ANDROID DISPLAY INSTALLATION FOR CONCERT SYMPHONY

A: POWER CABLE CONNECTION

Remove the CD Player

Plug the CD Connector with that of new system

B: CENTER SPEAKER CONNECTION

(Center Speaker Optional)

C: A/C CONNECTOR CANBUS CONNECTION

Pry open A/C Frame

Unplug the original A/C Sensor

Plug the connector with that of the car

D: FRAME INSTALLATION

dismantle the frame

dismantle the frame

Fix the new plastic mount support and connect the emergency light connector

Plug the two connectors to the new display and mount it

After installation

E: ANDRIOD MEDIA SOUND

verbinden Sie den AUX Stecker mit Ihrem AUX IN Anschluss oder AUX Stecker mit AMI Adapter und mit dem Auto AMI Anschluss Connect the 3.5mm Aux Output to your car Aux port or to the AMI Adaptor and then to Car AMI Port which is placed in the Hand Glove Compartment

In Original Radio Menu Media -> Quelle wählen Sie AUX oder AMI Quelle aus
In Original Radio Menu, Media ->Source select Aux or AMI

In the original menu pay attention to which point your sound source is (in the example above left Aux=3, right AMI=1, depending on what you use (Aux or AMI) remember it.

F: AUX POSITION

Press Auto Setup as shown in the picture above. In the menu press and hold "Function selection" for 10 seconds (keep pressed, do not open!) it switches as in the picture below still a menu "Parameter Configuration of Original Car" on the menu press it.

Select the corresponding number in the AUX Number of rows in the media Source: In the example above, AUX will be 3 and for AMI it will be 1

Einstellungen / Settings

Tap on SETUP in Main Menu

2) Kamera Einstellungen / Camera Settings

Select Camera in Setup Menu, here you can set

- Original or Retrofit Backup Camera
- Rear Camera Parking Lines
- Backup Cam Picture Mirroring
- Rear Camera type
- Camera Switch Time lapse

Navigation Settings

Select General in Setup Menu, select navigation app settings and select your favorite app for navigation that you want to use

General Settings

Select System in Setup Menu and then Android settings > here you can change settings like language, Time & Date, Network and much more

By default, the system is set up to have a data connection and receives the time from the network. If you use the system without an Internet connection, it is advisable to change the time and date settings, otherwise the time will be reset each time the device is restarted. Select System in Setup Menu then choose Android settings.

Select **System** and then **Date and Time**

Deactivate **Automatic Date and Time** and **Automatic Time zone**

Select **time zone** and set your region then you can **set time and date** manually

- 2) CONNECT YOUR SMARTPHONE VIA USB
- 3) CARPLAY / ANDROIDAUTO WILL START AUTOMATICLY

Wireless Carplay for IOS

1. Open ZLINK APP
2. Turn On Phone Wifi
3. Turn On phone Bluetooth and connect with Android Display
4. Please be Sure that you are NOT connected with Factory System

ACHTUNG
WIRELESS ANDROID AUTO IST ERST AB ANDROID 11
