## SETUP GUIDE

### 1. Charging the Device

1. Connect the provided USB data cable to the recorder's USB-C port.
2. Plug the other end of the USB cable into a computer's USB port or a compatible USB wall adapter (not included).
3. The device will indicate charging status (e.g., an LED indicator). A full charge typically takes a few hours.

### 2. Initial Power On

- Ensure the device is sufficiently charged.
- Locate the power switch (usually labeled OFF/REC/SPK).
- Slide the switch to the 'OFF' position to ensure it's ready for operation or to power it off after use.

### 1. One-Touch Recording

1. To start recording, slide the switch from 'OFF' to 'REC'. The device will begin recording immediately.
2. To stop recording and save the file, slide the switch back to 'OFF'.

### 2. Voice Activated Recording (VOR)

The device supports Voice Activated Recording (VOR), which automatically starts recording when sound is detected above 15 dB and pauses when silent, optimizing memory and battery usage.

1. To enable VOR, ensure the device is in 'REC' mode. The VOR function is typically activated by default or can be toggled via specific button combinations (refer to the detailed manual for specific steps if not automatic).

2. The recorder will automatically begin capturing audio when sound is present and pause when there is no sound.
3. To disable VOR or stop recording, slide the switch to 'OFF'.

### 3. Playback Recordings

1. To play back recordings directly on the device, connect the included earphones to the earphone jack.
2. Slide the switch to 'SPK' (Speaker) mode. The device will begin playing the last recorded file or MP3s.
3. Use the volume buttons (+/-) to adjust the playback volume.
4. To skip tracks or navigate through files, specific button presses may be required (refer to the detailed manual).
5. Alternatively, recordings can be played back via the integrated speaker by sliding the switch to 'SPK' without earphones connected.

### 4. Connecting to a Computer / OTG Devices

To manage your recorded files, connect the recorder to a computer or compatible OTG device.

1. Ensure the recorder is in the 'OFF' position.
2. Connect the recorder to your computer using the provided USB data cable. For smartphones or tablets, use the included USB-C or Lightning adapter.
3. The device will appear as a removable disk drive on your computer (Windows/macOS) or connected storage on your mobile device.
4. You can then copy, move, delete, or play back the audio files (typically in MP3 format).

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid liquid cleaners or solvents.
- **Storage:** Store the recorder in a cool, dry place away from direct sunlight and extreme temperatures.

- **Battery Care:** To prolong battery life, avoid fully discharging the device frequently. Charge it regularly, even if not in use for extended periods.
- **Data Management:** Regularly back up important recordings to a computer or cloud storage to prevent data loss.
