Packing List

- Zigbee smart gateway x 1
- DC5V power supply x 1 (Optional matching)
- Network cable x 1
- Instruction manual x 1
- Power cable x 1

Please read the instruction manual carefully before using the product

Product Description

The smart gateway is the control center of the ZigBee device. Users can design and implement smart application scenarios by adding ZigBee devices.

Preparation For Use

1. **Mobile phone is connected to Wi-Fi**

Ensure that the smart phone is within the same Wi-Fi network of the Smart Gateway to ensure an effective connection between the smart phone and the Smart Gateway.

2. Download and open the App

In the App Store, search for the relevant App or scan the QR code on the package/manual to download.

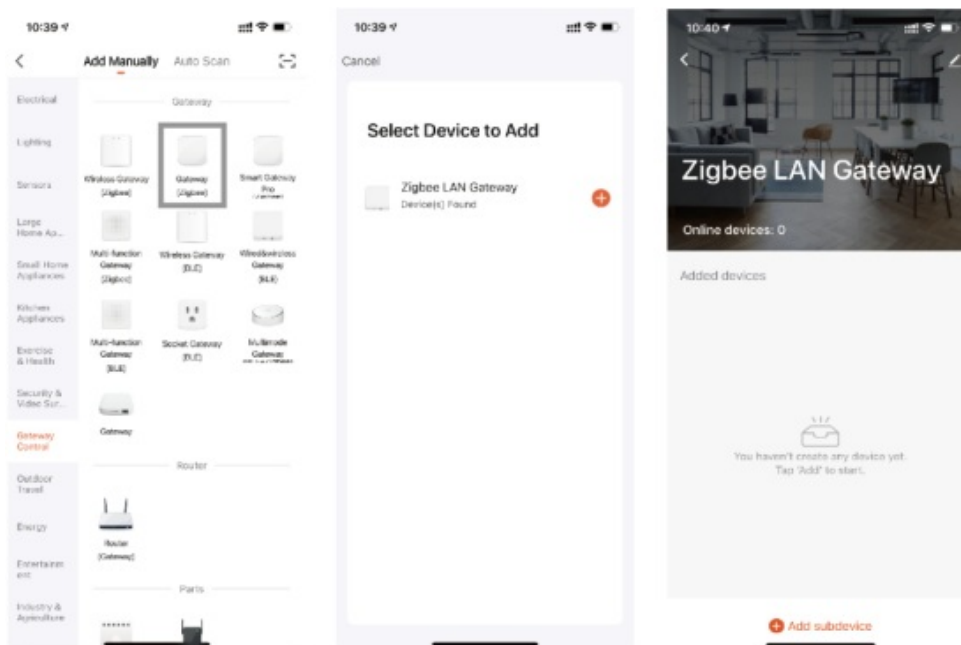

If you are downloading the App for the first time, please tap “Register” to register your account. If you already have an account, please click the “Login” button.

Network Settings

- Connect the gateway to the power supply and connect it to the home 2.4GHz band router through the cable, please connect power to gateway first, if power LED is on, then connect network cable. please confirm both Led(Green) are on, then go to next step;
- Make sure that the mobile phone is connected to the home 2.4GHz band router. At this time, the mobile phone and the gateway are in the same local area network;
- Open the “My Home” page of the App and click the “+” button on the upper right corner of the screen;
- “Gateway(Zigbee) will appear on the Gateway Control” Page, click it for adding device”
- Then follow the App’s instructions to finish adding device;

Add Device

- Once the device has been added successfully, you will be able to find the device on the “My Home” page.
