

Movued 1

Movued Jet Nozzle Power Washer Instruction Manual

Model: 1 | Brand: Movued

1. INTRODUCTION

Thank you for choosing the Movued Jet Nozzle Power Washer. This device is designed to provide efficient and versatile cleaning for various outdoor tasks, including car washing, patio cleaning, garden watering, and more. Please read this manual carefully before use to ensure proper operation and maintenance.

2. SAFETY INFORMATION

- Always wear appropriate personal protective equipment, such as eye protection, when operating the power washer.
- Do not point the nozzle at people, pets, or electrical outlets.
- Ensure all connections are secure before turning on the water supply to prevent leaks.
- Do not use with hot water or corrosive chemicals unless specifically designed for such use.
- Keep out of reach of children.

3. PACKAGE CONTENTS

Verify that all components are present in your package:

- Jet Nozzle Power Washer Wand
- Foam Bottle Attachment
- Quick Connectors (for 1/2" and 3/4" garden hoses)
- Faucet Adapter
- Hose Adapter
- Multi-Use Connector

4. SETUP

Follow these steps to connect your power washer to a standard garden hose:

1. **Choose the Correct Connector:** Identify the appropriate quick connector for your garden hose size (1/2" or 3/4").
2. **Attach Connector to Hose:** Securely attach the chosen quick connector to the end of your garden hose.
3. **Connect Wand:** Insert the power washer wand into the quick connector on the hose until it clicks into place.
4. **Optional Foam Bottle Attachment:** If using the foam function, fill the foam bottle with your desired cleaning solution and attach it between the wand and the hose connection point. Ensure it is securely fastened.

One Sprayer, Multiple Uses — More Than Just Car Washing

Different Spray Modes for Various Scenarios

Car Washing

Pet Bathing

Window Cleaning

Floor Cleaning

Window Cleaning

Plant Watering

Tree Watering

5. OPERATING INSTRUCTIONS

5.1 Adjusting Spray Modes

The Movued Jet Nozzle Power Washer features an adjustable nozzle to switch between various spray patterns. Simply twist the brass tip of the nozzle to select your desired mode:

- **Water Column (Jet Stream):** A concentrated, powerful stream for tough dirt and grime.
- **Sharp Umbrella (Cone):** A wider, conical spray for rinsing and general cleaning.
- **Wide-Bound (Wide Fan):** A broad, gentle fan spray for larger surfaces or delicate tasks.
- **Spray Shower Type (Gentle Mist):** A fine mist for watering plants or gentle rinsing.

Multiple spraying modes

Meet the needs of more applications

5.2 Using the Foam Function

To apply soap or cleaning solution:

1. Ensure the foam bottle is attached and filled with your chosen solution.
2. Turn on the water supply.
3. The power washer will mix the solution with water, creating a thick foam for deep cleaning.
4. After applying foam, you can remove the foam bottle and rinse with clear water.

6. MAINTENANCE

6.1 Cleaning the Nozzle

Regularly inspect the nozzle tip for any blockages or mineral buildup. If necessary, clean the nozzle with a small brush or a pin to ensure an unobstructed spray pattern.

6.2 Storage

After each use, disconnect the power washer from the hose and drain any remaining water. Store the unit in a cool, dry place, away from direct sunlight and freezing temperatures, to prevent damage to internal components.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Low water pressure	Insufficient water supply; clogged nozzle; loose hose connection.	Ensure full water supply; clean nozzle; tighten hose connections.
Water leakage	Loose connections; damaged O-rings or washers.	Tighten all connections; inspect and replace O-rings/washers if damaged.
No foam production	Foam bottle empty; foam bottle not securely attached; incorrect soap-to-water ratio.	Refill foam bottle; ensure secure attachment; adjust soap concentration.

8. SPECIFICATIONS

- **Brand:** Movued
- **Model Number:** 1
- **Included Components:** High pressure hose nozzle

- **Item Dimensions (L x W x H):** 0.1 x 0.1 x 0.1 inches (Note: These dimensions appear to be placeholder values and may not reflect the actual product size.)
- **Unit Count:** 1 Count
