needed)

Perfect Size

- 1x Main Cabinet
- 1 x Sink
- 1 x Hardware Package
- 1 x Instruction

Assembly Steps (General Guidelines):

- 1. Unpack and Inspect:** Carefully remove all components from the packaging. Check for any damage or missing parts.
- 2. Assemble Cabinet Frame:** Follow the detailed instructions provided in the hardware package to assemble the main cabinet frame using the provided screws and connectors. Ensure all connections are secure.
- 3. Install Doors and Drawers:** Attach the soft-close hinges to the cabinet doors and then mount the doors to the cabinet frame. Install the flip-out drawer mechanism and the drawer front. Adjust hinges as needed for proper alignment.
- 4. Install Handles:** Attach the silver handles to the doors and drawer using the provided screws.
- 5. Place Ceramic Sink:** Carefully place the ceramic sink onto the top of the assembled cabinet. Ensure it is properly aligned with the cabinet edges and any pre-drilled holes.
- 6. Connect Plumbing:** Position the vanity in its desired location. Connect the water supply lines and drain according to local plumbing codes. The open-back design facilitates plumbing access.

7. **Level the Vanity:** Use a level to ensure the vanity is stable and level on the floor. Adjust any leveling feet if present.

Safety Note: Always use appropriate safety gear during assembly. Do not overtighten screws to avoid damaging the wood. If you are unsure about any step, consult a professional.

OPERATING FEATURES

Soft-Close Doors

The cabinet doors are equipped with soft-close hinges. This feature allows the doors to close gently and quietly, preventing slamming and reducing wear and tear. Simply push the door to close, and the mechanism will engage to slow its movement.

Adjustable U-Shaped Interior Shelf

The vanity includes an adjustable U-shaped shelf designed to maximize storage space while accommodating plumbing. To adjust the shelf height:

1. Empty the shelf of all items.
2. Locate the shelf pins or clips supporting the shelf.
3. Remove the shelf pins/clips and carefully lift the shelf out.
4. Reinsert the shelf pins/clips into the desired height positions.
5. Place the U-shaped shelf back onto the pins/clips, ensuring it is stable.

Flip-Out Drawer

The vanity features a convenient flip-out drawer located directly below the sink. This drawer is ideal for storing small items like toothbrushes, toothpaste, or other frequently used toiletries, keeping them easily accessible yet out of sight.

The flip-out drawer provides convenient storage for small items.

MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your GDFStudio bathroom vanity.

Ceramic Sink Care

- Clean the ceramic sink regularly with a soft cloth, warm water, and a mild, non-abrasive cleaner.
- Avoid using harsh chemicals, abrasive pads, or scouring powders, as these can damage the glossy finish.
- Rinse thoroughly after cleaning and wipe dry to prevent water spots.
- The integrated overflow hole helps prevent spills; ensure it remains clear of debris.

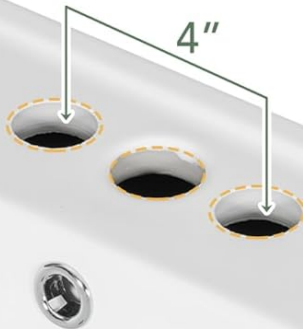

Premium Ceramic Sink

The smooth, non-porous surface is resistant to stains and easy to clean.

Overflow Protection

Equipped with an overflow hole to prevent spills and maintain a mess-free space.

Three pre-drilled Hole

The basin features 3 pre-drilled hole suitable for a 4-inch faucet

Cabinet Care (Solid Wood + MDF)

- Wipe the cabinet surfaces with a soft, damp cloth. Dry immediately to prevent moisture damage.
- Avoid prolonged exposure to water or high humidity.
- Do not use silicone-based polishes or cleaners, as they can build up and dull the finish.
- For stubborn spots, use a mild soap solution and wipe clean, then dry thoroughly.
- Protect surfaces from sharp objects, excessive heat, and direct sunlight.

TROUBLESHOOTING

This section addresses common issues you might encounter with your vanity.

Issue: Doors do not close properly or are misaligned.

Solution: Adjust the soft-close hinges. Most hinges have adjustment screws that allow for horizontal, vertical, and depth adjustments. Refer to the hinge manufacturer's instructions or a general guide for hinge adjustment.

Issue: Water spots or stains on the ceramic sink.

Solution: Clean with a mild, non-abrasive cleaner and a soft cloth. For hard water spots, a solution of white vinegar and water can be used, followed by thorough rinsing.

Issue: Cabinet appears wobbly or unstable.

Solution: Ensure the vanity is placed on a level surface. If adjustable feet are present, adjust them until the vanity is stable. Check all assembly screws to ensure they are tightened securely.

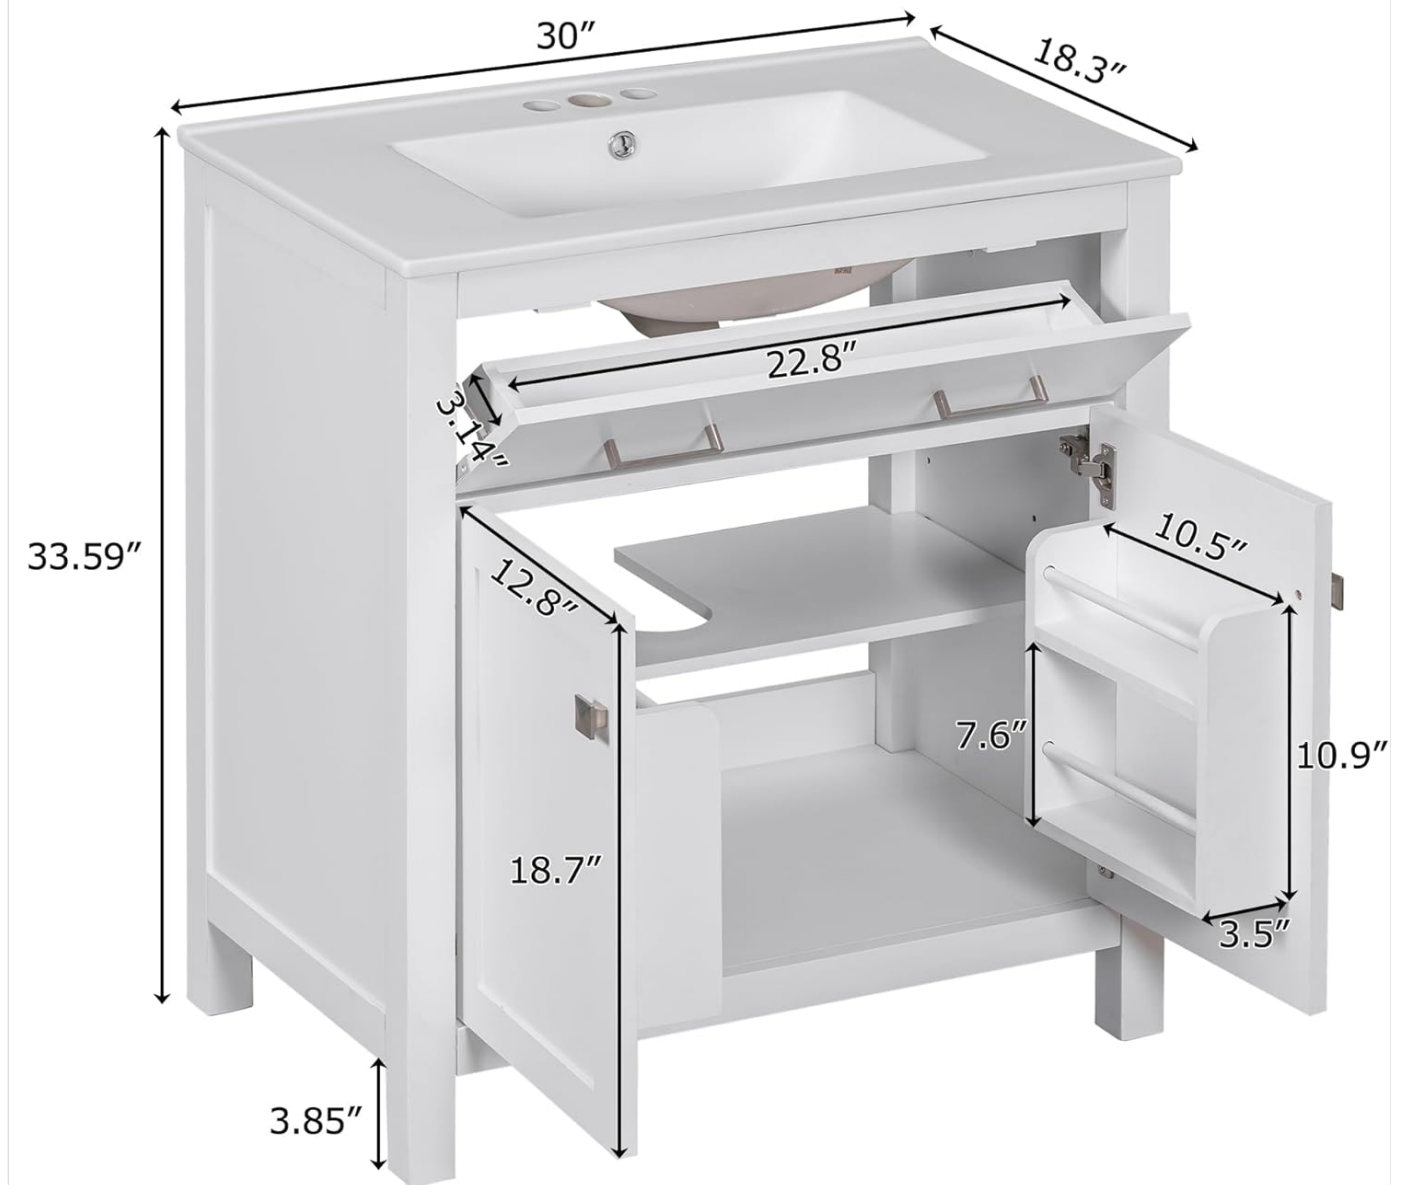

Issue: Slow drainage from the sink.

Solution: Check the sink stopper for hair or debris. If the issue persists, the P-trap may need to be cleaned or inspected for blockages. Consult a plumber if necessary.

SPECIFICATIONS
