Nostalgia NSHVICE2PKBR6A

Nostalgia Shave Ice and Snow Cone Machine

Model: NSHVICE2PKBR6A

INTRODUCTION

This manual provides essential instructions for the safe and efficient operation of your Nostalgia Shave Ice and Snow Cone Machine. This appliance is designed to create refreshing shave ice, snow cones, slush drinks, and other frozen treats from ice cubes or ice pucks. Please read all instructions carefully before first use and retain this manual for future reference.

Important Safeguards

When using electrical appliances, basic safety precautions should always be followed, including:

- Read all instructions before operating this appliance.

- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plug, or any part of the unit in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not provided by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Do not use appliance for other than intended use.
- A short power-supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a long cord.

Setup

Before first use, unpack the unit and all accessories. Wash the reusable cup and ice mold in warm, soapy water, rinse, and dry thoroughly. Wipe the exterior of the main unit with a damp cloth. Ensure the unit is placed on a stable, level surface near an electrical outlet.

Components:

- Shave Ice Machine Base
- Ice Shaving Lid with Blades
- Reusable Cup
- Ice Mold (for creating ice pucks)

Operating Instructions

Follow these steps to create delicious shave ice or snow cones:

1. **Prepare Ice:** You can use standard ice cubes or use the included ice mold to create ice pucks. For best results, ensure ice is frozen solid.
2. **Add Ice:** Lift the shaving lid from the base. Place ice cubes or an ice puck into the ice chamber. Do not fill past the "MAX" fill line indicated inside the chamber.

Image: Adding ice cubes to the machine's ice chamber.

Image: Ensure ice does not exceed the 'MAX' fill line for optimal performance.

3. **Secure Lid:** Place the shaving lid back onto the base, ensuring it is securely locked in place. The machine will not operate if the lid is not properly secured.
4. **Position Cup:** Place the reusable cup or a snow cone cup into the cup holder beneath the ice chute.
5. **Shave Ice:** Plug the unit into a standard electrical outlet. Press down firmly on the top of the shaving lid to activate the blades and begin shaving ice. Continue pressing until the desired amount of shaved ice is dispensed into your cup.
6. **Serve:** Release pressure from the lid to stop shaving. Unplug the unit. Remove your cup of shaved ice and add your favorite snow cone syrup or toppings.

Tips for Best Results:

- For fluffier snow, use ice cubes directly from the freezer.
- If using the ice mold, ensure the ice puck is fully frozen.
- Experiment with different syrups and fruit toppings to create unique treats.

Maintenance and Cleaning

Regular cleaning ensures the longevity and hygienic operation of your Shave Ice Machine.

1. **Unplug:** Always ensure the unit is unplugged from the electrical outlet before cleaning.
2. **Disassemble:** Carefully remove the shaving lid and the reusable cup/ice mold.
3. **Wash Parts:** Wash the shaving lid (avoiding direct contact with blades), reusable cup, and ice mold in warm, soapy water. Rinse thoroughly and dry completely.
4. **Wipe Base:** Wipe the exterior of the main unit with a damp, non-abrasive cloth. Do not immerse the main unit in water or any other liquid.
5. **Storage:** Once all parts are dry, reassemble the unit or store it in a clean, dry place.

Caution: The stainless steel blades are sharp. Handle with extreme care during cleaning to prevent injury.

Troubleshooting

If your Shave Ice Machine is not operating correctly, please check the following:

- **Unit does not turn on:**
  - Ensure the unit is properly plugged into a working electrical outlet.
  - Verify the shaving lid is securely locked in place. The machine has a safety mechanism that prevents operation if the lid is not correctly positioned.

- **Ice is not shaving or is uneven:**
  - Ensure ice cubes or ice pucks are fully frozen. Partially melted ice may not shave properly.
  - Do not overfill the ice chamber. Ensure ice is below the "MAX" fill line.
  - Apply firm, even pressure on the shaving lid during operation.
- **Excessive noise during operation:**
  - This is normal during ice shaving. However, if the noise is unusual or excessive, ensure no foreign objects are in the ice chamber.

Specifications

Brand	Nostalgia
Model Name	NSHVICE2PKBR6A
Product Dimensions	5.56"D x 5.56"W x 12.81"H
Capacity	1 pint
Voltage	120 volts
Material Type	Plastic
Included Components	Reusable Cup
UPC	810140677884

Warranty and Support

This product is covered by a manufacturer's warranty against defects in material and workmanship. For specific warranty details, including duration and coverage, please refer to the warranty card included with your purchase or visit the official Nostalgia website. For technical support, troubleshooting assistance, or to order replacement parts, please contact Nostalgia customer service.
