audio pro C20 WiFi Wireless Multiroom Speaker

Specifications:

- Product Name: Audio Pro C20 WiFi Wireless Multiroom Speaker
- Features: AirPlay2, Google Cast, Spotify Connect, Bluetooth, HiFi
- Colors Available: Black, Grey, White
- Power Output: 190W
- Compatibility: AirPlay 2, Google Cast, Spotify Connect, Tidal Connect, Bluetooth 5

Product Usage Instructions

Setting Up the Speaker:

1. Place the speaker in the desired location.
2. Connect the power cable to a power source.
3. Download the Audio Pro app on your mobile device.
4. Follow the app instructions to connect the speaker to your Wi-Fi network.

Playing Music from Different Sources:

You can play music on the C20 speaker from various sources such as:

- Streaming services like Spotify, Tidal, etc.
- Directly from your turntable using the built-in RIAA amplifier.
- Other Audio Pro speakers connected to a multiroom system.

Connecting to TV:

You can connect your TV to the C20 speaker using ARC for easy control with your TV remote. Follow these steps:

1. Connect your TV to the speaker using an HDMI cable with ARC support.
2. Select the ARC input on the speaker.
3. You can now control the speaker volume using your TV remote.

Frequently Asked Questions (FAQ):

- Q: Can I stream music from my turntable directly to the C20 speaker?

A: Yes, you can play music from your turntable directly into the speaker using the built-in RIAA amplifier.

- Q: Is the C20 speaker compatible with streaming services?

A: Yes, the speaker is compatible with various streaming services like Spotify, Tidal, and more via Google Cast and AirPlay 2.

- Q: How can I create a multiroom system with the C20 speaker?

A: You can create a multiroom system by connecting multiple C20 speakers via AirPlay 2, Google Cast, or Audio Pro's own multiroom system.

DESCRIPTION

AUDIO PRO C20 WiFi Wireless Multiroom Speaker – AirPlay2 – Google Cast – Spotify Connect – Bluetooth – HiFi
Colours: Black, Grey, White

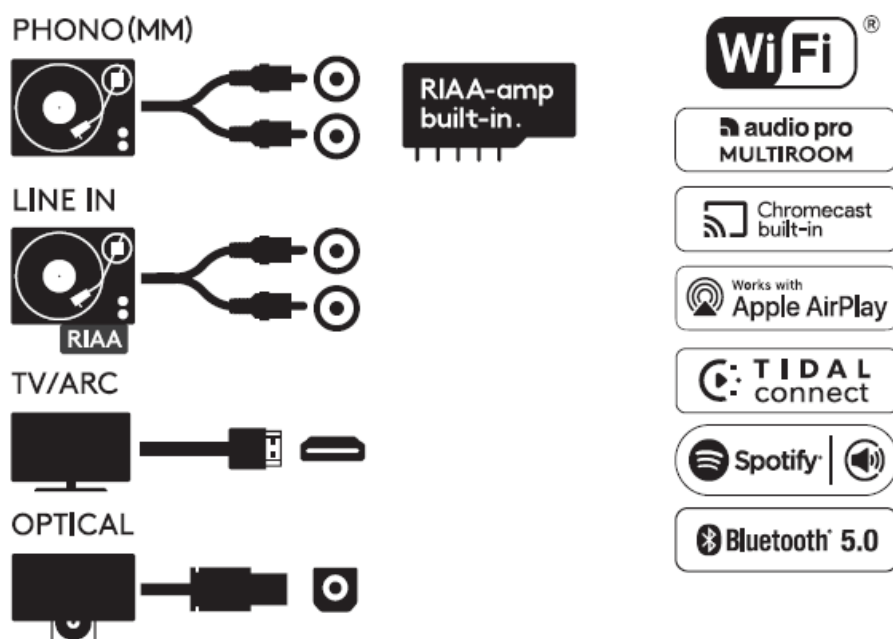

FULL DESCRIPTION

C20

- This active stereo speaker is the obvious choice when you need a speaker to work equally well when watching movies on your TV as listening to music. You do not need to have two different systems to meet these two needs – the C20 will take care of both tasks for you, in one single compact solution.
- 190 W of power makes you experience the movie sound effects and sense your favorite music throughout your whole body. The speaker delivers a rich and full-bodied HiFi experience, with powerful and heavy bass to get the party started.
- The C20 can be part of a multiroom system by joining other speakers via AirPlay 2, Google Cast or Audio Pro's multiroom system. The speaker is compatible with all audio apps, Spotify Connect, and Tidal Connect, and has Bluetooth 5 built-in. Connect your TV with ARC for easy control from the TV remote.
- This speaker has a RIAA amplifier built in. Meaning you can play music from your turntable directly into the speaker, without the need for a separate amplifier. You are also able to restream music to other Audio Pro speakers you have connected to a multiroom system.
- The wooden cabinet painted in either soft satin white, stylish grey or classic black blends in naturally with your home. The fabric front is fixed by magnets and can be easily removed for a more modern look if this is your preferred design. You have the option of two very different looks.
- Streaming services available: Amazon Music, Deezer, iHeart Radio, Napster, Qobuz, QQ Music, Spotify, Tidal, TuneIn, VTuner, and many more via Google Cast and AirPlay 2.

TOP 4 FEATURES:

- Great sound quality for both music and movies.
- One solution to meet both needs with excellent performance in both areas.
- Compatible with AirPlay 2, Google Cast, Spotify Connect, Tidal Connect and Audio Pro Multiroom system.

- With the built in RIAA amplifier you are able to play music from your turntable directly into the speaker.
- Excellent TV compatibility and user-friendliness with ARC. tunes in different rooms, you decide.

FULL DESCRIPTION
