- **Dual-Size Storage:** The dresser includes two shallow top drawers for smaller items like jewelry, accessories, or documents, and four deep bottom drawers suitable for clothing, blankets, and bulkier items.
- **Smooth Operation:** Each drawer is equipped with premium metal slides, ensuring smooth and quiet opening and closing. Avoid forcing drawers if they feel stiff; check for obstructions.

MAINTENANCE AND CARE

Proper care will extend the life and appearance of your dresser.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Spills:** Clean spills immediately with a dry cloth to prevent moisture absorption.
- **Heat and Moisture:** Avoid placing hot items directly on the surface. Use coasters or protective pads. Keep the dresser away from direct sunlight and excessive moisture to prevent warping or discoloration.
- **Moving:** When moving the dresser, always lift it rather than dragging it to prevent damage to the legs and frame.

TROUBLESHOOTING

If you encounter issues during or after assembly, please refer to these common solutions.

- **Drawer Alignment Issues:** If drawers do not align or close smoothly, re-check the assembly steps for the drawer slides and the drawer box. Ensure all screws are tightened appropriately, but not excessively, and that components are installed in the correct orientation.
- **Missing or Damaged Parts:** If any parts are missing or damaged upon arrival, do not proceed with assembly. Contact customer support immediately for assistance.
- **Wobbling:** Ensure all cam locks and screws are fully tightened. Verify that the dresser is placed on a level surface. If wobbling persists, re-check the assembly of the main frame.
