3. Setup & Installation

Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation.

3.1 Physical Installation

The car stereo is designed to fit the Fiat 500L dashboard from 2013-2019. Refer to the provided mounting brackets and screws for secure installation.

Image: Diagram showing the dimensions of the 7-inch display unit and a detailed view of the rear interface with labeled ports for power, RCA, USB, camera input, radio antenna, and GPS antenna.

3.2 Wiring Connections

Connect the included cables to their respective ports on the car stereo and the vehicle's wiring harness. The CANBUS decoder should be connected as per your vehicle's specific requirements to ensure proper communication with the car's systems.

3.2.1 Rear Camera Connection

Connect the rear camera cable as follows:

- **Red Cable (1):** Connects to the positive terminal of the car's reverse light cable.
- **Black Cable (2):** Connects to the negative terminal of the car's reverse light cable.

Note: The reverse input cable must be plugged in even if the reverse camera is not being used. Otherwise, it may affect Bluetooth and WiFi signal reception.

Image: Step-by-step wiring diagram illustrating how to connect the backup camera to the car stereo, including connections to the reverse light and the main unit.

3.2.2 Steering Wheel Control (SWC)

To enable steering wheel controls:

1. Connect the plugs/SWC wires (KEY1/KEY2) to the corresponding port or wire of your original car.
2. Go to the car stereo's interface, click on**[APPS]** and then **[SWC]**.
3. Release the steering wheel button, select the function to learn, then press and hold the corresponding button on your steering wheel until the system registers it. Repeat for all desired functions.

4. Operating Instructions

4.1 Wireless CarPlay / Android Auto & Mirror Link

Connect your smartphone wirelessly via Bluetooth for CarPlay or Android Auto. This allows access to voice assistant, navigation, calls, and messages. Mirror Link functionality is also available via WiFi for screen mirroring.

4.2 5G WiFi Connectivity

The integrated 5G WiFi module provides faster internet connections for navigation, app downloads, and online content streaming without delays.

Image: Display showing the car stereo's interface with a navigation map and various app icons, highlighting the benefits of 5G WiFi for faster data transfer compared to 2.4G WiFi.

4.3 GPS Navigation

The unit includes an integrated GPS module with support for online and offline maps, voice guidance, and real-time traffic information.

4.4 FM / RDS Radio & Bluetooth 5.0

Enjoy clear FM/RDS radio reception for music, news, and traffic updates. Bluetooth 5.0 enables wireless music streaming, hands-free calls, and file transfer.

Image: Four-panel display showing the Equalizer (EQ) settings, Bluetooth 5.0 connection interface, FM/RDS radio tuner, and subwoofer control options.

4.5 Split Screen Functionality

The split screen feature allows you to run two applications simultaneously, such as navigation and music playback.

Image: Display showing the customizable homepage with app icons and a split-screen view demonstrating simultaneous use of navigation and radio applications.

4.6 Homepage Customization

Personalize your home page by rearranging icons and selecting your preferred applications for quick access.

Item Weight	1.16 Kilograms

Image: Detailed view of the IPS touch screen, highlighting its 1024*600 resolution, superior brightness, wide color gamut (72% NTSC, 16.7M colors), and features like high-temperature protection, accurate color reproduction, scratch resistance, and anti-shock properties.

6. Maintenance

6.1 Cleaning the Screen

Use a soft, lint-free cloth to gently wipe the screen. For stubborn smudges, slightly dampen the cloth with water or a screen-cleaning solution. Avoid abrasive cleaners or solvents.

6.2 General Care

- Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.
- Do not attempt to disassemble the unit. Refer to qualified personnel for repairs.
- Keep the unit free from dust and debris.

7. Troubleshooting

7.1 No Power

- Check all power connections to ensure they are secure.
- Verify the vehicle's fuse for the car stereo is intact.
- Ensure the car's battery has sufficient charge.

7.2 No Sound

- Check speaker connections.
- Ensure the volume is not muted or set too low.
- Verify audio settings in the system menu.

7.3 GPS Signal Issues

- Ensure the GPS antenna is properly connected and placed in a location with a clear view of the sky.
- Update GPS maps if necessary.

7.4 Bluetooth/WiFi Connectivity Problems

- Ensure the Bluetooth/WiFi functions are enabled on both the car stereo and your device.
- Try restarting both devices.
- Check for interference from other electronic devices.

8. Warranty & Support

8.1 Product Warranty

This product comes with a**2-year warranty** from the date of purchase. The warranty covers manufacturing defects and malfunctions under normal use. It does not cover damage caused by improper installation, misuse, accidents, or unauthorized modifications.

8.2 Technical Support

For technical assistance, troubleshooting, or warranty claims, please contact Hikity customer support through the retailer where the product was purchased. Please have your model number (Hikity-A4289H6MI2-EU79) and proof of purchase ready.
