**Autolock METU-30S Rechargeable Handheld Airbrush Set**

**Launch Date:** February 25, 2021

**Price:** \$62.99

## Introduction

Professionals and hobbyists alike can use the Autolock Cordless Airbrush Kit with Air Compressor because it is flexible and easy to carry. Its sleek, ergonomic design and portable feature make it perfect for many uses, such as makeup, cake decorating, nail art, body painting, and making models. This airbrush has two-action control and air pressure that can be changed up to 25 PSI. It gives you precision and control for perfect results. The portable battery lets you use it for up to two hours on a single charge, which is great for when you're on the go. It is made of a strong metal alloy and plastic, so it will last a long time. It also runs quietly, which is nice. The improved air compressor in the Autolock airbrush kit charges faster and has lights that let you know when the battery needs to be charged. Its small and lightweight make it more portable, making it easy to take with you when you travel. The new dual-action trigger system makes it easier to use and lets you control the flow of both air and liquid without any problems. Whether you're a baker, artist, or beauty worker, the Autolock airbrush kit makes your projects better quickly and easily.

## Specifications

- **Brand:** Autolock
- **Recommended Uses:** Air Brushing (ideal for makeup, cake decoration, nail art, body painting, and more)
- **Special Features:**
  - Portable

- Automatic Shut-Off for convenience and safety
- **Material:** Durable Plastic
- **Color:** Black

#### **Technical Details:**

- **Voltage:** 5 Volts
- **Power Source:** Battery Powered
- **Maximum Power:** 0.2 Horsepower
- **Noise Level:** 65 dB (quiet operation)
- **Air Flow Capacity:** 7.2 LPM
- **Motor Horsepower:** 0.2 Horsepower

#### **Battery and Charging:**

- **Battery:** Rechargeable with Type-C charging cable
- **Charging Time:** 1.5–2 hours for a full charge
- **Working Time:** Up to 2 hours on a full charge
- **Fast Charging Supported:** Yes (recommended charger: DC 5V-2A)

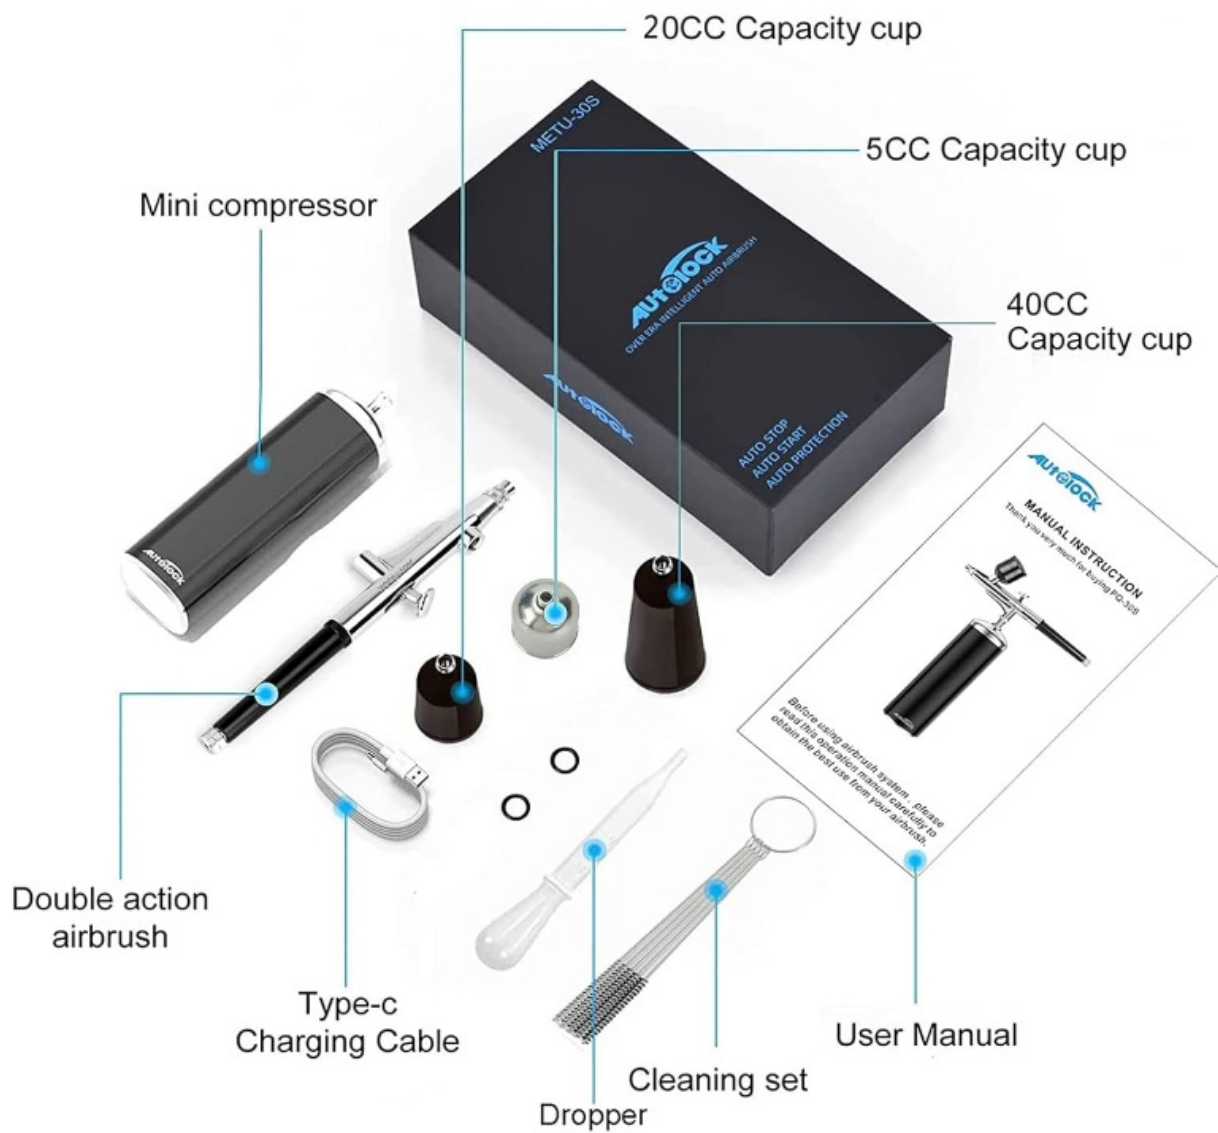

#### **Dimensions and Weight:**

- **Product Dimensions:** 3.94"L x 3.94"W x 3.94"H
- **Item Weight:** 15.83 ounces

#### **Additional Details:**

- **Style:** Portable, ergonomic, and compact for travel and storage.
- **Country of Origin:** China
- **UPC:** 077964095632 / 779640956328
- **Model Number:** PQ001

#### **Package Includes**

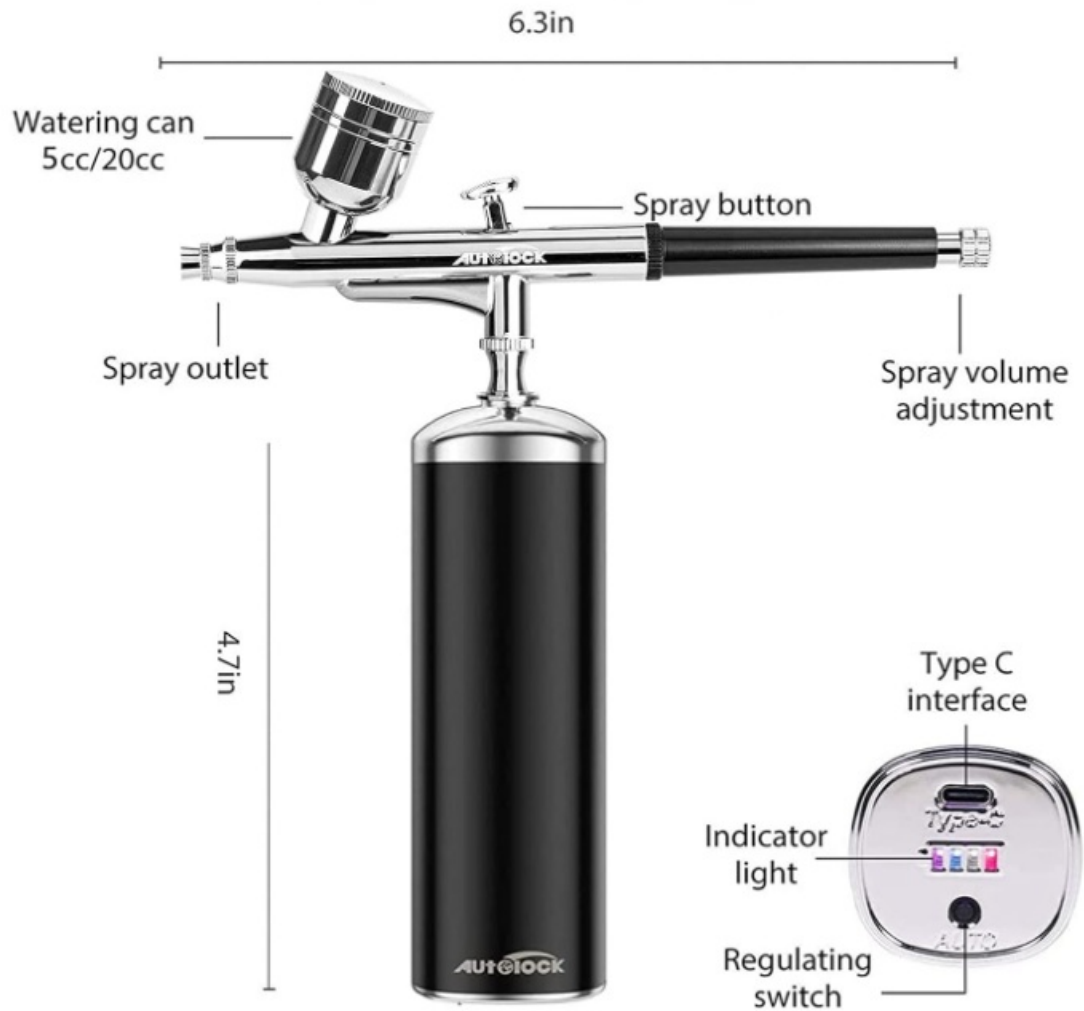

- 1 x Airbrush
- 1 x Mini Air Compressor
- 1 x Type-C Charging Cable
- 1 x Dropper
- 1 x User Manual
- 1 x 5/20/40ML Capacity Cup
- 5 x Brush

## Product Overview

## Features

1. **Cordless Design:** The Autolock METU-30S is portable and doesn't have any cords, so users can work without having to deal with tangled wires. So, it's great for projects you want to do on the go and use outside.
2. **Rechargeable Battery:** This airbrush has a rechargeable battery that lasts a long time and lets you use it continuously for up to two hours. It also allows fast charging, which means the device can be fully charged in 1.5 to 2 hours.

3. **Levels of Adjustable Pressure:** The airbrush has a pressure range of 20 to 30 PSI, which gives users exact control. They can change the pressure to suit their needs, whether they are using it for nail art, makeup, or painting.
4. **Dual-Action Features:** The dual-action airbrush lets you control the flow of both air and liquid separately. To shoot liquid, just pull back on the trigger after pressing it. This gives you professional-level control and accuracy.
5. **Compact and Lightweight:** This airbrush is designed to be practical and compact. It is also light and easy to handle, so you can use it for long periods of time without getting tired.
6. **Multi-Use:** The airbrush can be used for many things, such as drawing models, applying makeup, decorating cakes, doing nail art, getting temporary tattoos, and more.
7. **Durable Construction:** The device is made of a high-quality metal alloy and plastic, so it will last for a long time and still look good.
8. **Noiseless Operation:** The airbrush doesn't make a lot of noise when it works, so it can be used indoors or in business settings where noiseless operation is important.
9. **New and Improved Trigger system:** The trigger controls an auto-start and stop system on this airbrush. By changing how the trigger moves, users can exactly control the paint output, which makes it easier to do detailed work.
10. **Higher Airflow Efficiency:** The METU-30S has an airflow rate of 6–8L/min, which is 50% higher than similar airbrushes. This means that spraying is smoother and more uniform, giving you professional-grade results.
11. **Battery Indicator Lights:** Four LED lights at the bottom of the compressor show the battery level and let users

know how much power is left.

12. **Stylish and Small:** It's easy to carry and great for business trips or travel because of its slim and stylish design and small size.
13. **Better Paint Compatibility:** The nozzle is made to work with paints, inks, and watercolor colors that have been properly watered down. It works with a lot of different liquids and has a 0.3mm nozzle size that makes spraying smooth.
14. **Faster Charging:** The airbrush comes with a Type-C charging wire and can be charged faster with DC 5V-2A chargers. This means there will be less time between uses.
15. **Dedicated Auto Button for Air Volume:** At the base of the compressor is a "Auto" button that makes it easy for users to change the air volume for a variety of uses.
16. **Excellent Customer Service After the Sale:** The Autolock name offers a one-year warranty and dependable customer service. Any problems with quality that are caused by things other than people are quickly fixed, making sure that the customer is happy.
17. The cordless airbrush kit is a great gift for family or friends who like to do creative things, from do-it-yourselfers to expert artists.

## Usage

1. **Setup:** Fully charge the airbrush before initial use. Ensure the paint or liquid is properly diluted to a milk-like consistency.
2. **Operation:**
  - Press the trigger to release air; pull back the trigger to spray liquid.
  - Adjust the air pressure by pressing the "Auto" button at the base.
3. **Applications:** Ideal for makeup, baking, crafting, and other creative endeavors. Select the appropriate pressure setting based on your task.

## Care and Maintenance

1. Test with clear water before using paint to ensure the airbrush is not clogged.
2. Use only water-based or properly diluted paints to prevent blockages.
3. Clean thoroughly after each use:
  - Rinse the fluid cup and nozzle with cleaning solvent or alcohol.
  - Block the needle cover and spray backward to clean internal residues.
4. Dry the airbrush completely after cleaning to prevent rust or stains.
5. Avoid continuous operation beyond 30 minutes to extend the compressor's lifespan.
6. Do not use the airbrush while charging.

## Troubleshooting

### Airbrush Not Spraying Liquid:

- Check if the fluid control knob is too tight or the nozzle is clogged.
- Clean the nozzle using the cleaning brush and solvent.

### **Compressor Not Charging:**

- Ensure the battery is not fully depleted. Recharge using a compatible 5V-2A charger.

### **Uneven Spray or Clogging:**

- Use properly diluted paint or thinner to avoid clogs.
- Clean the nozzle and fluid cup after every use.

### **Reduced Battery Performance:**

- Charge fully before use, and avoid overcharging the battery.

### **Paint Too Thick:**

- Dilute paint to a milk-like consistency for optimal spraying performance.

### **Nozzle Blockage:**

- Clean thoroughly with cleaning solvent after every use to prevent dried paint buildup.

## **FAQs**

What makes the Autolock Cordless Airbrush Kit unique compared to other airbrush kits?

The Autolock Cordless Airbrush Kit stands out due to its cordless design, dual-action control, adjustable air pressure up to 25 PSI, and a long-lasting rechargeable battery for up to two hours of operation.

What types of projects can the Autolock Cordless Airbrush Kit handle?

The Autolock Cordless Airbrush Kit is versatile and can handle makeup, cake decoration, nail art, body painting, model crafting, and temporary tattoos.

How long does it take to charge the Autolock Cordless Airbrush Kit fully?

The Autolock Cordless Airbrush Kit takes approximately 1.5–2 hours to fully charge using the included Type-C charging cable.

What materials is the Autolock Cordless Airbrush Kit made of?

The Autolock Cordless Airbrush Kit is constructed with durable aluminum alloy and high-quality plastic for long-term use.

How do you control the air and liquid flow with the Autolock Cordless Airbrush Kit?

The Autolock Cordless Airbrush Kit features a dual-action trigger system, allowing you to control both air and liquid flow for precise application.

What is the maximum air pressure of the Autolock Cordless Airbrush Kit?

The Autolock Cordless Airbrush Kit provides adjustable air pressure up to 25 PSI, catering to various project needs.

How long does the battery of the Autolock Cordless Airbrush Kit last on a single charge?

The battery of the Autolock Cordless Airbrush Kit lasts up to two hours on a single charge, offering extended usage for your projects.

What are the charging requirements for the Autolock Cordless Airbrush Kit?

The Autolock Cordless Airbrush Kit supports fast charging with a DC 5V-2A charger for optimal performance.
