	Blue LED ON	Power ON
	Green LED ON	Fingerprint verification success
	Red LED ON	Fingerprint verification fail / Erase fingerprint / Reset key
● ● 🔷	Blue LED flashes	Need to verify fingerprint
● ● 🔷	Cyan LED flashes	Need to touch
○ ○ ○	White LED flashes	Standalone enrollment (flashes from slow to fast)
● ● 🟢	Green LED flashes	Verify fingerprint to start 'Standalone Enrollment' (If there is any registered fingerprint)

	Blue LED ON	Power ON
	Green LED ON	Fingerprint verification success
	Red LED ON	Need to verify fingerprint
● ● 🔷	Blue LED flashes	Fingerprint verification fail

Set up your ATKey and enroll fingerprints first
There are serval available tools that can be used for set up security keys.

Key Setup
– Windows built-in Security Key Manager

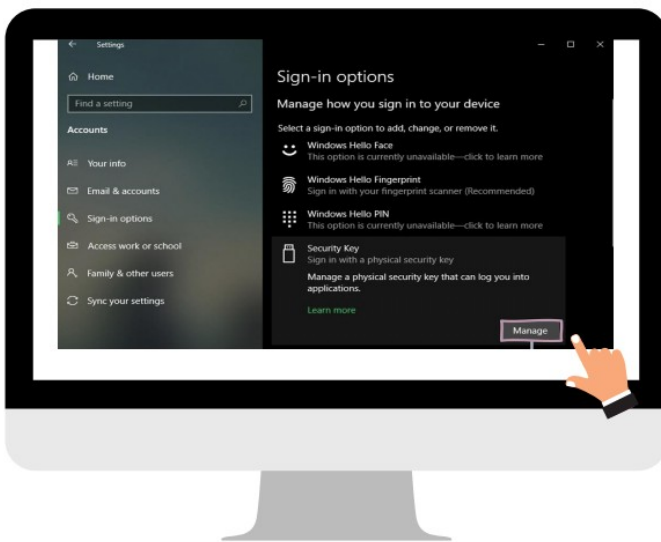

Open Windows Settings

"Settings" > "Accounts" > "Sign-in options" > "Security Key"
Availability: In Windows 1903 and above.

Set the PIN of ATKey

Add "Security key PIN" first, the PIN will write into ATKey.Pro.

Add Your Fingerprint

Set up "Security Key Fingerprint", type-in PIN code and follow the hints to enroll fingerprint until "All Set!"
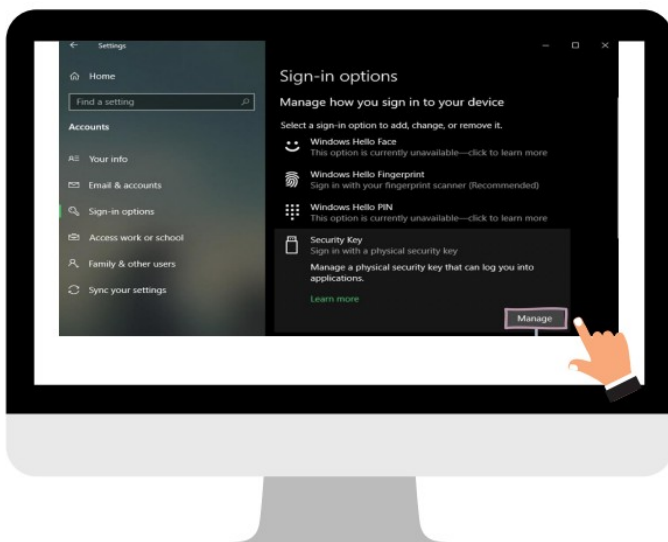

Key Setup

– Chrome built-in Security Key Manager

Open Chrome Settings

"Settings" > "Privacy and security" > "Manage security keys" > chrome://settings/securityKeys
Availability: In the latest Chrome browser in ChromeOS, macOS and Linux core system.
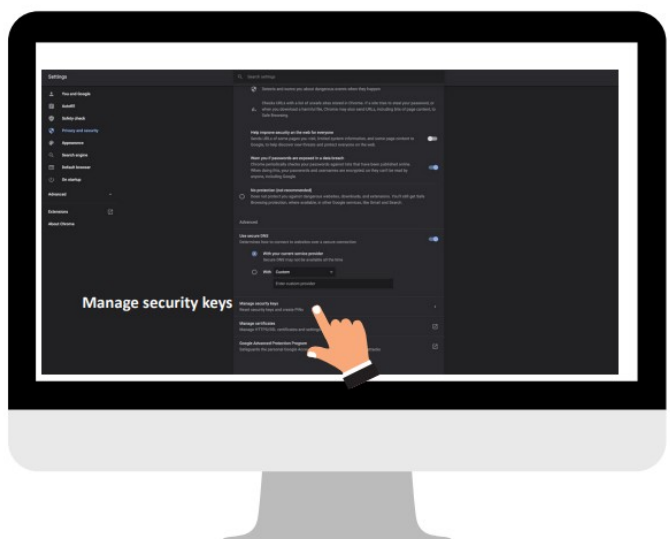

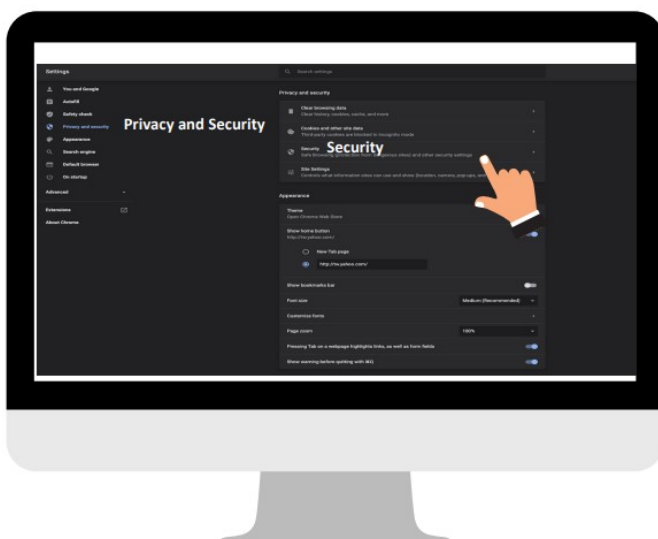

Set The PIN and Fingerprints of ATKey

You can manage PIN, fingerprints, and credentials inside the key.
Create a PIN first and start to add your fingerprints.
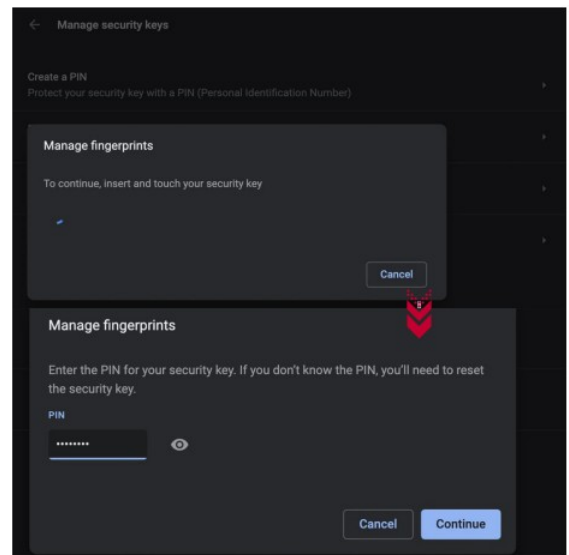

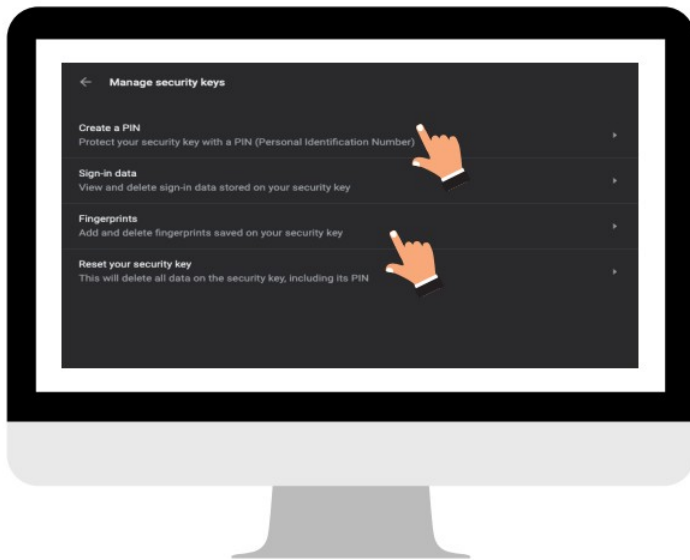

Add Your Fingerprint

After finish adding, you can assign the name of your enrolled fingerprint.
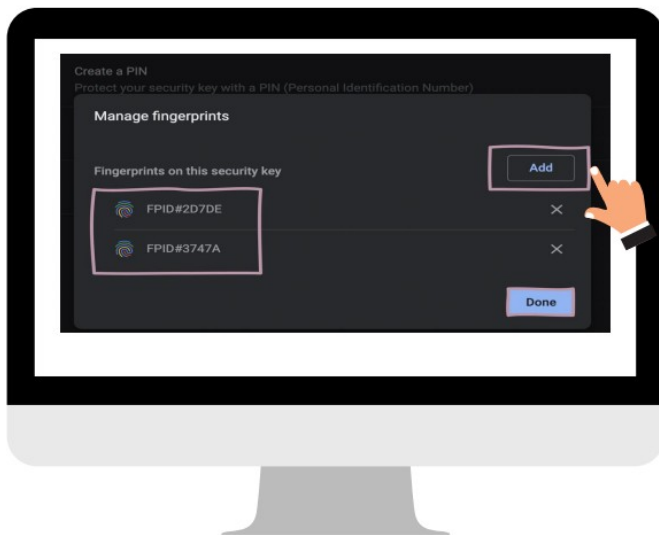

Key Setup

– Standalone Enrollment

Enroll Fingerprints through Standalone Enrollment
With no need for any device or application download.

- Availability: Power supply from any USB port (Highly recommended to use a power bank)
- Please enroll a fingerprint at the same/similar finger position

- Insert ATKey.Pro into the USB port.
- ▭ LED Cyan ON.
- Press the side button 3 times quickly to get into Standalone enroll mode.

✓ LED White flash: please touch your fingerprint, after touch, LED turns to – means this enrollment is good, LED turns to – means this enrollment not good.

✓ So touch fingerprint at every White Flash, it may need 12 times good enrollments, until LED stays on -, then the enrollment is done.
