

## Silverlit 81153

# Silverlit Hydro Mad Blaster Single Electronic Water Gun Instruction Manual

Model: 81153

## INTRODUCTION

---

This manual provides essential instructions for the safe and effective use of your Silverlit Hydro Mad Blaster Single electronic water gun. Please read all instructions carefully before use and retain this manual for future reference.

## SAFETY WARNINGS

---

- **WARNING:** Not suitable for children under 36 months due to small parts.
- Do not aim at eyes or face.
- Use only clean tap water.
- Adult supervision is recommended during play.

## SETUP INSTRUCTIONS

---

1. **Unpack the Water Gun:** Carefully remove the water gun and all its components from the packaging. Ensure all parts listed in the package contents are present.
2. **Insert the Rechargeable Battery:** Locate the battery compartment, typically on the handle or underside of the blaster. Open the compartment, insert the provided rechargeable battery, and close the compartment securely.
3. **Charge the Water Gun:** Connect the water gun to a power source using the provided charging cable. Allow the battery to fully charge before first use. Refer to the charging indicator (if present)

for charging status.

#### 4. Fill the Water Tanks:

Image: The water blaster shown alongside its detachable water bottle and cap, ready for filling.

- The water gun has an integrated water tank with a capacity of 100 ml.
- It also includes an additional water reservoir bottle with a capacity of 200 ml.
- To fill, unscrew the cap from the additional water reservoir bottle and fill it with clean tap water.
- Attach the filled 200 ml reservoir bottle to the designated port on the water gun. This will automatically fill the integrated 100 ml tank.

Image: The water blaster with the filled water bottle securely attached to the top, indicating it's ready for use.

## OPERATING INSTRUCTIONS

---

1. **Power On:** If your blaster has a power switch, turn it to the 'ON' position.
2. **Aim and Fire:** Hold the water gun firmly. Aim at your target. Press the trigger to activate the electronic pump and fire a stream of water. The blaster can shoot water up to 5 meters.

Image: The Silverlit Hydro Mad Blaster in action, emitting a powerful stream of water towards a target.

3. **Refill During Play:** When the water level is low, quickly detach the empty reservoir bottle, refill it, and reattach it to continue playing without significant interruption.
4. **Power Off:** After use, turn off the power switch (if applicable) and empty any remaining water from the tanks to prevent leakage and maintain hygiene.

## MAINTENANCE

---

- After each use, empty all water from the blaster and the reservoir bottle.
- Wipe the exterior of the water gun with a clean, damp cloth. Do not submerge the electronic components in water.
- Store the water gun in a dry, cool place away from direct sunlight when not in use.
- Ensure the charging port is clean and dry before charging.

## TROUBLESHOOTING

---

- **Water gun not firing:**

- Check if the battery is fully charged.
- Ensure the water tanks are filled.
- Verify the power switch (if present) is in the 'ON' position.

- **Weak water stream:**

- Ensure the water tanks are sufficiently filled.
- Check for any blockages in the nozzle.
- The battery might be low; try recharging it.

- **Leakage:**

- Ensure all caps and connections for the water tanks are securely tightened.
- Do not overfill the water tanks.

## SPECIFICATIONS

---
