FCC NOTE

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, sees, and can radiate radio frequencies, and if installed according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

FAQ

How do I know if the headphone is fully charged?

The LED indicator will turn from red (charging) to blue when the battery is fully charged.

How far is the operating distance of the headphone?

The operating distance is 10m without obstructions like buildings or magnetic fields.

What devices are compatible with the headphone?

The headphone supports devices such as cellphones with Bluetooth function, iPhones, notebooks, iPads, etc.

How long does it take to charge the headphone for the first use?

It is recommended to charge the headphone continuously for at least 4 hours before first usage.
