AUTEL AutoLink AL549 Cars Code Reader And Battery Starting and Charging Tester

Thank you for purchasing this Autel tool. This tool is manufactured to a high standard and will provide years of trouble-free performance when used by these instructions and properly maintained.

## Getting Started

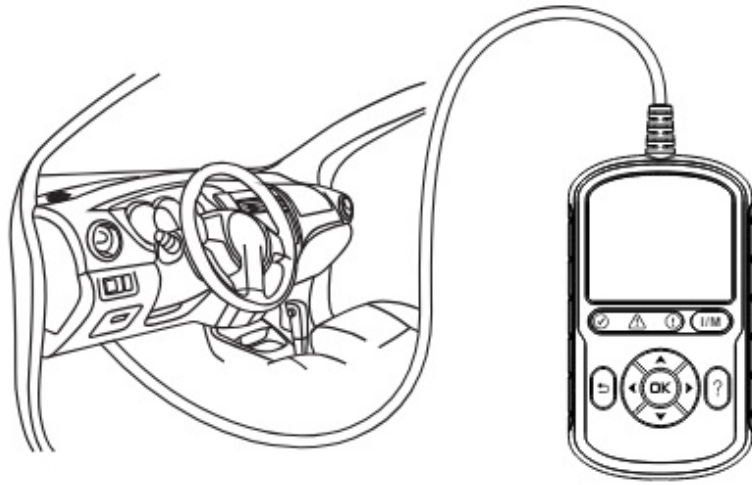

### IMPORTANT

Before operating or maintaining this unit, please read these instructions carefully. Failure to use this unit correctly may cause damage and/or personal injury and will void the product warranty.

- Scan the QR code to visit our website at [pro.autel.com](http://pro.autel.com).

- To update the AL549, please create an Autel ID and register the product with its serial number and password.
- The serial number and password can be found by selecting Setup > About on the tool screen.
- Connect the OBDII cable's 16-pin male adapter to the vehicle's Data Link Connector (DLC), which is generally located under the vehicle dashboard.

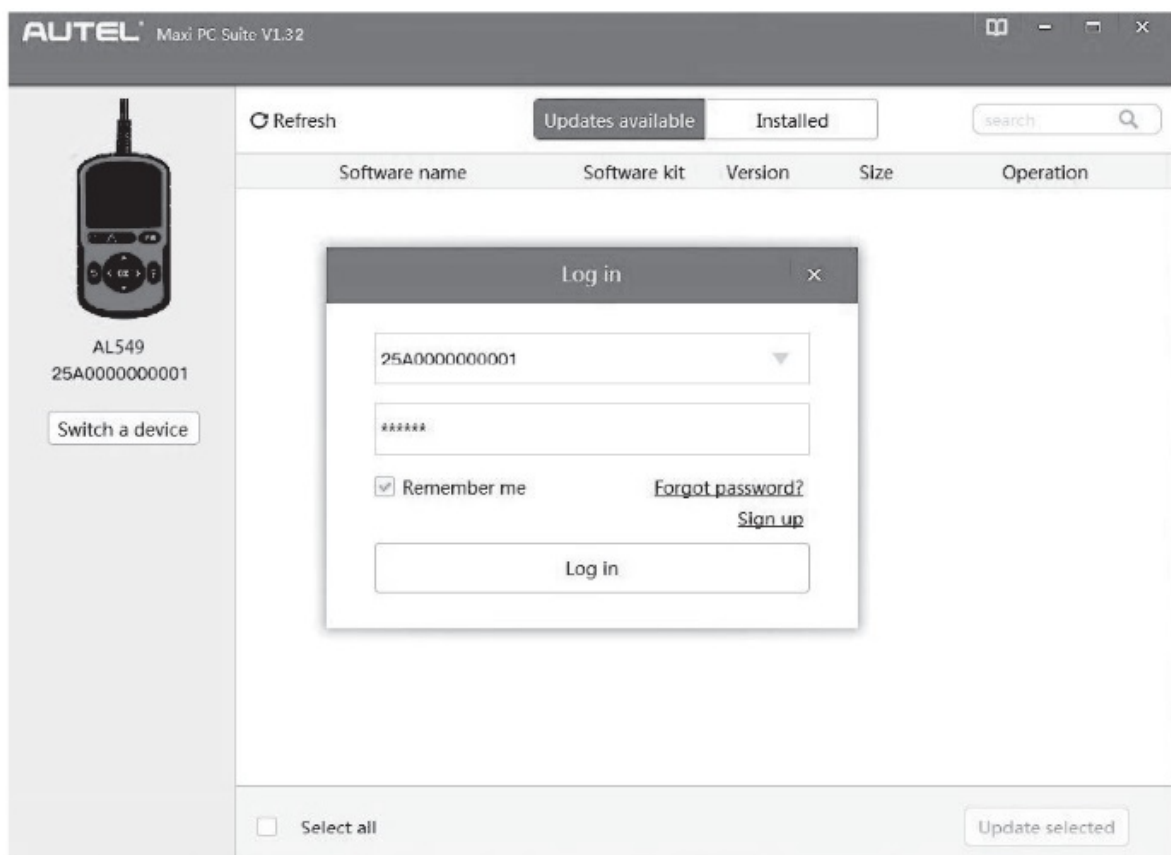

- The tool will be automatically powered on.
- Your AL549 is now ready for use.

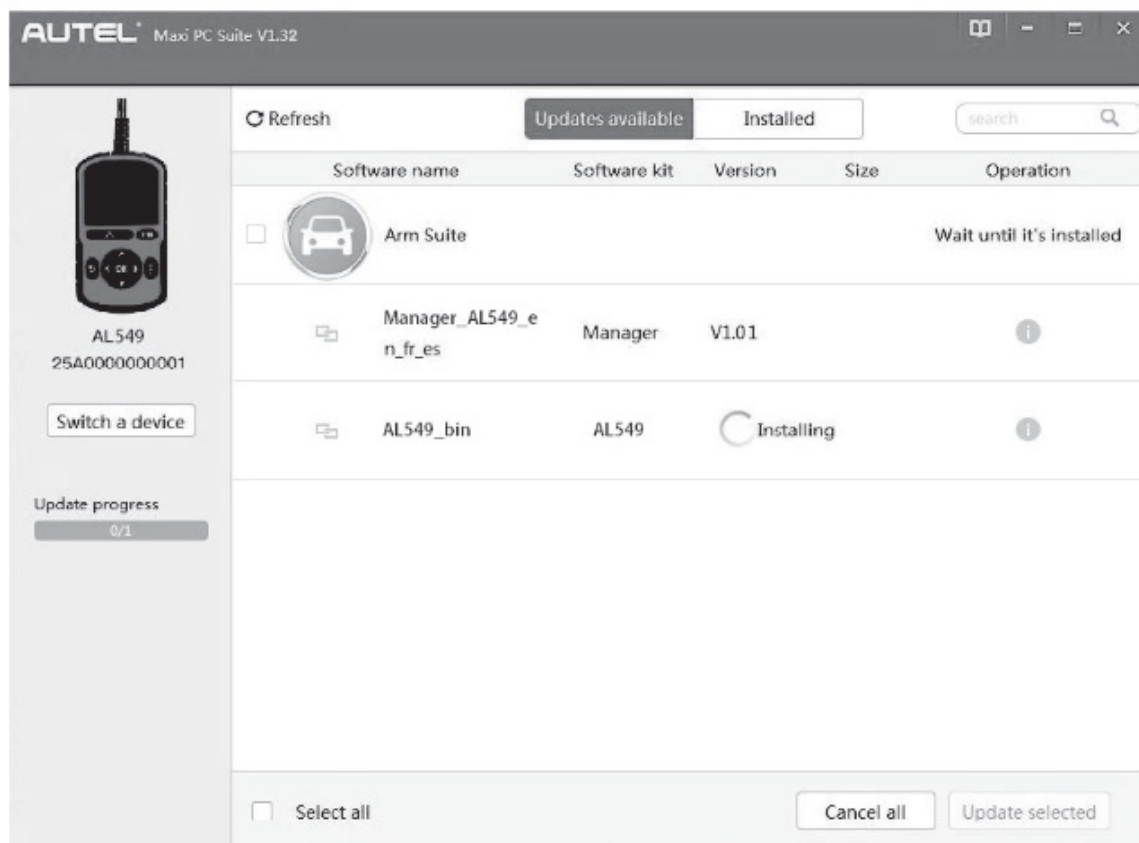

## Software Update and Delete

Please download the Maxi PC Suite from: [www.autel.com](http://www.autel.com) > Support > Downloads > Autel Update Tools, and install it on your Windows-based computer.

- Connect the device with the computer using a Type-C USB cable.

- Run the Maxi PC Suite. Select Update Mode in the tool. Wait for the login window to display.
- Enter your Autel ID and password and wait for the Update window to appear. If you forgot your password, click Forgot Password to retrieve it.
- If you do not already have an Autel ID, you can click Sign up to create a new account.
- Select the product type and serial number, and click OK to continue.
- In the Update window, select the items you want to install.

- Click on the Installed tag and the page will show the list of programs installed. Select the items you want to delete.

## NOTE

The interfaces in this quick guide are for reference only.
