

WeurGhy T10

WeurGhy T10 Smartwatch User Manual

Model: T10

INTRODUCTION

Thank you for choosing the WeurGhy T10 Smartwatch. This manual provides detailed instructions on how to set up, operate, and maintain your device. Please read this manual carefully before use to ensure optimal performance and longevity of your smartwatch.

WHAT'S IN THE BOX

Upon unpacking, please verify that all the following items are included:

- WeurGhy T10 Smartwatch (x1)
- Watch Strap (x1)
- Magnetic Charging Cable (x1)
- User Manual (x1)

SETUP

1. Charging the Smartwatch

Before initial use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. A full charge takes approximately 1.5 hours. A 10-minute express charge can provide 6-8 hours of use.

2. App Installation and Pairing

To unlock the full potential of your smartwatch, download the companion app (often referred to as "GloryFit" based on product images) from your smartphone's app store (iOS or Android). Follow these steps:

1. Scan the QR code in the manual or search for "GloryFit" in the App Store (iOS) or Google Play Store (Android).
2. Install the app on your smartphone.
3. Open the app and create an account or log in.
4. Ensure Bluetooth is enabled on your smartphone.

5. In the app, navigate to "Device" or "Add Device" and select your WeurGhy T10 Smartwatch from the list of available devices.
6. Confirm the pairing request on both your phone and the smartwatch.

Once paired, the smartwatch will synchronize data with your phone and receive notifications.

3. Customizing the Watch Face

Your smartwatch features a 1.85-inch HD touch screen and offers over 200 free watch faces via the app. You can also use your own photos to personalize the background.

- Open the companion app on your smartphone.
- Navigate to the "Dial Market" or "Watch Face" section.
- Browse the available watch faces or select an option to upload a custom photo.
- Select your desired watch face and synchronize it with your smartwatch.

OPERATING INSTRUCTIONS

1. Bluetooth Calls and Smart Notifications

The WeurGhy T10 Smartwatch supports Bluetooth 5.4 for stable and fast connections, allowing you to make and answer calls directly from your wrist using its built-in microphone and speaker. It also displays notifications from messages, SMS, and social media apps.

- **Making Calls:** Access the dial pad or contacts list on your smartwatch to initiate a call.
- **Answering Calls:** When a call comes in, you can answer or reject it directly from the watch screen.
- **Notifications:** Ensure app notifications are enabled in your smartphone's settings and the companion app to receive alerts on your watch.

2. Health Monitoring (24/7)

The smartwatch is equipped with high-precision sensors to monitor your health in real-time:

- **Heart Rate:** Continuously tracks your heart rate throughout the day.
- **Blood Oxygen (SpO2):** Measures your blood oxygen saturation levels.
- **Stress Level:** Monitors and provides insights into your stress levels.
- **Sleep Analysis:** Automatically tracks your sleep patterns, including deep, light, and REM sleep phases, to help improve sleep quality.

View detailed health reports and trends in the companion app.

3. Sports Modes and Activity Tracking

With over 112 sports modes, this activity tracker accurately records steps, distance, and calories burned for various activities like running, cycling, fitness, and yoga.

- **Selecting a Sport Mode:** Swipe on the watch screen to find the "Sports" icon, then select your desired activity.
- **Tracking Movement Trajectory:** The watch can record your movement trajectory (when connected to your phone's GPS) and provide professional references to adjust your exercise plan.

4. Other Functions

The smartwatch includes several other useful features:

- **Music Control:** Control music playback on your smartphone directly from your watch.
- **Weather Forecast:** Get real-time weather updates.
- **Alarm Clock:** Set alarms for reminders.
- **Find Phone:** Locate your paired smartphone if it's within Bluetooth range.
- **Voice Assistant:** Access your phone's voice assistant.

MAINTENANCE

1. Cleaning Your Smartwatch

- Regularly clean your smartwatch and strap to prevent skin irritation and maintain device functionality.
- Wipe the screen and body with a soft, damp, lint-free cloth.

- For the silicone strap, you can use mild soap and water, then rinse thoroughly and dry completely before reattaching to the watch.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the device.

2. Water Resistance (IP68)

The WeurGhy T10 Smartwatch has an IP68 water resistance rating, meaning it is resistant to sweat, rain, and splashes from hand washing. It is suitable for daily use and workouts.

- Do not use the watch for swimming, diving, or showering with hot water, as steam and high water pressure can compromise the seal.
- If the watch gets wet, wipe it dry before charging or using the buttons.

TROUBLESHOOTING

Problem	Solution
Watch does not turn on.	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
Cannot pair with smartphone.	• Ensure Bluetooth is enabled on your phone. • Make sure the watch is within range of your phone. • Restart both the watch and your phone. • Check if the app is updated to the latest version. • Forget the device in your phone's Bluetooth settings and try pairing again through the app.
Notifications are not received.	• Ensure the watch is connected to your phone via Bluetooth. • Check notification permissions for the companion app in your phone's settings. • Verify that app notifications are enabled within the companion app itself.
Inaccurate health/activity data.	• Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. • Keep the sensor area clean and free from obstructions. • Calibrate the watch with the app if such an option is available.
Short battery life.	• Frequent use of Bluetooth calls, continuous heart rate monitoring, and screen brightness can reduce battery life. • Reduce screen brightness and turn off unnecessary features to extend battery life.
