4. SETUP

4.1 Initial Charging

Before first use, fully charge your tablet. Connect the USB-C cable to the tablet's USB-C port and the power adapter, then plug the adapter into a wall outlet. The charging indicator will show the charging status.

4.2 Powering On/Off

- **To Power On:** Press and hold the power button until the Compaq logo appears on the screen.
- **To Power Off:** Press and hold the power button until the power options appear, then select "Power off."
- **To Restart:** Press and hold the power button until the power options appear, then select "Restart."

4.3 SIM Card and MicroSD Card Installation

Your tablet supports a Nano SIM card for 4G LTE connectivity and a microSD (TF) card for expandable storage.

1. Locate the SIM/microSD card tray on the side of the tablet.
2. Use the provided SIM ejector tool to open the tray.
3. Carefully place the Nano SIM card and/or microSD card into their respective slots on the tray, ensuring correct orientation.
4. Gently push the tray back into the tablet until it clicks into place.

4.4 Initial Android Setup

Upon first power-on, follow the on-screen instructions to complete the initial setup, including language selection, Wi-Fi connection, Google account login, and security settings.

4.5 Attaching the POGO PIN Keyboard

Align the POGO PIN connectors on the tablet with those on the keyboard. The magnetic connection will secure the keyboard to the tablet, transforming it into a laptop-like device.
