AUDIO ENHANCEMENT CA-70 Sentinel System

Product Information

The Sentinel System is a comprehensive audio enhancement system designed to improve the learning experience in classrooms. It includes various features such as line inputs, equalizer, ALD line output, speaker connection, PA mute, microphone controls, and more.

The system requires a 24 Volt DC power input for operation.

For more information about the Sentinel System and how it can enhance learning, visit **www.AudioEnhancement.com** or call 800.383.9362.
