ASSA ABLOY

ASSA ABLOY NTT612-ACC Accentra nexTouch Keypad Access Exit Trim Lock

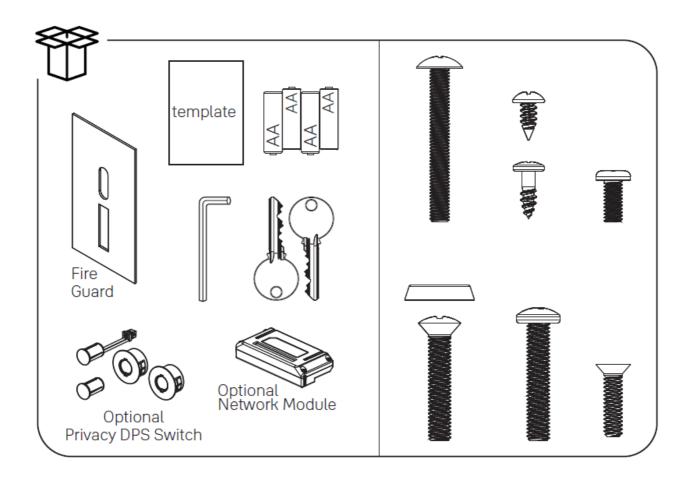

WARNING

This product can expose you to lead which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65warnings.ca.gov.

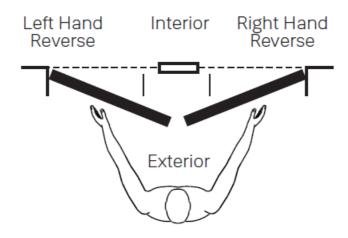

Before YOU Begin

Tools Needed

Outswinging Door

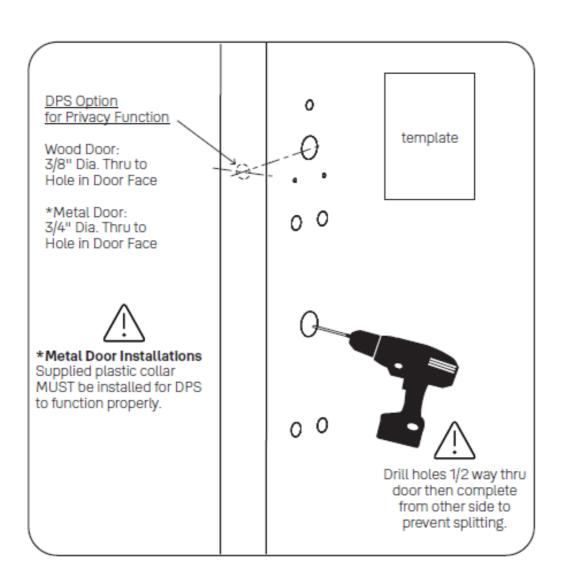

Face a door swinging open toward you .If it swings open to the right, it is a right hand reverse door. If it swings opens to the left, it is a left hand reverse door.

Door Position Switch Option

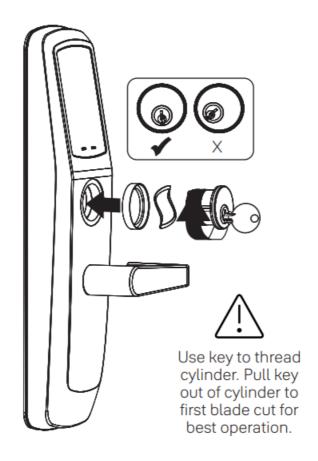

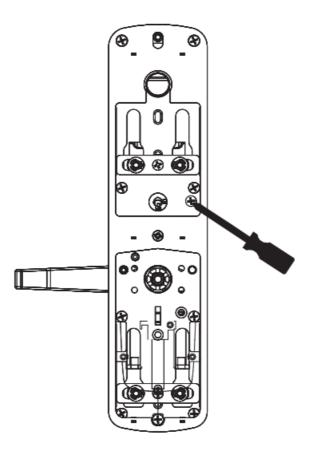

Prepare Door

Install Cylinder

•

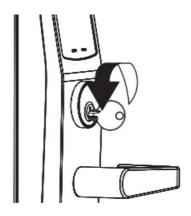

Tighten counter-clockwise to secure lock.

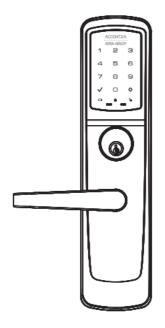

• If using cylinder other than 1-1/8", a new collar must be used that is sized appropriately for cylinder length.

Test Cylinder

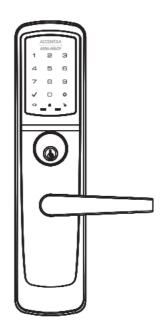

Test cylinder by turning key counter-clockwise to unlock trim. If there is any binding then cylinder is not at correct depth and needs to be threaded further into escutcheon.

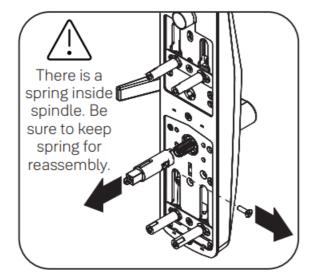

Change Hand of Trim (if necessary)

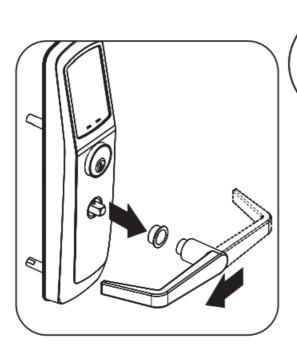

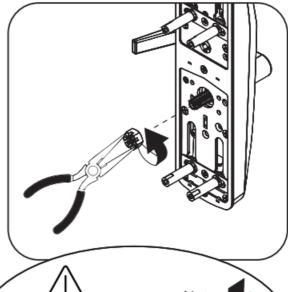

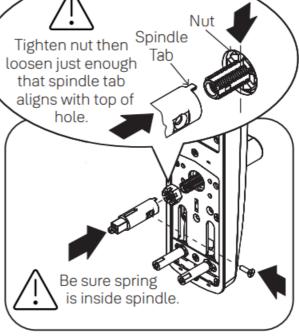

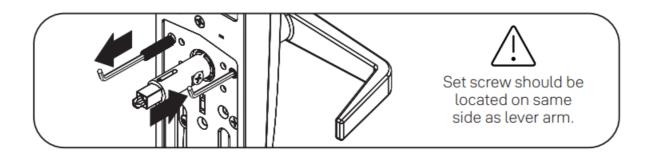

Right Hand Reverse

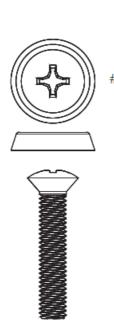

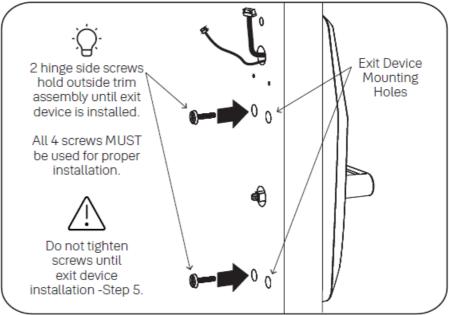

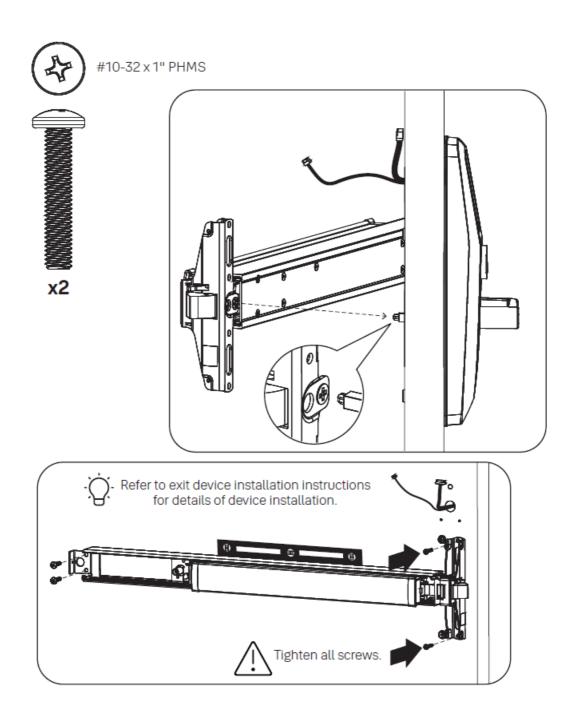

Install Outside Trim Assembly

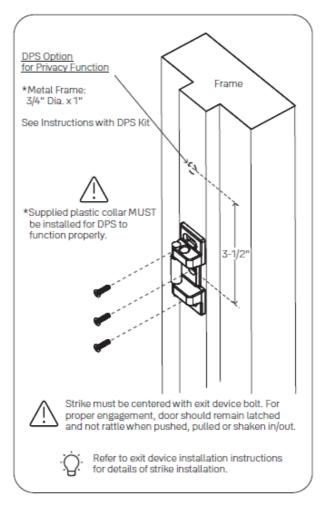

Install Exit Device

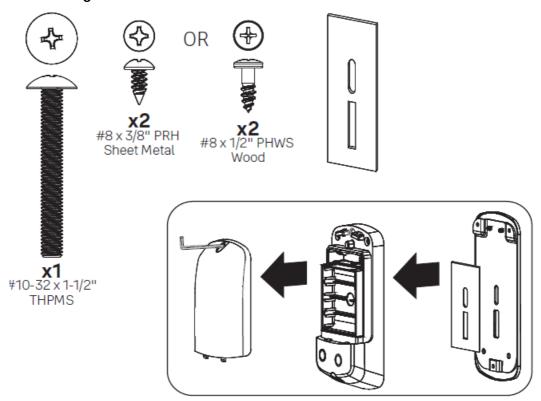

Test Mechanical Lock Function by Key, Lever and Keypad

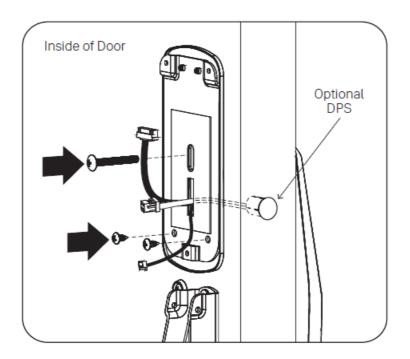

Install Strike and Optional DPS

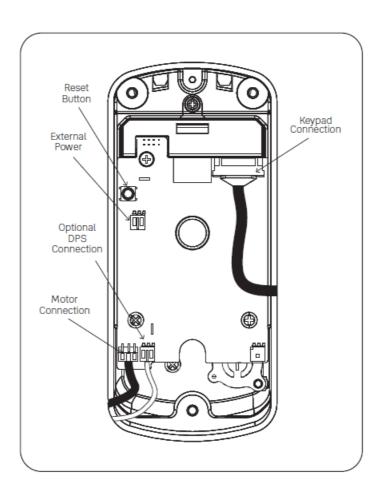

Install Inside Mounting Plate

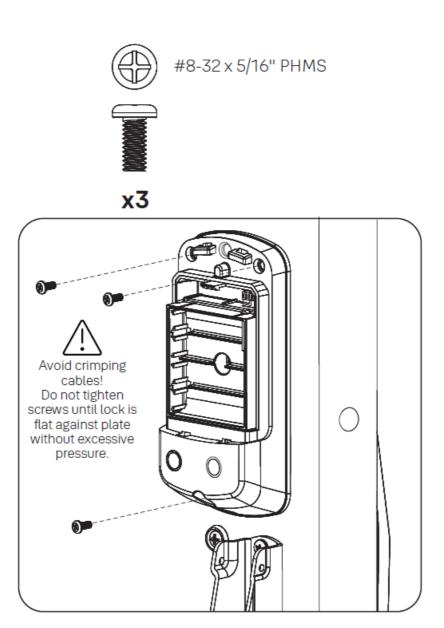

Attach Cables to Inside Lock

Install Inside Lock

FCC:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications (including the antennas) to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications, However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Modifications not expressly approved by the manufacturer could void your authority to operate the equipment under FCC rules.

Industry Canada:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

FCC and IC RF Radiation Exposure Statement:

This equipment complies with FCC and IC RF Radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be collocated or operating in conjunction with any other antenna or transmitter.
