BIG RED ATB201BR

BIG RED 5-Drawer Rolling Tool Chest

MODEL: ATB201BR

Instruction Manual

Introduction

This manual provides essential information for the safe and effective assembly, operation, and maintenance of your BIG RED 5-Drawer Rolling Tool Chest. This unit is designed for organizing and storing tools and equipment in garage or workshop environments. It features a durable cold-rolled steel construction with a corrosion-resistant finish, a detachable top tool chest, multiple drawers, an adjustable shelf, and a locking mechanism for security. Please read this manual thoroughly before use and retain it for future reference.

Safety Information

- Always ensure the tool chest is placed on a level, stable surface to prevent tipping.
- Do not overload drawers or shelves beyond their weight capacity.
- Keep drawers closed and locked when moving the unit to prevent contents from spilling and drawers from opening unexpectedly.
- Use caution when detaching or reattaching the top tool chest due to its weight.
- Keep children and unauthorized persons away from the tool chest, especially when it is open or being moved.
- Wear appropriate personal protective equipment (PPE) during assembly, such as gloves, to prevent cuts or pinches.

Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Top Tool Chest (with 4 drawers)

- Bottom Storage Cabinet (with 1 drawer and adjustable shelf)
- Wheels (2 swivel, 2 directional)
- Handle
- Keys for locking mechanism
- Assembly Hardware (bolts, washers, nuts)
- Drawer Liners (EVA padding)

Setup and Assembly

Follow these steps to assemble your rolling tool chest.

1. **Unpacking:** Carefully remove all components from the packaging. Inspect for any damage.
2. **Attach Wheels:** Turn the bottom storage cabinet upside down. Attach the two swivel casters to the front corners and the two directional wheels to the rear corners using the provided hardware. Ensure all bolts are tightened securely.
3. **Attach Handle:** Secure the side handle to the designated mounting points on the bottom cabinet using the provided hardware.
4. **Place Top Tool Chest:** Carefully lift the top tool chest and align it onto the top surface of the bottom storage cabinet. Ensure it is seated securely.
5. **Insert Drawer Liners:** Place the EVA padding liners into each drawer to protect tools and drawer surfaces.

PRODUCT SIZE

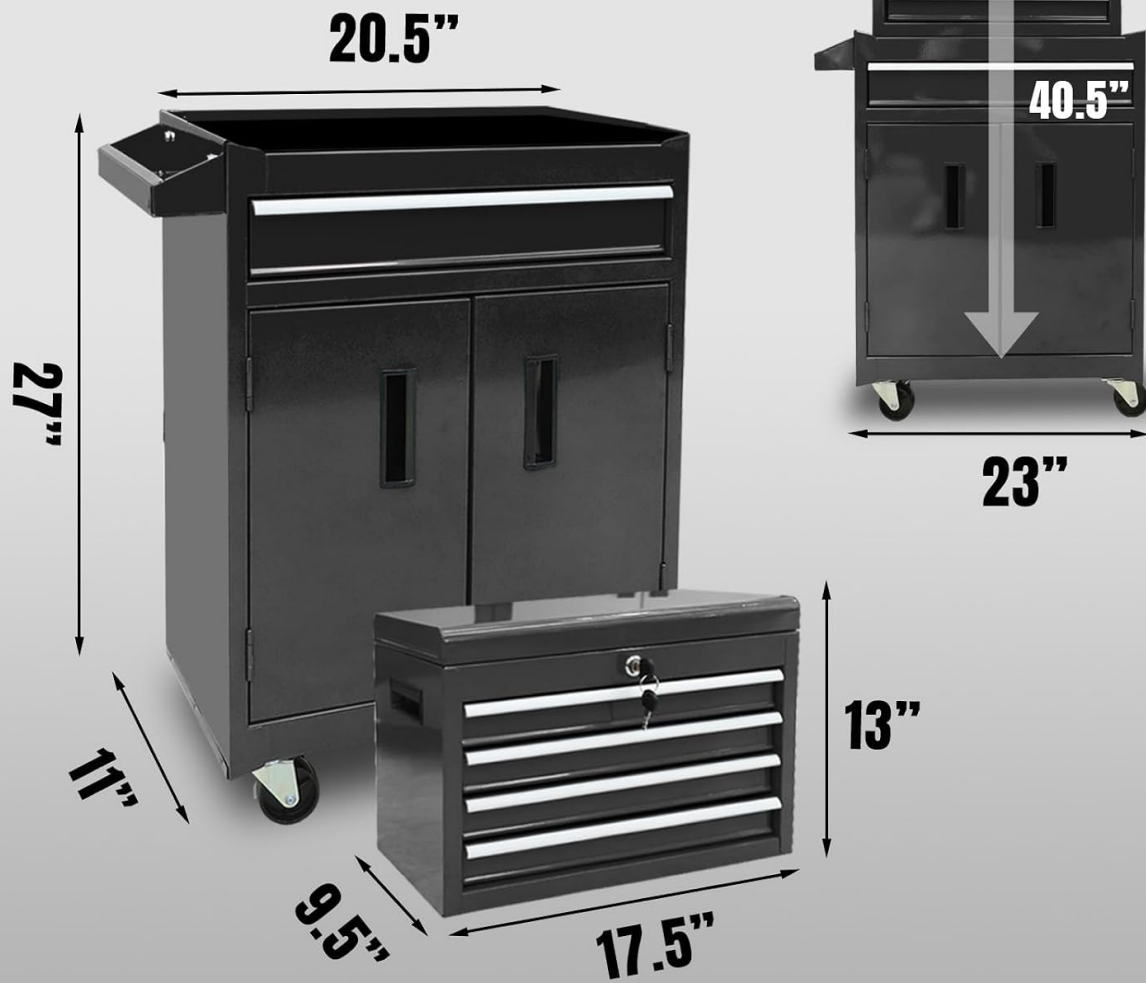

Figure 1: Product Dimensions and Detachable Components. This image illustrates the overall dimensions of the assembled unit, as well as the individual dimensions of the detachable top tool chest and the rolling bottom cabinet.

2 IN 1 TOOL CHEST AND CABINET

*The top chest can be placed
in the bottom cabinet during movement*

Figure 2: 2-in-1 Tool Chest Configuration. The top chest can be used independently or placed on the bottom cabinet for a combined storage solution.

Operating Instructions

- **Opening/Closing Drawers:** The drawers are equipped with ball-bearing slides for smooth operation. Pull the drawer handle to open and push to close. Ensure drawers are fully closed before moving the unit.
- **Locking Mechanism:** Use the provided keys to lock the drawers of both the top tool chest and the bottom cabinet. Insert the key into the lock and turn to secure or unlock. Always remove keys after locking.
- **Detaching Top Tool Chest:** The top tool chest can be removed from the bottom cabinet for portability. Ensure all drawers are closed and locked. Carefully lift the top chest using its integrated handle.
- **Moving the Unit:** Use the built-in side handle to maneuver the rolling tool chest. The swivel casters allow for easy turning, while the directional wheels provide stability. Engage the wheel brakes when the unit is stationary to prevent unintended movement.
- **Adjusting Shelf:** The bottom cabinet features an adjustable shelf. To adjust, remove any items from the shelf, unclip the shelf supports, reposition them to the desired height, and re-insert the shelf.

Bilateral handle

**Non-slip mat
avoid scraping**

**Sider tray provides
extra space**

Smooth slide rail

**Bottom cabinet for
large tools**

Figure 3: Key Features and Components. This image highlights the bilateral handle for easy movement, the non-slip mat on the top surface, the convenient side tray, smooth slide rails for drawers, and the spacious bottom cabinet.

PORTABLE TOP TOOL CHEST

Figure 4: Portable Top Tool Chest Details. This image details the comfort grip handle for easy carrying, the smooth ball-bearing drawer slides, the protective thickened anti-slip liners, and the secure safety latch for locking.

LARGE STORAGE SPACE

Figure 5: Storage Space Overview. This image demonstrates the various storage options including the top workbench for frequently used tools, the bottom cabinet for larger items, the side tray for hanging wrenches, and the lockable drawers for small tools and parts.

Maintenance

- **Cleaning:** Wipe down the exterior surfaces with a soft, damp cloth. Avoid abrasive cleaners that may damage the finish.
- **Drawer Slides:** Periodically check the drawer slides for smooth operation. If necessary, apply a small amount of silicone lubricant to the slides.
- **Wheels:** Inspect wheels regularly for debris or damage. Clean as needed to ensure smooth rolling.
- **Corrosion Prevention:** The tool chest is painted with a corrosion-resistant coating. Avoid prolonged exposure to moisture or harsh chemicals to maintain its protective finish.

Troubleshooting

- **Drawers not opening:** Ensure the top tool chest is properly seated on the bottom cabinet. Some units feature an interlock mechanism where the top lid must be open for the drawers to unlock. Check if the locking mechanism is engaged.
- **Wheels not rolling smoothly:** Check for debris caught in the wheels or around the axles. Ensure wheel

brakes are disengaged. Lubricate wheel bearings if necessary.

- **Locking mechanism not working:** Verify that the key is fully inserted and turned correctly. Ensure no items are obstructing the locking bar or drawer movement.

Specifications

Feature	Detail
Brand	BIG RED
Model Number	ATB201BR
Material	Cold-Rolled Steel
Color	Black
Product Dimensions (L x W x H)	23" x 11" x 40.5"
