MRGLAS MR-ZPG-1

MRGLAS Magnetic Mini Tripod Selfie Stick User Manual

Model: MR-ZPG-1 | Brand: MRGLAS

1. Introduction

Thank you for choosing the MRGLAS Magnetic Mini Tripod Selfie Stick. This versatile 4-in-1 device functions as a magnetic phone holder, a universal clamp, an extendable selfie stick, and a stable tripod. Designed for portability and ease of use, it is compatible with MagSafe-enabled iPhones and other smartphones via the included clamp and magnetic ring. This manual provides detailed instructions to help you get the most out of your product.

The MRGLAS Magnetic Mini Tripod Selfie Stick, showcasing its compact design.

2. What's in the Box

Please check the package contents to ensure all items are present:

- 1 x Selfie Stick
- 1 x Magnetic Clip
- 1 x Bluetooth Remote Control
- 1 x Magnetic Ring
- 1 x TYPE-C Cable
- 1 x Lanyard

3. Setup Instructions

3.1 Attaching Your Phone

The MRGLAS selfie stick offers two methods for attaching your smartphone:

1. **For MagSafe Compatible Phones (iPhone 12 series and newer):** Simply align your MagSafe-enabled iPhone or MagSafe case with the magnetic head of the selfie stick. The strong N52 magnets will securely snap your phone into place.
2. **For Non-MagSafe Phones (Android, older iPhones, non-MagSafe cases):**
    - **Using the Detachable Clamp:** Attach the universal clamp to the magnetic head. Extend the clamp and place your smartphone (up to 7 inches screen size) securely within it.
    - **Using the Magnetic Ring:** For a magnetic connection on non-MagSafe phones, adhere the included metal magnetic ring to the back of your phone or phone case. Ensure it is centered for optimal magnetic hold. Once attached, your phone can then magnetically connect to the selfie stick.

The 2-in-1 magnetic and clamp head for wide phone compatibility.

3.2 Pairing the Bluetooth Remote Control

The detachable Bluetooth remote control allows for hands-free operation:

1. Locate the small, detachable remote control on the handle of the selfie stick.
2. Press and hold the button on the remote until the indicator light starts flashing, indicating it is in pairing mode.
3. On your smartphone, go to Bluetooth settings and search for available devices.

4. Select "MRGLAS Remote" (or similar name) from the list to pair. The indicator light on the remote will stop flashing and remain solid once connected.
5. The remote is now ready to use for taking photos or starting/stopping videos.

attachment.

4. Operating Instructions

4.1 Handgrip Mode

For stable handheld shots, keep the stick folded. The ergonomic design provides a comfortable grip, similar to a camera handle, enhancing stability for photos and videos.

Using the selfie stick in handgrip mode for comfortable and stable shots.

4.2 Selfie Stick Mode

To use as a selfie stick, simply pull the aluminum rod upwards to extend it. The stick can extend up to 17 inches, allowing for wider angles and group shots. Hold the handle firmly and use the Bluetooth remote to capture your moments.

Extended selfie stick mode for broader perspectives.

4.3 Tripod Stand Mode

To convert to a tripod, gently pull the three legs outwards from the base of the handle. Ensure the legs are fully extended and stable on a flat surface. The umbrella-style design with anti-slip feet provides a sturdy base for hands-free recording or photography.

4.4 Adjusting Angles

The phone holder features 360° rotation and 180° tilt, allowing you to switch between portrait and landscape orientations and achieve various shooting angles, including overhead or low-angle shots. Loosen the adjustment knob, position your phone as desired, and then tighten the knob to secure it.

Multi-angle adjustment for flexible shooting.

5. Maintenance

- Keep the device clean by wiping it with a soft, dry cloth.
- Avoid exposing the device to extreme temperatures, moisture, or direct sunlight for prolonged periods.
- Do not use harsh chemicals or abrasive cleaners.
- Store the selfie stick in its folded, compact state when not in use to protect its components.

6. Troubleshooting

- **Remote Control Not Connecting:**
  - Ensure the remote control has sufficient battery power.
  - Make sure Bluetooth is enabled on your smartphone.
  - Try unpairing and re-pairing the remote control in your phone's Bluetooth settings.
  - Ensure the remote is within the 33 ft (10m) operating range.
- **Phone Not Holding Securely (Magnetic):**
  - Verify your iPhone is MagSafe compatible or that your case is MagSafe-enabled.
  - If using a non-MagSafe phone, ensure the included metal magnetic ring is properly adhered and centered on your phone or case.
  - Check for any obstructions between the phone and the magnetic head.
- **Tripod Instability:**
  - Ensure all three tripod legs are fully extended and placed on a flat, stable surface.
  - Avoid extending the selfie stick to its maximum height when using it as a tripod on uneven surfaces or in windy conditions.
  - For overhead shots, ensure the base is weighted or held to maintain balance, as demonstrated in the setup video.

7. Specifications

Feature	Detail
