Before beginning installation, please verify that all components are present in the package.

- XTRONS UA95MTVL Car Radio Unit
- Wiring Harnesses and Cables
- GPS Antenna
- USB Cables
- External Microphone
- User Manual (this document)
- Installation Accessories (if applicable)

Figure 3: XTRONS UA95MTVL unit dimensions.

- Product Dimensions: 5 cm (depth) x 18 cm (width) x 5 cm (height)
- Front Panel Dimensions: Approximately 220mm (width) x 130mm (height)
- Rear Chassis Dimensions: Approximately 178mm (width) x 98mm (height)

OPERATING INSTRUCTIONS

Power On/Off and Basic Navigation

To power on the unit, ensure it is correctly installed and your vehicle's ignition is on. The unit will typically power on automatically. Use the touchscreen for all navigation. The main interface provides access to various functions and applications.

Figure 4: Main User Interface.

Apple CarPlay and Android Auto

Connect your smartphone via USB to activate Apple CarPlay or Android Auto. This allows you to safely access your phone's navigation, music, messages, and other compatible applications directly from the car radio's display.

MAINTENANCE

To ensure the longevity and optimal performance of your XTRONS UA95MTVL car radio, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and unit exterior. For stubborn marks, slightly dampen the cloth with water. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for available software updates through the unit's settings or the official XTRONS website to ensure you have the latest features and bug fixes.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Cable Connections:** Ensure all cables are securely connected. Loose connections can lead to intermittent issues.

TROUBLESHOOTING

If you encounter issues with your XTRONS UA95MTVL, refer to the following common troubleshooting steps:

- **No Power:**
 - Check all power connections to ensure they are secure.
 - Verify the vehicle's fuse for the radio is not blown.

- Ensure the vehicle's ignition is on.

• **No Sound:**

- Check volume levels on the unit and any connected devices.
- Ensure speaker wires are correctly connected.
- Verify audio output settings in the unit's menu.

• **Touchscreen Unresponsive:**

- Restart the unit by turning off the vehicle's ignition and then restarting it.
- Ensure the screen is clean and free of debris.

• **GPS Signal Issues:**

- Ensure the GPS antenna is properly installed and has a clear view of the sky.
- Check GPS settings in the unit's menu.

• **CarPlay/Android Auto Not Connecting:**

- Use a high-quality USB cable.
- Ensure your smartphone is compatible and has the latest software updates.
- Check settings on both the car radio and your smartphone.

If the problem persists after attempting these steps, please contact XTRONS customer support or your installer.
