atolla C101 USB-C Hub with Card Reader

## OVERVIEW

This USB-C Multiport Adapter adds more connectivity to your USB-C laptop, with an ultra-high-speed SD I MicroSD card reader and three USB 3.0 ports. It's the ideal accessory for your MacBook Pro or other USB Type-C equipped laptop, and it's also Thunderbolt™ 3 port compatible. This versatile multiport adapter is compact and lightweight, so it's easy to tuck into your laptop bag. It consolidates multiple ports into a single adapter, which means you don't need to bring along multiple single-function adapters.

## PRODUCT VIEW

### 1. USB 3.0 Port

3 USB 3.0 ports for your existing peripheral devices connect neatly to your USB-C computer or laptop, delivering fast, effortless connection while charging and transferring data.

### 2. Built-In Card Reader

Access the SD and microSD slots at the same time, and easily move data from one card to the other. It's ideal for transferring photos or videos from your

## WHAT'S IN THE BOX
