Maintenance

Regular maintenance ensures the longevity and optimal performance of your NARRAK N3 Electric Tricycle.

Battery Care:

- Charge the battery fully before the first use and after each ride.
- Store the battery in a cool, dry place when not in use.
- Avoid completely draining the battery to prolong its lifespan.
- The removable design allows for convenient indoor charging.

Tire Maintenance:

- Regularly check tire pressure and inflate to the recommended PSI.
- Inspect tires for wear, punctures, or damage before each ride.
- The 18" x 3.0" fat tires are designed for various terrains; ensure they are in good condition for optimal grip.

General Care:

- Keep the tricycle clean by wiping it with a damp cloth. Avoid high-pressure washing directly on electrical components.
- Lubricate the chain regularly to ensure smooth operation.
- Periodically check all bolts and fasteners for tightness.
- The high-carbon steel frame is durable but should be inspected for any signs of damage.

Troubleshooting

If you encounter any issues with your NARRAK N3 Electric Tricycle, please refer to the following basic troubleshooting tips. For more complex problems, contact our support team.

Problem	Possible Cause	Solution
Tricycle does not power on.	Battery not charged or not properly inserted.	Ensure battery is fully charged and securely seated. Check connections.
Motor not assisting.	Pedal assist level too low or throttle not engaged.	Increase pedal assist level on the LCD display or engage the throttle.
Brakes feel loose.	Brake cables need adjustment.	Adjust brake cable tension. If unsure, contact support.
