IMPORTANT SAFETY INSTRUCTIONS

1. Read these instructions.
2. Save these instructions.
3. Respect all warnings
4. Follow all instructions.
5. Do not use the product near water.
6. Clean only with a dry cloth.
7. Operating temperature (ÿC) 5–40
Humidity (%) no condensation 30–90
8. Do not block ventilation openings. Follow the manufacturer's instructions when installing the product.
9. Minimum distance around the appliance for sufficient ventilation,
10 cm.
10. Ventilation must not be obstructed by covering
the ventilation openings with objects such as newspapers, tablecloths, curtains, etc.
11. Do not install the product near any heat sources such as radiators, heat registers, stoves, or other heat-producing equipment (e.g. amplifiers).
12. Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the product.
13. Use only those attachments and accessories that are
the manufacturer recommends.
14. Unplug the product from the mains during thunderstorms or when
the product is not used for a long period of time.
15. All servicing should be carried out by specially trained service personnel. nal. Servicing is required when the product has been damaged.
Examples include damage to the power cord or plug, liquid has been
spilled or objects have fallen into the product, the product has been exposed
to rain or moisture, does not operate normally, or has been dropped.
16. Damage requiring service:
Unplug the product from the wall outlet and refer servicing to qualified service personnel under any of the following conditions:
A. If the power cord or plug is damaged,
B. If liquid has been spilled or foreign objects have fallen into the product,
C. If the product is exposed to rain or water,
D. If the product does not operate normally when used in accordance with
the instructions. Adjust only those controls that are covered by the instructions. Improper adjustment of other controls may result in damage, often requiring extensive work by a trained service person to restore the equipment to normal operation.
E. If the product has been dropped or damaged in any way, and
F. If the product exhibits a distinct change in performance, this indicates a need for service.
17. Introduction of objects and liquid:
Never push objects of any kind into the product through openings as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock.

The product must not be exposed to dripping or splashing.

No objects filled with liquids, such as flower vases, may be placed on the apparatus. No naked flames, such as lighted candles, etc. may ever be placed on the apparatus.

18. Ensure that there is sufficient ventilation if you install the product in enclosed spaces, such as bookshelves or racks. Leave a distance of 20 cm above and on both sides of the product and 10 cm behind it. The rear edge of the shelf or board closest to the product should be pulled forward so that there is a gap of approximately 10 cm to the rear. This creates an exhaust-like channel where heated air can flow upwards.
19. The power adapter and power cord for this product are intended for indoor use only.
20. Use only the supplied power cord/adapter.

NETWORK:

Your network must have a broadband connection

- Internet connection, as the Audio Pro sound system is designed for free software updates.
- Audio Pro speakers communicate over 2.4GHz / 5GHz in networks that support 802.11 a/b/g/n/ac wireless technology.

ROUTER

- High-speed ADSL/cable modem, or broadband fiber is necessary for proper playback from internet-based music services.
- Different routers have different performance. It is best to use a premium router for good performance.
