Create an asTech account

Register your asTech account via the email you received from noreply@astech.com with the subject line “You’ve been added to an asTech account”.

Note: To request another registration email go to www.astech.com/registration.

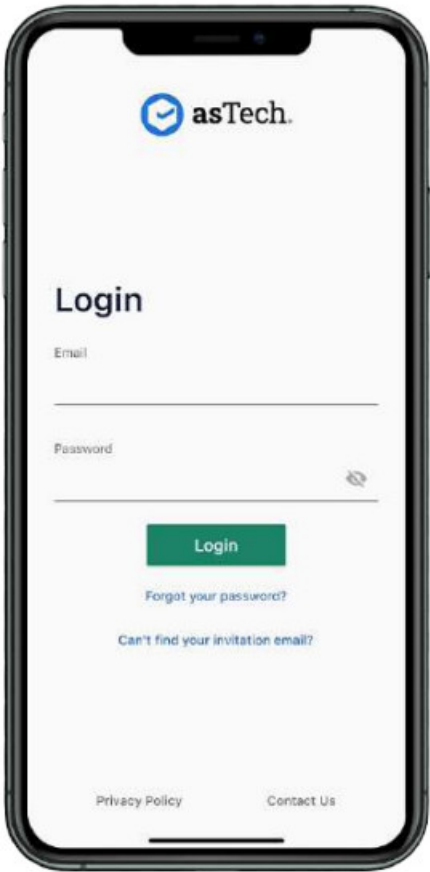

Download the new asTech App

Ensure your device is connected to the internet. Then go to the App Store. Search “asTech App” to find and install the app.

Plug your asTech device into a vehicle

Launch the asTech App

On the device, tap the asTech icon to launch the app.. On the login screen, type your username and password created for your asTech account.
That’s it! You are ready to scan a vehicle.
