Nania Giulia

Nania Giulia 3-in-1 Stroller and i-Size Car Seat User Manual

Model: Giulia

Introduction

Thank you for choosing the Nania Giulia 3-in-1 Stroller and i-Size Car Seat system. This versatile travel system is designed to provide comfort and safety for your child from birth up to 22 kg. This manual provides essential information for the correct assembly, operation, maintenance, and troubleshooting of your Nania Giulia system. Please read it thoroughly before use and keep it for future reference.

Product Overview

The Nania Giulia 3-in-1 system includes the following components:

- Stroller Frame (Black Metal)
- Convertible Seat Unit (transforms from carrycot to stroller seat)
- i-Size Car Seat (40-85 cm)
- Car Seat Adapters
- Changing Bag
- Rain Cover
- Mosquito Net

Image: Included accessories: car seat adapters, rain cover, mosquito net, and changing bag.

Safety Information

Always prioritize your child's safety. Adhere to the following guidelines:

- Never leave your child unattended in the stroller or car seat.
- Ensure all locking devices are engaged before use.
- Always use the five-point harness correctly adjusted to your child.
- Do not overload the storage basket; refer to specifications for maximum weight.
- Avoid placing heavy items on the handle, as this can cause instability.
- Regularly inspect the product for loose parts, damage, or wear. Discontinue use if any damage is found.
- The car seat is designed for children from 40 to 85 cm. Always install it rear-facing in the vehicle according to its separate instruction manual.

Setup

1. Stroller Frame Assembly

1. Unfold the stroller frame until it locks securely into place.
2. Attach the wheels. Ensure they click firmly into position.

2. Attaching the Convertible Seat Unit (Carrycot/Stroller Seat)

1. Align the connectors on the seat unit with the attachment points on the stroller frame.
2. Press down firmly until you hear a click, indicating it is securely attached.
3. To convert the carrycot into a stroller seat, adjust the straps and buckles located underneath the unit as per the visual indicators.

3. Attaching the i-Size Car Seat

1. First, attach the provided car seat adapters to the stroller frame. Ensure they are securely locked.

2. Place the i-Size car seat onto the adapters, aligning the attachment points.
3. Press down until you hear a click, confirming the car seat is securely fastened. Always double-check stability before use.

Operating Instructions

1. Adjusting the Seat/Carrycot

- **Recline Position:** The seat unit offers multiple recline positions. Locate the recline mechanism (usually a lever or button on the back of the seat) and adjust to the desired angle. Ensure it locks into place.
- **Reversible Seat:** The seat unit can be attached facing forward or rearward. To reverse, detach the seat unit from the frame, turn it around, and reattach securely.

2. Folding and Unfolding the Stroller

- **Folding:** Ensure the seat is in its most compact position (often fully upright or facing forward). Locate the folding mechanisms (typically on the handle or sides of the frame). Follow the specific instructions for your model to collapse the frame. It should lock automatically when folded.
- **Unfolding:** Release the folding lock, then lift the handle until the frame fully extends and locks into its open position.

3. Using the Harness

The 5-point harness ensures your child's safety. Adjust the shoulder straps to the appropriate height for your child's

shoulders. Fasten the buckle securely, ensuring all straps are snug but not too tight.

4. Using Accessories

- **Rain Cover:** Place the transparent rain cover over the seat unit or carrycot, ensuring it covers all openings to protect your child from rain.
- **Mosquito Net:** Drape the mosquito net over the seat unit or carrycot to shield your child from insects.
- **Changing Bag:** The changing bag can be hung from the stroller handle or carried separately.

Maintenance

Proper maintenance ensures the longevity and safety of your Nania Giulia system.

- **Cleaning Fabric Parts:** The fabric parts should be cleaned with a damp cloth and mild soap. Allow to air dry completely. **Do not machine wash the structure.**
- **Cleaning Frame:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners.
- **Wheels:** Periodically check wheels for debris and clean as necessary.
- **Storage:** Store the stroller in a dry place, away from direct sunlight and extreme temperatures.
- **Inspection:** Regularly check all moving parts, fasteners, and safety mechanisms for proper function and wear.

Troubleshooting

Problem	Possible Cause	Solution
Stroller does not fold/unfold smoothly.	Locking mechanisms engaged; debris in joints.	Ensure all locks are disengaged. Clean any visible debris from folding joints.
Wheels squeak or are difficult to maneuver.	Dirt/debris in wheel axles; lack of lubrication.	Clean wheels and axles. Apply a silicone-based lubricant if necessary.
Car seat or seat unit not attaching securely.	Incorrect alignment; obstruction.	Ensure correct orientation and alignment. Check for any obstructions in the attachment points. Apply firm pressure until a click is heard.
Harness is difficult to adjust.	Straps twisted or jammed.	Untwist straps and ensure they move freely through the adjusters.
