Aoxun G37030-1008BK

Aoxun 10x8 FT Outdoor Storage Shed with Floor - Instruction Manual

Model: G37030-1008BK

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Aoxun 10x8 FT Outdoor Storage Shed with Floor. This metal shed is designed for outdoor storage, featuring lockable doors and a sloping roof for garden tools, backyard items, patio equipment, and poolside accessories. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Safety Information

Always prioritize safety during assembly and use. Failure to follow these safety guidelines may result in injury or damage to the product.

- Wear appropriate personal protective equipment, including gloves and eye protection, during assembly.
- Ensure the assembly area is clear of obstructions and children or pets.
- Assemble the shed on a flat, level, and solid surface to ensure structural integrity and proper door alignment.
- Use caution when handling metal panels, as edges may be sharp.
- Do not attempt to assemble the shed alone. A team of 2-3 people is recommended.
- Secure the shed to the ground using appropriate anchoring methods to prevent wind damage.
- Do not store flammable materials or hazardous chemicals inside the shed.
- Regularly inspect the shed for any signs of wear, damage, or loose fasteners.

Setup

1. Preparation

- **Unpack Components:** Carefully unpack all components and verify against the parts list in your included manual. All components are labeled for quick identification.
- **Site Selection:** Choose a flat, level, and solid surface for shed installation. An uneven surface can lead to misaligned parts and doors.
- **Tools Required:** An electric screwdriver is highly recommended. No tools are included.

2. Assembly Process

Assembly typically takes 3-5 hours with a team of 2-3 people. Follow the illustrated step-by-step manual provided with your product. An online video guide is also available for assistance.

- **Floor Foundation:** The shed includes a high-density polypropylene floor with a snap-lock interlocking system. Ensure the floor is correctly assembled and level before proceeding.
- **Panel Assembly:** Attach panels using the pre-drilled holes and numbered hardware. Ensure all screws are tightened securely.
- **Roof Installation:** Install the roof panels, ensuring the sloping design is correctly oriented for water runoff.
- **Door Installation:** Install the double doors, ensuring they open and close smoothly and the locking mechanism functions correctly.

Operating

- **Access:** The shed features double doors for convenient access to stored items.
- **Security:** The doors are equipped with a stainless steel hasp lock, allowing for the use of a padlock (not included) to secure your belongings.
- **Ventilation:** Integrated top vents promote airflow, reducing condensation and keeping the interior fresh.
- **Weather Protection:** The sloping roof design prevents rainwater accumulation, enhancing water runoff and protecting contents from the elements.

Maintenance

- **Cleaning:** The galvanized steel material is designed for easy cleaning. Use a mild detergent and water to clean exterior surfaces. Avoid abrasive cleaners.
- **Rust and UV Protection:** The shed features a galvanized steel frame with a powder-coated finish for superior rust resistance and UV protection. Periodically inspect for any scratches or damage to the coating and touch up if necessary to maintain protection.
- **Leak Prevention:** While designed to be weather-resistant, inspect the shed periodically for any signs of water ingress, especially after heavy rain. If leaks occur, apply silicone sealant to gaps or seams as needed.
- **Fastener Check:** Annually check all screws and fasteners to ensure they remain tight. Re-tighten any loose hardware to maintain structural integrity.

Troubleshooting

Problem	Possible Cause	Solution
Dented Panels	Shipping damage or mishandling during assembly.	Minor dents can often be corrected by hand or with pliers. For significant damage, contact customer support.
Misaligned Parts/Doors	Uneven assembly surface; incorrect panel orientation.	Ensure the shed is built on a perfectly flat and level surface. Recheck panel orientations and adjust as needed.
Missing or Incorrect Hardware	Packaging error.	Verify all parts against the manual's list. Contact customer support for replacement parts.

Problem	Possible Cause	Solution
Water Leaks	Gaps in seams or around fasteners; extreme weather conditions.	Apply silicone sealant to any visible gaps or around screw holes. Ensure all roof panels are properly overlapped.
Shed Instability	Uneven ground; insufficient anchoring.	Ensure the base is squared and solid. Anchor the shed securely to the ground according to local building codes.

Specifications

Feature	Detail
Brand	Aoxun
Model Number	G37030-1008BK
Color	Black
Material	Galvanized Steel (Frame), Metal (Panels), High-density Polypropylene (Floor)
